FEE STATEMENT

Showing Receipts into the Special Fee Fund and Expenditures from the General Fund and Special Fee Fund on account of the Officers Collecting Fees.

NOTE.—Only the fees collected by the Recorder and County Clerk can be considered under present laws to be regulated with reference to meeting the expenses of the offices. The Sheriff's expenses are to a great extent on criminal business, care of jail, etc., and are necessarily in excess of fees collected. The expenses of the other officers are not by law provided for or expected from fees, they being incidental; it is considered desirable, however, in stating this table of fees collected to include in it all the officers who pay in fees, however disproportionate the incidental fees are to the salaries and expenses of such. By the numerous changes in the laws, the original object of the Special Fee Fund has been

rendered nugatory. The large amounts collected and paid into the Treasury by the Tax Collector and Treasurer are mainly commissions received from the State for collections.

Officers.	Fees Received.	Expenses, per Statement below.
Recorder	\$37,348 50	\$28,092 24
County Clerk.....	31,829 70	30,842 90

City Treasurer, requisition of 1865-6...	\$180,550 00	
Interest	83,771 20	
Wharf Rents	2,523 68	
Real Estate.....	1,457 00	
Rent of Lots	2,160 00	
		270,461 88
		<u>\$1,054,682 02</u>

DISBURSEMENTS.

Interest on Bonds.....	\$130,695 64
Bonds Redeemed	15,600 00
Premium on do.	775 00
Advertising, Clerk's Hire, Notarial and Court Fees, etc.	1,626 60
Attorney's Fees	2,400 00
Salaries of Commissioners, including Pres- ident and Secretary	7,400 00

\$158,497 24

Loans outstanding at this date; viz.:

On Real Estate.....	102,330 00
On Stocks and Bonds.....	246,042 40
Stocks taken to account.....	528,993 02
Real Estate taken to account.....	11,639 20
Cash on deposit with Parrott & Co.	7,180 16

896,184 78

\$1,054,682 02

The amount of Bonds outstanding on the
31st of May, 1865, as stated in our
last Report, was

1,305,500 00

During the past year there has been re-
deemed

15,600 00

Leaving outstanding on the 31st ult.....

\$1,289,900 00

[The Interest on this sum for the year 1866-7 amounts to \$128,990, which, with \$50,000, the sum annually appropriated under the Act to the Sinking Fund, makes a total of \$178,990 to be drawn from the City Treasury the current year.]

The following is a statement of the Sinking Fund, as appears on the books of the Board, and in the condensed statement of the Secretary accompanying this Report:

Loans on Mortgage of Real Estate.....	\$102,330 00
Loans on Bonds and Stocks	246,042 40
Stocks owned by the Board, to wit:	
\$260,500 San Francisco 6 per cent. Bonds.....	153,345 50
277,500 San Francisco 7 per cent. Bonds.....	206,125 00
1,000 San Francisco 10 per cent. Bonds.....	1,016 67
45,000 Santa Clara County 7 per cent. Bonds .	31,626 00
27,000 Spring Valley Water Co. 12 per cent.	
Bonds	24,790 00
50,000 United States 7-30 per cent. Bonds	37,375 70
3,000 Miss. R. R. 7 per cent. Bonds (Page,	
Bacon & Co.).....	2,464 15
1,000 shares Spring Valley Water Stock	51,000 00
150 shares San Francisco Gas Stock	15,050 00
\$8,184 38 warrants on the State Treasury.....	6,200 00
Real Estate taken to account	11,639 20
Interest accumulated on Bonds and Loans	16,893 00
Cash on deposit with Parrott & Co.....	7,180 16
	<hr/>
	913,077 78
Less Coupons due, but not presented.....	24,755 00
	<hr/>
Available Sinking Fund.....	888,322 78
Add amount due from the City on the requisition of	
1856-7	68,513 43
	<hr/>
	<u>\$956,836 21</u>

[In the above statement the available Sinking Fund is made out to be \$888,322 78; but if we add to this sum the difference between the actual cost and the present increased market value of the Bonds, Stocks, and Real Estate owned by the Board—say \$80,000—we have an available Sinking Fund of \$968,322 78.]

The Annual Statement of Receipts and Disbursements, certified to as required by the Funding Act, is herewith appended, together with a list of Lots conveyed by the Board under the Act of the Legislature of April 14th, 1862. The details of the financial transactions of the Board are furnished to the Auditor of the City in the monthly statements made to him.

All of which is respectfully submitted.

JOHN MIDDLETON,
WM. HOOPER,
C. L. LOW.

The valuations of Real Estate and Personal Property for 1865-6 exceed those of the immediately preceding fiscal year, nearly five and a quarter millions of dollars, and the collections of taxes for 1865-6 exceed those of said preceding year, on about five and a half millions of dollars, the excess of collections being on Personal Property.

The constant subdivisions of blocks, one hundred vara and fifty vara lots, materially increase the labors of this department, but the expenses are not proportionately increased.

The last Legislature passed an enabling Act, applicable to the whole State, affording the much needed power for "the amendment of omissions, errors and defects, in form," discovered in assessment rolls and other official proceedings for raising public revenue, thus disposing of a serious source of annoyance. The same Legislature passed an Act "to facilitate the collection of Delinquent Taxes in the City and County of San Francisco," from which Act great benefits are anticipated in the future.

Another Act, passed at the same session, materially modified the revenue law, as to exemptions of property from taxation, tending to reduce the amounts of such exemptions and thereby increase the public revenue.

The decisions of the Supreme Court, in the various, so-called, Mortgage Suits, did not reach the main question, to wit: the legality of the said assessments, but disposed of the cases upon a mere technicality, to wit: the absence in the rolls of the \$, or other mark, indicating what the figures in the valuation columns were intended to represent. As that disability does not exist in the rolls of 1865-6 and 1866-7, new

cases will be speedily prepared and submitted. In the mean time that class of assessments, exceeding in valuation twelve millions of dollars each year, will remain in suspense.

The Foreign Insurance Suits, mentioned in my last Annual Report, were decided in favor of the People, excepting so far as the Bonds deposited were Bonds of the United States, and by Act of Congress not taxable. Seven-twelfths of the Bonds so deposited were of the non-taxable class.

The new "Military Law" of 1866 disposed of the Military Poll Tax, and provided for the accumulation of a "Military Fund," by a direct Property Tax of five cents on each one hundred dollars of valuation.

A revision and reënactment of the General Revenue Law was urged during the session of the late Legislature, but the labor necessarily connected therewith was greater than any one member was willing to undertake. Preparations therefor should be made before the commencement of the next ensuing session, and the subject presented before the accumulation of other business renders another failure certain.

Respectfully submitted,

CHAS. R. STORY,

Tax Collector.

ASSESSOR'S REPORT.

ASSESSOR'S OFFICE, }
San Francisco, August 1st, 1866. }

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco—*

GENTLEMEN: In compliance with the request contained in Resolution No. 5556, passed by your Honorable Body June 8th, 1866, I hérewith submit a Report of matters connected with the Office of City and County Assessor.

EXPENSES OF THE OFFICE.

Salary of Assessor from July 1st, 1865, to July 1st, 1866	\$4,000 00
Salary of Deputies from July 1st, 1865, to July 1st, 1866	11,840 00
Books, Maps, Blanks, and Stationery	1,632 35
Advertising	562 50
<hr/>	
Total	\$18,034 85
Deduct State's Proportion, $\frac{115}{312}$	6,647 46
<hr/>	
City and County's Proportion is	\$11,387 39
<hr/>	

The aggregate of the Personal Assessment Roll for the present Fiscal Year is	\$40,960,802	58
To which add Supplemental Roll, estimated amount	500,000	00
<hr/>		
Making total of Personal.....	\$41,460,802	58
Assessed Value of Personal, 1865-6.....	39,164,246	68
<hr/>		
Increase over last year's Roll.....	\$2,296,555	90
* The Real Estate Roll is not yet completed. I can, therefore, only give at this time an estimate of the aggregate valuation. It will not vary much from.....		
	\$52,500,000	00
<hr/>		
Valuation of Real Estate 1865-6.....	\$49,138,027	00
<hr/>		
Estimated Increase over last year's Roll.....	3,361,973	00
Increase of Personal Roll, as above.....	2,296,555	90
<hr/>		
Total of Increase.....	\$5,658,528	90
<hr/>		

By reason of an Act passed at the last session of the Legislature, there will be a considerable diminution in the amount of property heretofore exempt from the payment of taxes, it may be therefore reasonably expected that taxes will be collected the present fiscal year on an amount exceeding that of last year, by at least \$6,000,000.

The total amount on which taxes were collected last year was \$68,167,642 95, therefore it may be expected that taxes will be collected the present fiscal year, on at least \$74,000,000 00.

Nearly one third in amount of the Personal Roll is comprised of the items "money loaned, and solvent debts," under which classification is assessed all moneys loaned, secured by mortgage. The collection of taxes upon this description of property is still contested, no decision of the Supreme Court of this State having yet been had upon the legality of the assessments made by the present Assessor, the cases recently decided by that Court were upon assessments made by the predecessor of the present incumbent, and were decided upon purely technical grounds. The undersigned is fully assured that the assessments of this description of property, made for the present, and last two fiscal years, have been made in strict conformity with the law in every respect, and he respectfully urges the immediate necessity of obtaining a decision of

the Supreme Court thereon, believing that the assessments will be sustained by the Court, and thus taxes on nearly \$50,000,000 of property, amounting to about \$1,500,000 will be collected, the beneficial result of which, to the Citizens at large of this County, will be the very material reduction of the rates of taxation in the future.

Respectfully submitted.

WM. R. WHEATON,

Assessor.

COUNTY RECORDER'S REPORT.

HALL OF RECORDS,
San Francisco, August 1st, 1866. }

*To the Honorable, the Board of Supervisors,
Of the City and County of San Francisco—*

GENTLEMEN: In accordance with the Resolution No. 5,556, of your Honorable Board, passed June 8th, 1866, requesting the various City and County officials to report to you the proceedings of their respective departments, I have the honor to submit the following, as a summary of the transactions in the Hall of Records:

I have only to add to what was recommended by me last year, that, as there is, according to the annexed Report, a surplus of over Nine Thousand Dollars, it would be advisable to create a Sinking Fund, to be appropriated for the erection of a Hall of Records, to be exclusively composed of brick, stone and iron, and detached from any other building, thus rendering it a safe depository for such important documents as are those relating to Real Estate; the safety of which cannot be over estimated.

I regret that but one of the measures suggested by me last year was acted on by the last Legislature, viz: The recording of Sheriff's Certificates of Sale under execution, which were required by law to be merely filed previous to their action; a very loose manner of preserving documents so valuable, and important in completing titles to Real Estate.

Your action in depositing in this office files of probably the two oldest newspapers published in this City, meets with universal approval; they are frequently referred to for information of great importance to the community.

The receipt of Instruments has been so uniform for each month throughout the year, that I deem it unnecessary to present a tabular monthly statement.

Respectfully submitted,

T. YOUNG,
County Recorder.

COUNTY CLERK'S REPORT.

OFFICE OF THE COUNTY CLERK OF THE CITY AND COUNTY OF SAN FRANCISCO, }
San Francisco, July 31st, 1866. }

*To the Honorable the Mayor
and the Board of Supervisors—*

GENTLEMEN: In compliance with a Resolution of your Honorable Board, adopted on the 4th of June last, I submit the following report of the condition of the County Clerk's Office, and of the business transacted in its several departments during the Fiscal Year ending June 30th, 1866.

Very respectfully,

WM. LOEWY,

County Clerk.

GENERAL REMARKS.

LITIGATION.

[See table of number of suits commenced since July 1st, 1859.]

Though it might seem at first glance at the number of suits commenced during the last year, that litigation is decreasing, the contrary is certainly the fact. The decrease in the number of actions from the years 1864-1865 is explained, when it is remembered that in May 1865, some two hundred suits, exclusively for ejectment from outside lands, were brought to avoid the operation of the statute of limitation. If it be considered that the constitutional amendments of 1864 gave Justices of the Peace jurisdiction over cases in which an amount up to three hundred dollars is involved, and that this jurisdiction includes at least one fourth of all cases formerly brought in the District Courts, it will be apparent that the number of suits commenced in these Courts during the last two years, as compared with the number of suits brought previous to 1865, indicates a great increase of litigation, which cannot be accounted for by the increase of population for the last two years.

REGISTRATION OF CITIZENS.

The Act known as the "Registry Act," approved March 19th, 1866, has imposed very great and onerous duties upon the present incumbent of the office of County Clerk. Registration alone, of the citizens of

this County, and the transfer of the Assessor's enrollments to the Great Register, has employed the County Clerk and his specially appointed assistants day and night, ever since the Act went into effect. For the hearing of those applicants for Registration who have lost their Certificate of naturalization, or who claim citizenship under their father's naturalization, the County Judge and the County Clerk were daily in attendance together, from 4 to 6 P.M. These duties, together with the making up of the Poll Lists for the next Election, and the alphabetical arrangement of the entire Register, for publication in July, 1867, are labors so great, that so far as this County is concerned, a special commission should have been created by the Legislature, for their performance. This would have been the more expedient, as even to give information about the provisions of the Registry Act to the masses of citizens who constantly apply for it at this office, has become not an inconsiderable branch of its business.

However, no efforts have been spared in this office to carry the law into effect promptly, and with as little inconvenience as possible to the public. Besides a specially appointed deputy, (Mr. Paul Neumann) and several assistants employed in transferring the Assessor's Enrollments, my deputies generally have rendered valuable aid.

There are registered in the Great Register, this 31st day of July 1866, the names of 12,520 citizens of the United States, residing in this County.

Of these there were registered on their personal application

to the County Clerk.....	6,853
Enrolled by the Assessor.....	5,667
Of this number, (12,520) are native citizens.....	7,400
Foreign born citizens.....	5,120

FEES.

The Fee system, applicable to this office previous to the last Legislative session, was most confused and unsatisfactory. Acts of 1854, establishing the fees in Sacramento County, though long ago repealed as to that County, were construed as still governing the fees in San Francisco. But for this construction, there was no statutory provision for the collection of fees for the most of the Clerk's services, rendered at individual request. At the last session of the Legislature I drew up a complete Fee Bill for this office, which received the approval of the Judges of the District, County, and Probate Courts of this County

and which became a law. A new feature is a provision therein, which gives Judges the power of remitting the fees, when parties are unable to pay them, so that poverty need not be an obstacle to any one to obtain a hearing in the State Courts of Record of this County.

FEES IN THE PROBATE COURT.

There is no public department in which it would be more just to collect sufficient fees to pay the expenses of the public service, than in the Probate Court, and yet there is no department in which the fees charged are so far below the cost of maintaining it, and so inadequate to the labor performed.

The fees collected in this Court during the past year amounted to \$3,125 50. During the same period, proceedings were commenced on 255 estates, and a great deal of clerical labor performed at individual request, aside from that attending the administration of those estates. The salaries of two deputies and one copyist in the Probate Court amounted to \$5,100. Other actual expenses of this Court, as stationery, &c., are therefore, entirely above the receipts. In the new Fee Bill, I endeavored to cover this deficit as far as possible, without revolutionizing the existing Fee system. That Act provides that after recording 30 folios for an estate, the Clerk shall collect twenty cents for every folio thereafter recorded. Heretofore, sometimes whole Records had been filled for an estate without any compensation to the County except the trifling fee at the commencement of the proceedings.

All of which is respectfully submitted.

WM. LOEWY,
County Clerk.

CHIEF OF POLICE'S REPORT.

POLICE OFFICE,
San Francisco, August 1st, 1866. }

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco—*

GENTLEMEN : I herewith submit my Report of the labors of the Police Department for the fiscal year ending June 30th, 1866.

Schedule "A"—an exhibit of the arrests made by the Police during the year ending June 30th, 1866.

Schedule "B"—an exhibit of amount of property reported as stolen or lost—and the amount recovered by the Police during the year ending June 30th, 1866.

Schedule "C"—an exhibit of money, and cash value of articles passed through the hands of the Police, taken for the most part from persons intoxicated and otherwise unable to care for themselves at the time of their arrest, and temporarily in the possession of the Chief of Police, for the year ending June 30th, 1866.

Schedule "D"—is a table showing the number of witnesses subpoenaed for the Police Judge's Court : Nuisances on private property abated ; Street obstruction notices, and Lost Children restored to their parents or guardians by the Police, for the year ending June 30th, 1866.

Schedule "E"—an exhibit of cash received from Sheriffs of other counties ; masters of vessels and others, for the keeping of prisoners in the City Prison, for the year ending June 30th, 1866.

Schedule "F"—List of Lost, Stolen, and Unclaimed Property, in the possession of the Chief of Police, to June 30th, 1866.

In my annual reports in former years, I have endeavored to point out the defects in the laws in force against gambling, and to exhibit the cause why this crime is not suppressed.

My report to your Hon. Board in July 1864, gives full and complete information on the subject.

I beg leave to repeat my language on that occasion :

EXTRACT OF THE ANNUAL REPORT OF THE CHIEF OF POLICE, TO THE
BOARD OF SUPERVISORS, JULY 30TH, 1864.

"I consider that the present is not an unfitting occasion to make some remarks upon a subject which ought to receive the attention of every parent among us, and of all who have at heart the welfare of our youth. I allude to the crime of gambling.

"Prior to March 14th, 1851, gaming was conducted publicly, and was unforbidden by law ; but upon that day the Legislature passed 'An Act to License Gaming,' which continued in force for about four years, and until repealed by 'An Act to Prohibit Gaming,' passed April 17, 1855.

"This act made gambling a misdemeanor, and punishable by a fine of not less than One Hundred nor more than Five Hundred Dollars for the first offence, and double the penalty for each subsequent offence. This law also makes the owners of gambling houses liable to punishment.

"On the twenty-seventh of April, 1857, the Legislature passed 'An Act to Prohibit Gaming,' which provided that the conductors of banking games should, upon conviction, be punished by imprisonment in the State Prison, not exceeding two years, and by a fine not exceeding Five Thousand Dollars.

"Also, that bettors at such games should be punished by a fine not exceeding Five Hundred Dollars, and imprisonment in the County Jail not exceeding six months, and excusing from criminality the bettor who should be called as a witness for the people.

"This act was, what its title called it—'*An Act to Prohibit Gaming*'—and under its rigor the officers of the law had a right to break into and enter, in a most summary manner, places where games were conducted. Under the general power granted to officers in cases of felony, arrests could be made in the night-time, or even upon bare suspicion, and witnesses could be compelled to come and give evidence.

“Clothed with such authority, the faithful officer found it no difficult task to extinguish a gambling house as soon as its existence became known, and the result was that banking games were almost entirely suppressed in San Francisco.

“The gambling energy thus restrained soon broke out in other forms of vice, and a number of mongrel games were introduced, such as rondo and propps. These for a few days were conducted openly; and when first arrested, it was claimed by their votaries that they were games of skill, and not in violation of the law.

“The verdicts, however, of numerous juries of our citizens, who were called by the defendants in these cases, set the matter at rest, and the conductors of such games were punished under the law of 1855, for conducting games of chance.

“On the 7th of March, 1860, the Legislature passed ‘An Act to Prohibit Gaming,’ which abolished the felony penalty and made gambling only a misdemeanor, punishable by fine not exceeding One Thousand Dollars, nor less than One Hundred, and imprisonment in default of payment.

“On the twenty-seventh of April, 1863, the Legislature passed another Act which limits the imprisonment for non-payment of the fine by a person convicted of gaming, and providing for the removal and punishment of any officer who shall fail to do his duty in the suppression of gambling.

“A subject which has received such varying treatment from the Legislatures of our State, may well be considered a difficult question to dispose of, and I am compelled to remark that the present law is not such a one as can be satisfactory to the people of this City, nor to the officers charged with its enforcement.

“The Grand Juries of this County have frequently given this subject a very thorough investigation, and in this connection I beg leave again to call your attention to the following reports of three successive Grand Juries, who fully investigated the matter.

GAMBLING.

“The cause of its prevalence and manner of its prevention, as developed by three successive Grand Juries of the City and County of San Francisco, who were especially charged by the Court of Sessions to examine into the reason of its prevalence. *The results of their examinations are entitled to the fullest confidence, because they have subpœnaed whatever witnesses they thought proper, and received none but sworn evidence.*”

REPORT OF GRAND JURY, NOV. 29TH, 1862.—(EXTRACT.)

“‘The subject of gambling, which was especially referred to by the Court in its charge to the Jury, has received their most earnest attention. The Grand Jury found that this great public evil was even more wide-spread than they were led to believe from the suggestions of the Court, and at once entered upon a thorough and serious investigation of it. The results of that investigation will be found in the several indictments for gambling, above enumerated.’ (Thirty-six.)

“‘The Grand Jury regret that their limited time prevented a more searching and critical examination, and would respectfully recommend to their successors a further pursuance of the subject. Gambling houses were found to be located in the very heart of our City, and on most of our principal thoroughfares. In some of these establishments the business had been conducted on a most extensive scale, with numerous gaming tables, a large *corps* of employees conducting the various games, and a crowded assemblage of deluded victims.’

“‘In endeavoring to account for the causes which have produced this state of things, and the remarkable increase in the number of gambling houses during the past year, the Grand Jury are led to believe that some portion of the evil has arisen from the inefficacy of the existing law on the subject of gaming, and they would respectfully, but urgently call the attention of our Senators and Representatives at the coming session of the State Legislature, to this matter of such vast importance to our community. The former law against gaming, and which was repealed on the passage of the present statute, was a most stringent one—making the offense a felony, and punishable by imprisonment in the State Prison. During the prevalence of that law, gambling was confined to comparatively prescribed limits, and was, therefore, much less of a public evil than at present.’

“‘If a law of a similar character could be re-enacted, with some necessary and judicious amendments, it is believed that the practice of public gambling which, perhaps, may never be entirely suppressed by legislation, would be so narrowed down, and driven into such obscurity, as to very materially mitigate the present evil. Prompt and energetic action should be taken by each succeeding Grand Jury, and an additional appropriation should be permitted, if necessary, to the Police Contingent Fund, to enable the Police Department to take such steps as are necessary in the premises. Every good citizen who is jealous of the fair fame of our beautiful City, should earnestly co-operate with

the authorities in carrying out this good work, by rendering such information as they may become possessed of as to the the locality of gaming-houses in their immediate neighborhood, and as to the names of their lessees, proprietors, employees and visitants. Gambling is a vice confined to no particular class of the community. At its shrine may be found worshippers from all ranks of society. It is, therefore, a matter of direct interest to every citizen, that the evil should, if possible, be eradicated.'

"'Every merchant, every manufacturer, every banker, every employer, every head of a family, should give this subject his deep and serious attention, and should do all in his power to assist the authorities in suppressing an evil which is insiduously sapping the very foundation of our social system.'

"'The Grand Jury have been materially aided by the Chief of Police, who has cheerfully and promptly responded to all their requirements.'

REPORT OF GRAND JURY, JAN. 30TH, 1863.—(EXTRACT.)

"'As directed in the charge of the Court, the earnest attention of the Grand Jury has been devoted to the subject of gambling, with a view to its suppression. The number of true bills found against persons charged with this offence, exhibits the alarming prevalence of this evil practice in our community. The evidence sustaining the complaints discloses a skillful and systematic effort to set the laws at defiance. Extraordinary precautions have been taken by the proprietors of the gambling saloons to prevent the entrance of the officers of the law. The dealers and employees, by masks, false hair, and other contrivances, are so disguised that when arrested, in many instances, their victims are unable to recognize them.'

"'Among the most serious crimes which have occupied the attention of this Grand Jury, are two indictments caused by losses at the gaming table. The victim in this case was a warehouse porter, enjoying the confidence of an old established firm. To pay his losses at the gaming table, he robbed his employer, and to conceal the continuous abstraction of large amounts, he fired the warehouse.'

"'Other instances of ruined fortunes and reputations were brought to the notice of the Grand Jury, and it has become painfully evident that unless some more stringent laws are enacted on this subject, the evil will increase. The proprietors of buildings in which prohibited games are played, are liable, under the present act, to heavy fines, after

notice that their property is so employed. Many had been notified before the assembling of this body, and a mass of evidence has been taken, which, with the recorded evidence of ownership of the buildings in which gambling is carried on, will enable our successors to reach parties amenable to this complaint. The attention of the next Grand Jury is earnestly invoked to this subject; this being a short term, want of time to obtain from the County records evidences of ownership, has been, to the regret of the present Grand Jury, the sole cause of this reference.'

"In this matter, the services of the Chief of Police, Dr. Burke, deserve high commendation. To eradicate an evil, however, having so many votaries, he should be authorized to employ additional detectives, and the necessary funds should be provided for that purpose.'

"The reports of previous Grand Juries have convinced this body that the law now in force is very defective. The profits of gambling are sufficiently large to form a fund to pay the fines of those who are convicted under it.'

"Several years ago a Justice of the Supreme Court drafted a bill which became a law, and which did much to arrest this evil. That act was repealed by the present defective statute, and this terrible vice is now active among us in all its degrading influences. In view of these facts, the Grand Jury would recommend to the Representatives of this City and County in the Legislature, to have the previous law re-enacted, with any amendments that may be necessary to make it fully effective; and would further recommend that, when convictions are had under the present act, the severest penalty be inflicted.'

REPORT OF GRAND JURY, MARCH 28TH, 1863.—(EXTRACT)

"On the whole, we can congratulate our City on the thorough and faithful administration by its officers of their duty, and its general prosperity, with one exception, which is—GAMBLING. This, from all we can learn, is carried on to almost an alarming extent; the present laws prevent our Police from arresting it materially, and our *Legislators* either have not the constitutional power, or *disposition* to enact laws necessary to enable our Police to arrest its prosperity.'

"I will further remark that I have appeared personally before several Grand Juries since these reports were made, and whenever they were ready to examine into this class of crime, I have caused to be subpœnaed before them the frequenters and employees of houses where it is suspected that gambling is carried on.

“In this way the Grand Jury has in some instances found sufficient evidence to find a bill, and one Grand Jury on this kind of evidence indicted over twenty persons, while another Grand Jury since, before whom some sixty of the persons above described were subpœnaed, found only one indictment on this sort of evidence.

“I remark with regret that as yet no convictions have followed in these cases in the County Court, while quite a number have been recently dismissed because the witness whose evidence supported the indictment had not appeared at the trial; nor is it to be wondered at, that it should be so, when it is observed that in these cases the witnesses testify by compulsion, and some have been sent to the County Jail for contempt in refusing to answer questions.

“And if a gambler is indicted on the evidence of a companion of the game, it is not surprising that the witness should absent himself at the time of the trial and thus defeat the law in support of which he gave involuntary testimony.

“I am not, therefore, able to commend this plan of action as productive of the end sought to be obtained, namely, the suppression and punishment of gambling, although I do think it a fitting subject of inquiry for each Grand Jury.

“However, the usefulness of a law which only harasses and annoys the evil doer without bringing him to punishment may well be questioned, and it may here be considered that under the remarkable condition of our currency the heaviest fine which the present law allows to be inflicted on a person convicted of violating the gambling law, namely, one thousand dollars, can be met by the convicted, by the expenditure of about four hundred dollars in coin by purchasing therewith United States legal tender notes. This condition of the currency did not exist when the gaming law now in force was passed.

“The plan of hiring informers to enter these places and prosecute gamblers has often been considered by this department, and in some instances attempted, but it has not been found sufficient to meet the evil, for many reasons, among which I may mention that none have been found who were willing to undertake this duty for the sake of vindicating the violated law, without the promise of pecuniary gain.

“The Department has no fund to draw upon sufficiently large to compete successfully with the violators of the law in the purchase of testimony.

“The Police Contingent Fund was not granted for this purpose, it being intended solely for the payment of such expenses as are incurred

in the capture of criminals who have escaped from the City,—in horse hire,—telegraphic and sundry expenses connected with the efficient administration of criminal law, and the conveyance of drunkards and insane persons to the Hospital or Prison.

“It will be readily perceived, that it is only by the most rigid economy that this fund can be made adequate to the legitimate demands upon it.

“Upon the 25th of April, 1863, the Legislature passed ‘An Act to confer further power upon your Board which authorizes you *to prohibit and suppress, or exclude from certain limits, all houses of ill-fame, prostitution, and gaming.*’

“Soon after the passage of this Act, I submitted the question to Mr. Saunders, the City and County Attorney: could not your Board pass an order which would authorize police officers to enter any house where they had reason to suppose that gambling was carried on?

“Upon a cursory examination of the subject he agreed with me, that your Board had power to do so; whereupon I applied to the Grand Jury to recommend its passage, but upon a subsequent examination Judge Shephard and Mr. Saunders concluded that no such power existed.

“Being convinced that if I had the power to enter those houses at will I could break up gambling in this City, I went before our delegation to the Legislature and urged upon them the necessity which existed for the passage of an Act giving power to the Police to enter houses where they suppose gaming was conducted, and making it a misdemeanor to oppose their entrance.

“A law upon this basis was presented in the Assembly and defeated.

“I would, however, suggest that the question of the power of your Board to pass such an order be submitted again to some able criminal lawyers, because I am confident that under the power of such an order I could suppress all gambling in this City in ten days.

“The importance of this subject will doubtless appear to you a sufficient excuse for the space devoted to its consideration.

“I may, however, remark that there is no public gambling carried on in this City; that there are few gambling houses here compared with other cities; that those houses where gambling is conducted are guarded by watchful doorkeepers, and that some of the houses are conducted as clubs, no one being admitted in any way unless all the *habitues* of the house are satisfied that they will not aid the Police in any way.

"I am at the present time about to institute some prosecutions which we expect will result in conviction, inasmuch as some of the recently appointed Policemen have been able to procure testimony.

"In conclusion of this part of my Report, I may remark that the Department under my control have been and are most desirous to enforce the present law; and that I have been most willing to avail myself of any and every suggestion which might tend to lessen this evil."

During the past year the Police Department under my direction have been diligent in seizing every opportunity to enforce the existing law for the suppression of gambling, and in some instances they have presented to the District Attorney information upon which that officer has instituted prosecutions.

Upon the occasion of an increase of the Police force in October, 1865, the newly appointed officers, eighteen in number, were detailed for about a week, as detectives, for the suppression of gambling, and having been fully instructed in their duties, were directed to report in writing every day. These reports are too numerous and too long to be embodied in this paper, but they contain evidence that the condition found by the Grand Jury which reported January 30th, 1863, remains unchanged. I close this part of my report, by quoting from the MESSAGE OF GOVERNOR LOW to the Legislature, December 9th, 1865.

GAMBLING.

"I desire to call your attention to the laws now in force intended to prohibit gambling, by punishing those who engage in it, and to ask such modifications as will accomplish the object sought. The workings of the present law do not tend to suppress this vice, or even abate it. Indeed, persons best able to judge, affirm that gambling houses have increased in number during the last two years. The evils resulting from the continuance of these practices have become painfully apparent in the ruined fortunes and reputations of many persons who have heretofore borne good characters. The amount of secret misery and sorrow caused by the existence of houses of this character is beyond computation.

"That some well directed effort should be made by the Legislature that will, as nearly as may be, prohibit and break up gambling games is demanded, not only by all good citizens, but by the weak minded persons who cannot resist the temptations that beset them. I therefore

recommend either that the law of April 27th, 1857, be re-enacted, declaring the crime a felony, punishable by imprisonment in the State Prison, or that the penalties of the present law be materially increased. If the latter course be adopted, authority should be given to officers of the law to break into places where games are conducted, and arrest parties suspected of being guilty of the offence; in other words, should the offence be classed as a misdemeanor, as at present, officers should have the same power in making arrests, either day or night, upon well grounded suspicion, as is now provided in cases of felony."

SANITARY.

Owing to the extensive apprehension of the spread of contagious diseases, consequent on the appearance of cholera in Europe, precautionary measures have been taken in this City, tending to prevent the appearance or spread of epidemics. As early as April 3d, 1865, your Honorable Board passed Order No. 626, establishing a Board of Health. In carrying into effect these precautionary measures ordered by the Board of Health, the Police Department have been zealous and active. Each Policeman performing the duties of Health Inspector on his own beat. For a detailed account of the number of nuisances abated, and notices served, I refer to the report of the Health Officer.

CHINESE PROSTITUTES.

The presence and influence of several hundred Chinese women, abandoned to vice, and existing in filthy, undrained, unventilated dwellings, polluting the atmosphere near the center of the City, was an evil long suffered, but never sanctioned by a great majority of our citizens. • The Street Railroad cars having to pass through this infested neighborhood for some years past, it became the duty of the Police, so far as they were able, to suppress outrages to public decency by these miserable unfortunates, and in pursuance of this purpose the effort was made, by the Head of the Police Department, to induce the property holders interested to erect and maintain near the mouths of those alleys thus inhabited, screens, which should hide the vice and degradations of those localities from the view of the women and children who patronize the street cars, and of the multitudes who daily pass through our public thoroughfares. Such regulations, however, were difficult to enforce, and only tended to whitewash and hide from public view, the vice

and filthiness of those localities, and in my report made to your Honorable Board a year ago, I suggested that measures be taken for the removal of these women. After the organization of the Board of Health, the necessity, for sanitary reasons, of abating this nuisance became apparent to that body. The law of the State, prohibiting prostitution, made no discrimination against the Chinese, and any attempt by the authorities to enforce it against the people of that nationality exclusively, might be looked upon as unusual, and of doubtful propriety. After a careful consideration of the subject, your Honorable Board, on the 9th of October, 1865, passed to print an Order to remove Chinese women of ill fame from certain limits, which included the central portion of the City, and the locality heretofore occupied by them. The City and County Attorney being of opinion that the discrimination made by the word Chinese, in the proposed order would vitiate its force, that word was stricken out and the Order was numbered 666, and passed on the 17th of October, 1865.

It was well understood by your Honorable Board and by parties interested, that the object sought to be accomplished by the passage of Order No. 666, was the removal of Chinese prostitution and its concomitants, disease and filth, from central portions of the City, and it became the duty of the Police to make such efforts as they could to carry out your wish.

Persons interested for the Chinese women were informed of the necessity and cause of their removal, and ample time being granted to them, negotiations were made to obtain possession of some other locality removed from public view, where with greater space, and more attention to cleanliness, their presence would not be regarded as great a nuisance as it has proved to be in their old location. There appeared a reasonable prospect of other dwellings being erected outside the restricted limits for the Chinese women, about the time that the "Act for the suppression of Chinese houses of ill fame" began to be agitated in the Legislature, and on the passage of that bill the negotiations of the Chinese were frustrated by the effect of the penalties of that law on property holders who should violate its provisions.

The Police, therefore, commenced to arrest Chinese prostitutes, and your Honorable Board must have become aware, from various petitions and appeals which have been made to you, that vigorous and successful measures have been taken by the Police, to compel the removal of these women, until the passage by your Honorable Board of the following Resolution placed the subject under the entire control of Doctors

Elliott and McNulty, who have not as yet advised me of what plans they intend to adopt.

RESOLUTION NO. 5,766.

Resolved, That all matters relating to the location and sanitary regulation of Chinese women, so-called, in the City and County of San Francisco, be and hereby are referred to the Health Officer and the Quarantine Officer, and that said officers be and hereby are authorized to make and carry out such arrangements in reference to said matters as they shall deem advisable.

In Board of Supervisors, San Francisco, July 23d, 1866.

Adopted by the following vote:

AYES—Supervisors Clement, Rowell, Phelps, Ashbury, Clayton, Schreiber, Shrader, McCoppin, Stanyan.

ABSENT—Supervisors Titcomb, Torrey, Reynolds.

JAS. W. BINGHAM, Clerk.

Officer Hesse, who has been detailed by me to enforce among the Chinese your wishes as expressed in Order 666, reports to me that from the 18th of December, 1865, to the 17th of June, 1866, the number of Chinese prostitutes arrested was 137, of whom 124 were convicted and sentenced, 6 forfeited bail, and 7 were discharged. The same officer reports that pending these prosecutions over three hundred of these women left the City, and that there remain here less than two hundred at present.

POLICE TELEGRAPH.

The Police Telegraph has been in daily use during the year, and has been found very convenient.

It may not be inappropriate to remark that during the past year, certain individuals who had at one time held a limited connection with the Department, endeavored to give extensive circulation to falsehoods, prejudicial to the Police Force. These charges coming to the Grand Jury of the last November term, they expressed the result of their investigations as follows: "From divers insinuations against the Police Department, made by sundry parties to this body, we made a thorough examination of matters connected with the Department, which redounds to the credit of Chief Burke and his Officers."

As Head of the Department, were it in my power to suppress this espionage, I would not do so, because I have found that it has been useful to me in keeping up the standard of discipline in the Department; the success of the Department in enforcing the laws for the pro-

tection of life and property, has been proved in many instances during the year, by the detection and arrest of many persons guilty of the highest crimes known to our laws, several of whom have been convicted and suffered the penalty of their offenses.

I have endeavored to reduce to system every branch of duty connected with the Department, and would call your attention to the expression of the last Grand Jury in relation thereto: "We found in the office of the Chief of Police a very complete system for the guidance of all subordinates, and do not propose any improvements in the system of checks and balances which he has devised."

I consider the City fortunate in possessing the services of a number of Officers whose long experience and skill greatly enhance the value of their services.

All of which is respectfully submitted.

M. J. BURKE,

Chief of Police.

SCHEDULE A.

NUMBER OF ARRESTS MADE BY THE POLICE FOR THE YEAR ENDING JUNE 30TH, 1866.

July, 1865.....	646
August.....	664
September.....	681
October.....	816

30. Fourteen half-pound plugs tobacco, taken from a thief.
31. One large brass faucet.

REPORT

OF THE

CITY AND COUNTY ATTORNEY.

OFFICE OF THE CITY AND COUNTY ATTORNEY, }
San Francisco, August, 1866.

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco—*

GENTLEMEN: In compliance with Resolution No. 5556 of your Honorable Body, I submit herewith a succinct statement of City and County Litigation since the date of my last Report.

PART FIRST

Comprises a statement of the present condition and disposition of all cases undisposed of at date of last Report.

PART SECOND

Comprises a statement of the suits brought by and against the City and County during the past year, and the condition of the same.

PART THIRD

Comprises a statement of the condition of the "Pueblo" or City Case, City Slip Cases, and other matters of general interest connected with City and County litigation.

PART FOURTH

Comprises an Index to all the cases mentioned in my Reports, with references to pages of City Reports.

PART FIRST.

COMPRISING A STATEMENT OF THE DISPOSITION AND PRESENT CONDITION
OF ALL CASES UNDISPOSED OF AT DATE OF LAST REPORT.

City and County of San Francisco	} 12th District Court. No. 8,339. J. H. Saunders, <i>City and County Attorney.</i>
<i>vs.</i>	
Jonathan Hunt.	

Complaint filed January 16th, 1861, to recover \$25,000, moneys alleged to have been wrongfully demanded and received by Defendant, as Tax Collector, from the City and County Treasury during the years 1859 and 1860. Demurrer and answer of Defendant was filed February 11th, 1862, and the case was continued from time to time, awaiting the decision of the Supreme Court in the other case. That having been rendered, the case is now ready for trial.

Robert S. Thompson	} 12th District Court. No. 8,795. E. Cook, <i>Plaintiff's Attorney.</i>
<i>vs.</i>	
E. Fitzgerald, <i>Administrator, etc.</i>	

Complaint filed May 31st, 1861, to quiet title to Lots 51, 52, 22, 23, 48, 26, 9, 54, 5, 10, 11, 31, 19, and 40, as per map on record, page 63 of Book of Maps; being subdivisions of Blocks 292, 290, 288, 214, and 213, Western Addition. In this case a disclaimer has been refused, and the case put at issue by the City and County filing an answer January 31st, 1863, and stands ready for trial. At the last term of the Court it was referred, but has not yet been brought to trial.

D. W. Perley	} 12th District Court. No. 10,376. Hall McAllister, <i>Plaintiff's Attorney.</i>
<i>vs.</i>	
F. A. Hassey, The City and County of San Francisco, et al.	

Complaint filed January 7th, 1863, to quiet title to a large tract of

land near "Mission Dolores." Case put at issue by filing answer May 22d, 1863. Was dismissed by the Court December 6th, 1864, but reinstated December 10th, 1864, and stands ready for trial.

The Pacific Glass Works	}	12th District Court.
vs.		No. 10,409.
C. K. Garrison, The City and County of San Francisco, et al.		Barstow, <i>Plaintiff's Attorney.</i>

Complaint filed January 23d, 1863, to quiet title to tract of land of nine hundred and fifty-two acres on the "Potrero Nuevo," westerly from "Point San Quentin." This is not yet at issue, the City being allowed until five days after notice to plead. The other defendants filed demurrer January 18th, 1864. The case was transferred to the Third District Court, Alameda County, February 1st, 1864. Nothing has been done in it since.

Theodore LeRoy	}	4th District Court.
vs.		No. 10,441.
The City and County of San Francisco.		W. W. Stow, <i>Plaintiff's Attorney.</i>

Complaint filed February 18th, 1863, to quiet title to Beach and Water Lot No. 31, and northerly half of Lot No. 32. Defendant allowed until five days after notice to plead.

William Rabe	}	4th District Court.
vs.		No. 10,298.
The City and County of San Francisco.		G. F. & W. H. Sharp, <i>Plaintiff's Attorneys.</i>

Complaint filed December 10th, 1862, to quiet title to lot on south-east corner of Folsom and Thorne streets, two hundred and five feet on Folsom by two hundred and twenty feet on Thorne. Defendant has until five days after notice to answer.

D. P. Belknap, <i>Administrator, etc., of the Estate</i> <i>of D. C. Broderick, deceased,</i> <i>vs.</i> Charles Whitney, et al.	}	12th District Court. No. 7,470. William Loewy, <i>Plaintiff's Attorney.</i>
--	---	--

Complaint filed April 10th, 1860. Ejectment to recover Water Lot No. 505, being part of the Market Gore, bounded by Market, Pine and Front streets. The City and County intervened September 23d, 1861. William R. Garrison intervened June 5th, 1861, and has been substituted as Plaintiff. Answer was filed by the City and County July 18th, 1863.

This case involves validity of dedication of Market places on Water property, as against "Peter Smith" claimants. It was tried on the twenty-fifth day of August, 1864, and Plaintiff was non-suited, upon the ground of a valid dedication to the public, making the property inaccessible to judgment creditors of the City, or City and County. Plaintiff has filed notice of motion for new trial, which was denied on the 9th of January, 1866. Judgment of non-suit entered January 24th, 1866. Notice of appeal to Supreme Court filed February 8th, 1866. The case is now pending in the Supreme Court.

D. P. Belknap, <i>Administrator, etc.,</i> <i>vs.</i> H. W. Byington et al.	}	12th District Court. No. 7,469. William Loewy, <i>Plaintiff's Attorney.</i>
--	---	--

Complaint filed April 10th, 1860. Ejectment to recover Water Lot No. 506, being part of the Market Gore, bounded by Market, Pine, and Front streets. Same points involved as in last case, and same proceedings.

Lucas, Turner & Co. <i>vs.</i> The City and County of San Francisco.	}	12th District Court. No. 6,639. Baldwin, Whitcomb, Pringle, and Felton, <i>Plaintiffs' Attorneys.</i>
---	---	---

In this cause the appeal was submitted to the Supreme Court April

30th, 1864, and decided at the October Term, 1865. Judgment against the City and County affirmed, with costs. Remittitur filed November 25th, 1865.

<p>The People, etc., ex rel. Jonathan Hunt,</p> <p style="text-align: center;"><i>vs.</i></p> <p>The Board of Supervisors of the City and County of San Francisco.</p>	}	<p>12th District Court.</p> <p>No. 8,638.</p> <p>Whitcomb, Pringle and Felton, <i>Plaintiff's Attorneys.</i></p>
--	---	--

Complaint filed April 6th, 1861, to recover \$561 89, commissions and salary as Tax Collector, and for writ of mandamus to compel Board to audit claim. Issue joined by answer filed October 24th, 1861. Cause ready for trial.

<p>Edwin P. Whitmore</p> <p style="text-align: center;"><i>vs.</i></p> <p>The City and County of San Francisco et al.</p>	}	<p>12th District Court.</p> <p>No. 9,448.</p> <p>S. H. Dwinelle, <i>Plaintiff's Attorney.</i></p>
---	---	---

Complaint filed January 2d, 1862, to quiet title to part of fifty-vara Lot No. 588—55 by 137½ feet—northeast corner of Mason and Post streets.

Defendant, City and County, allowed until five days after notice to plead.

<p>Felix Argenti</p> <p style="text-align: center;"><i>vs.</i></p> <p>The City of San Francisco.</p>	}	<p>4th District Court.</p> <p>No. 3,455.</p>
--	---	--

The appeal to the Supreme Court was submitted February 18th, 1864.

This case was lately decided in favor of the City and County. The amount in controversy, and the principles involved, make the result one of unusual importance to the City and County. Time to file petition for rehearing has been granted, and the case has been reargued upon rehearing allowed, but not yet decided.

<p>The People, etc.,</p> <p>On the relation of George T. Bohen,</p> <p style="text-align: center;"><i>vs.</i></p> <p>S. W. Holladay et al.</p>	}	<p>4th District Court.</p> <p>No. 11,029.</p> <p>John H. Saunders, City and County Attorney,</p> <p style="text-align: right;"><i>For Plaintiffs.</i></p> <p>Porter & Holladay,</p> <p style="text-align: right;"><i>Defendants' Attorneys.</i></p>
--	---	---

Complaint filed and injunction papers issued November 16th, 1863, to restrain Defendants from fencing "Lafayette Square, etc." Defendants answered November 27th, 1863, and on the 21st of April, 1864, the cause was tried and submitted to the Court. Brief was filed June 15th, 1864, and on July 11th, 1864, finding was ordered for Defendant, dismissing the case and dissolving the injunction. Notice of motion for new trial was served and filed July 21st, which motion is yet undetermined. This case will probably not be further prosecuted, as the questions involved are raised in another case (*City vs. Holladay*) since brought.

<p>J. M. McDonald</p> <p style="text-align: center;"><i>vs.</i></p> <p>John Wilson et al.</p>	}	<p>12th District Court.</p> <p>No. 11,087.</p> <p>Haight & Pearson,</p> <p style="text-align: right;"><i>Attorneys for Plaintiff.</i></p>
---	---	---

Complaint filed November 13th, 1863, to quiet title to Blocks Nos. 318, 319, 267, 266, 241, 193, 194, 164, and 165, and Lots Nos. 4, 5, and 6, of Block No. 240, of Western Addition. The answer of the City and County was filed November 27th, 1863. Cause ready for trial.

July 3d, 1865, James Stanton, Administrator, was substituted for the Plaintiff, deceased.

D. W. Perley	}	12th District Court.
<i>vs.</i>		No. 11,108.
The City and County of San Francisco.		McAllisters, <i>Attorneys for Plaintiff.</i>

Complaint filed November 20th, 1863, to quiet title to two tracts of land near "Mission Dolores." Answer of City and County filed December 17th, 1863. Case stands ready for trial.

Jonathan Hunt	}	12th District Court.
<i>vs.</i>		No. 10,283.
The City and County of San Francisco.		J. M. Taylor, <i>Plaintiff's Attorney.</i>

Complaint filed December 8th, 1862. Action to recover \$7,865 48 for services as Tax Collector, and interest from December 7th, 1860, and costs. Time to answer has been extended from time to time, and is still open.

Since the decision of the other case, this will be dismissed or brought to trial.

Edward Brooks	}	12th District Court.
<i>vs.</i>		No. 11,198.
David Calderwood, The City and County of San Francisco, et al.		R. C. & D. Rogers, <i>Plaintiff's Attorneys.</i>

Complaint filed December 30th, 1863, to quiet title to subdivisions 28, 31, and 40 of 100-vara Lot No. 7, etc., etc. Answer of City and County filed January 29th, 1864. Cause tried and submitted April 15th, 1864. Judgment for Plaintiff, June 25th, 1864. Motion for new trial was overruled May 2d, 1865, and Decree to quiet title, etc., entered June 19th, 1865, from which Defendant Calderwood has appealed. Settled statement on appeal was filed January 2d, 1866. No decision yet.

The City and County of San Francisco	}	Justice's Court.
<i>vs.</i>		1st Township.
Timothy Sargent et al.		

Complaint filed April 8th, 1864. Action on street contract bond for two hundred dollars. Cause still pending.

William C. Flint	}	4th District Court.
<i>vs.</i>		No. 11,408.
B. R. Bedell et al.		Cook & Hittell,
		<i>Plaintiff's Attorneys.</i>

Complaint filed April 4th, 1864, to quiet title to Lots Nos. 3 and 4, in Block 213; Lots Nos. 2, 3, 4, and 5, in Block 214; Lots 5 and 6, in Block 289; and the whole of Block 215 in Western Addition, including School Lot, etc.

Answer of City and County filed May 6th, 1864. The case has been tried at the present term of the Court, and Decree entered for Plaintiff.

Spring Valley Water Works	}	4th District Court.
<i>vs.</i>		No. 11,417.
M. Lynch, <i>Administrator, et al.</i>		E. Liés,
		<i>Plaintiff's Attorney.</i>

Complaint filed April 6th, 1864, to quiet title to Block No. 292, Western Addition. Answer of City and County filed June 11th, 1864. Answer of Defendant Lynch filed June 23d, 1864. Cause ready for trial.

Mary Polack	}	4th District Court.
<i>vs.</i>		No. 11,491.
Isaac E. Davis et al.		Spencer, Reichert & Jarboe,
		<i>Plaintiff's Attorneys.</i>

Complaint filed April 28th, 1864, to quiet title to four tracts of land

known as "Roundtree or Mary Hart Tract," situate in Western Addition, being parts of Blocks 294, 295, 290, 291, including part of Hospital Lot, and part of School Lot in vicinity.

Papers served August 24th, 1864. Answer of City and County filed September 3d. Case was tried September 29th, 1865. Decision rendered February 19th, 1866, dismissing cause without prejudice as to Hospital Lot, and quieting Plaintiff's title as to balance. Motion for new trial pending.

Edward Tompkins	}	4th District Court.
<i>vs.</i>		No. 11,794.
The City and County of San Francisco.		<i>Plaintiff in pro. per.</i>

Complaint filed September 3d, 1864. Ejectment for southerly half of Hamilton Square, four hundred and twelve and six-twelfths feet on O'Farrell Street, by one hundred and thirty-seven and six-twelfths feet on Steiner Street. Answer of City and County filed September 13th, 1864. Cause argued and submitted September 29th, 1865. Dismissed without prejudice February 19th, 1866.. This case involves the same question as in Polack *vs.* Davis.

William H. Jessup	}	12th District Court.
<i>vs.</i>		No. 11,421.
The City and County of San Francisco et al.		R. H. Waller, <i>Plaintiff's Attorney.</i>

Complaint filed April 14th, 1864, to quiet title to tract of land, part of Mission Block No. 9, on easterly corner of Folsom and Twelfth streets, one hundred and seventy-two feet nine inches on Folsom Street, by one hundred and seventy-three feet nine inches on Twelfth Street.

Papers served on City and County, September 12th, 1864. Stipulation filed waiving answer of City and County until called for.

The People, etc., on the relation of McKee, * vs. Jeremiah Callahan et al.	}	12th District Court. No. 10,933. F. M. Pixley, <i>Plaintiff's Attorney.</i>
--	---	--

Complaint filed September 16th, 1863, to restrain Defendants from continuing the obstructions on the Public Plaza (triangular shape) at intersection of Mission, Twelfth, and Thirteenth streets.

City and County was made a party defendant September 24th, 1864; has put in an answer, and the case is ready for trial.

Levi B. Mastick et al., constitut- ing Board of Education, . vs. William H. Thorpe.	}	12th District Court. No. 11,707. J. H. Saunders, <i>Plaintiff's Attorneys.</i> Pixley, Smith & Hale, <i>Defendant's Attorneys.</i>
---	---	---

(EXTRACT FROM LAST REPORT.)

Complaint filed October 17th, 1864, to set aside a judgment of Twelfth District Court in suit of W. H. Thorpe *vs.* Thos. Donnolly et al., in favor of Thorpe, entered on the thirtieth of July, 1864, and for an Injunction restraining further proceedings under said judgment, which was for the possession of a School Lot on Broadway Street, occupied and claimed by the Board of Education. Undertaking in \$2,500, filed, and Injunction allowed. Answer filed October 22d, 1864. In March, 1865, Defendant's motion to dissolve Injunction was argued and submitted, and on the eighteenth, denied. Defendant has appealed from said order to the Supreme Court. The case has been already submitted in that Court, and awaits the briefs of Counsel, which are to be filed in a few days. The property in controversy was purchased by the Board of Education, pending the action of ejectment, (Thorpe *vs.* Donnolly, in the 12th) the defendants in that case being the tenants of the grantor of the Board; and the above cause was instituted to restrain execution, set aside the judgment, and to procure new trial of the action of ejectment, upon the ground of surprise, the attorney for the Defendants not having appeared at the trial.

On the 5th February, 1866, the Supreme Court rendered its decision, remanding cause with direction to dissolve the Injunction.

This case, after a decree favorable to the City and County in the Court below, was taken to the Supreme Court upon appeal, and the judgment reversed.

Since then the Board of Education have agreed to compromise the claim by accepting a deed for the lot actually occupied by the School House, and to pay therefor and in settlement of all claims for damages the sum of \$2,500 in coin.

Samuel W. Holladay	}	4th District Court.
<i>vs.</i>		No. 11,963.
The City and County of San Francisco.		<i>Plaintiff in pro. per.</i>

Complaint filed December 20th, 1864, to quiet title to two pieces of land on Clay Street, between Gough and Octavia streets, each four hundred and twelve feet six inches on Clay, by one hundred and thirty-seven feet six inches on the other streets, the whole being portion of Lafayette Square.

Answer of the City and County was filed December 31st, 1864, and the case was tried September 29th, 1865. Dismissed without prejudice February 19th, 1866.

Thomas B. Valentine	}	4th District Court.
<i>vs.</i>		No. 12,018.
Moses E. Flanagan et al.		Brooks & Whitney, <i>Plaintiff's Attorneys.</i>

Complaint filed January 10th, 1865, to quiet title to four pieces of land, parts of the several Mission Blocks Nos. 66, 71, 72, and 73.

The City and County put in an Answer January 26th, 1865. An amended Complaint was filed July 8th. Case ready for trial.

Charles Godfrin	}	12th District Court.
<i>vs.</i>		No. 11,827.
The City and County of San Francisco.		Porter & Holladay, <i>Plaintiff's Attorneys.</i>

Complaint filed December 17th, 1864, to quiet title to a piece of land irregularly shaped, and including portions of Blocks 341, 342, 343, 344, 397, 398, 399, and 400 of Western Addition. Answer of City and County was filed March 6th, 1865. The cause was tried at the present term of the Court, and judgment rendered for Plaintiff, August 2d, 1866.

George R. Bowles	}	4th District Court.
<i>vs.</i>		No. 12,094.
The City and County of San Francisco et al.		Brooks & Whitney, <i>Plaintiff's Attorneys.</i>

Complaint filed March 3d, 1865, to quiet title to Block No. 40 of the Western Addition, bounded by Van Ness, Francisco, Polk, and Bay streets. Answer of City and County was filed March 20th, 1865. The cause was tried and judgment ordered for Plaintiff on same day. Motion for new trial filed January 27th.

Nicholas T. Brownell	}	4th District Court.
<i>vs.</i>		No. 12,102.
Charles L. Wilson et al.		Brooks & Whitney, <i>Plaintiff's Attorneys.</i>

Complaint filed March 4th, 1865, to quiet title to 50-vara Lots Nos. 1 and 6, in Block 192, Western Addition, two hundred and seventy-five feet front on Octavia Street, by one hundred thirty-seven and one-half feet deep. Answer of City and County was filed March 20th, 1865, and the cause tried on the 18th January, 1866. Decision for Plaintiff, and decree ordered February 5th, 1866.

Harvey Hall	}	4th District Court.
<i>vs.</i>		No. 12,101.
Charles L. Wilson et al.		Brooks & Whitney, <i>Plaintiff's Attorneys.</i>

Complaint filed March 4th, 1865, to quiet titles to 50-vara Lots Nos. 3 and 4, in Block 165, Western Addition, two hundred and seventy-five feet on Octavia Street by one hundred thirty-seven and one-half feet deep. Answer of City and County was filed March 20th, 1865, and the cause tried January 19th, 1866. Judgment and decree ordered for Plaintiff same date.

Franklin D. Cottle	}	4th District Court.
<i>vs.</i>		No. 12,103.
The City and County of San Francisco.		Brooks & Whitney, <i>Plaintiff's Attorneys.</i>

Complaint filed March 4th, 1865, to quiet title to part of Mission Block No. 9.

Complaint filed August 8th, 1866, to quiet title to portion of Lafayette Park. This case is not yet ready for trial.

PART THIRD.

COMPRISING A STATEMENT OF THE CONDITION OF THE "PUEBLO" OR CITY CASE, CITY SLIP CASES, AND OTHER MATTERS OF GENERAL INTEREST CONNECTED WITH CITY AND COUNTY LITIGATION.

PUEBLO CASE.

At the last session of the Supreme Court of the United States and since the Municipal Reports of last year, a mandamus was issued to the Circuit Court here, directing the allowance of an appeal to the Supreme Court from the decree of the Circuit Court; and preparations are now in progress to send up the transcript upon appeal. Since the passage of the act of Congress divesting the United States of all claim of title to the Pueblo lands of San Francisco, it seems improbable that there will be on the part of the Government a serious revival of the proceedings in the Court below, confirming the City title.

For reasons connected with the origin and history of our titles here, it seems to me important to procure either a formal affirmance of the Decree of the Circuit Court, or a dismissal of the appeal by stipulation leaving the decree as it now stands.

PUBLIC SQUARES.

The Case of Polack *vs.* Davis has been tried, and a decision rendered substantially adverse to the City and County. The statement upon motion for new trial is in course of preparation with the view to an appeal, and the questions involved will be, it is expected, finally determined by the Supreme Court at the next term. The other cases, affecting the Public Squares, and enumerated at pages 200-201,

of last year's Municipal Reports, depend upon the same principles involved in *Polack vs. Davis et al.*, and will abide the result of that case.

KEARNY STREET WIDENING.

Judge Campbell, Special Counsel for the City, has furnished me with the following Report of the progress of this matter since last October.

John H. Saunders, Esq.,

City and County Attorney.

SIR: In reply to your request to be informed of the condition of the proceedings for widening Kearny and Third Streets, and what has been done since October last therein, I report—

That on the 2d of September, 1865, E. N. Torrey, C. C. Webb, and A. B. Forbes were duly qualified as Commissioners of Appraisal and Assessment; that their report in duplicate was filed on the fifth day of April, 1866.

That on the first day of May, 1866, oppositions to the confirmation of the Report were filed by H. S. Dexter, W. A. Piper, W. Hood, North Beach and Mission Railroad, R. Williams, J. E. Jorgeson, Abel Guy, (2 cases) J. Dusoll, A. Lefevre, D. Vanhove, J. P. Thompson, V. Rolleau, M. Ruse, S. Gordon, W. B. Dolan and twenty-four others, J. & R. Tobin, Mary Blave and three others, C. F. Glin, E. J. Baldwin, J. Lick, J. F. Borbe, H. Josephs, (3 cases) Joseph and Brooks, C. Schwartz, Stirlan & Ackerman, Adams and Kibbe, K. F. Swift, J. B. Manciet, C. S. Hastings, S. P. Dewey, J. C. Jonghsanet, J. Cunningham.

In twelve of the above cases the opponents did not appear, and they were submitted to the Court on the part of the City. The remaining cases have been submitted on testimony and argument, except those of Cunningham and A. Lefevre.

In Cunningham's opposition, the testimony has been all taken, but the case has not yet been argued. In Lefevre's case, the testimony is not all submitted on the part of the opponent.

No decision in any case has yet been rendered by the County Court; the Court reserving all its decisions until the testimony and arguments in all the cases have been presented.

Respectfully yours,

A. CAMPBELL,

Special Counsel for City.

CITY SLIP CASES.

In the cases of *Herzo vs. The City of San Francisco*, *Newhaus vs. The City of San Francisco*, and *Des Farges vs. The City of San Francisco*, in which the judgments in the Court below were in favor of the City, those judgments have all been affirmed by the Supreme Court, on appeal.

In the cases of *Hoff vs. The City of San Francisco*, and *Buckley vs. The City of San Francisco*, I think the judgments in the Court below were against the City; the judgments were on appeal reversed by the Supreme Court, and the Court below decided to enter judgment for defendants.

In all these cases, the parties adverse to the City have filed or have obtained time to file petitions for rehearing, which I suppose will be disposed of in the first week of the next October Term of the Supreme Court.

The Cases of *Prag vs. The City of San Francisco*, and *Ainsi vs. The City of San Francisco*, still remain pending in the Twelfth District Court, and can probably be easily disposed of on motion, in case the Supreme Court adheres to the decision it has already announced, and I have no reason to believe they will recede from it.

WIDENING MERCHANT STREET.

This proceeding has gone into the County Court, and the Report of the Commissioners is filed. Opposition has been made by Mr. Winter, the owner of the land sought to be taken, and the matter is ready for argument before the County Judge, but has thus far deferred to the Kearny Street proceedings, and the consequent pressure of business in that Court.

PART FOURTH.

COMPRISING AN INDEX TO ALL THE CASES MENTIONED IN MY REPORTS,
WITH REFERENCES TO PAGES OF CITY REPORTS.

Respectfully submitted,

JOHN H. SAUNDERS,

City and County Attorney.

CHIEF ENGINEER'S REPORT.

CHIEF ENGINEER'S OFFICE, FIRE DEPARTMENT, }
SAN FRANCISCO, July 23d, 1866. }

To the Honorable Board of Supervisors:

GENTLEMEN:—In accordance with the requirements of Resolution No. 5,556 of your Honorable Body, I herewith present my Annual Report on the condition and expenses of the Fire Department, for the Fiscal Year ending June 30th, 1866.

Trusting that the recommendations herein contained will receive your attention, I remain

Very Respectfully Yours,

DAVID SCANNELL,

Chief Engineer.

F I R E S.

During the past year the number of fires have not been as great as in the year preceding, but the loss from them has been more than doubled, being estimated at \$593,000, against \$276,000 last year. The most destructive fire of the year occurred July 17th, 1865, at the Pacific Warehouse, located at the northeast corner of Broadway and Battery streets, where starting in the night and in a tight building filled with a variety of goods—some of them being of the most combustible character, it had gained such headway and spread through the

stock to such an extent by the time the Department arrived on the ground and got the doors open, as to prevent them from gaining the mastery over it.

For nearly two days it raged with fury, notwithstanding the greater part of the time it was deluged with water from hand and steam engines and hydrants, but all to little purpose, owing to the large quantity of coal oil, camphene, etc., stored within its walls, which served to prevent it from being subdued. The damage resulting from this fire alone has been estimated as high as \$343,000.

The impropriety of storing such combustible articles as coal oil, camphene, and alcohol in warehouses where other goods are stored, must become apparent from the result of this fire, for had nothing of this kind been stored there, it is quite probable that the fire would have been extinguished before the entire building and its contents were destroyed. The origin of this fire is unknown, and it was probably caused by spontaneous combustion.

The Department has been called out about two hundred and twenty times during the year; a number of incendiary fires have taken place in the same period, and the most suspicious circumstances in connection with them is, that the property thus destroyed generally had more or less insurance on it. Out of the two hundred fires that took place, thirty-three were undoubtedly caused by the match of the incendiary, and the loss from these fires originating in premises covered by insurance amounted to about \$75,000, while the loss from incendiary fires originating in premises not insured, did not exceed \$3,500. Nearly the same observations will apply to the attempts to set fire; for of the fourteen attempts made, fully two-thirds of the places were insured to a greater or less extent. Unoccupied buildings, particularly if setting alone, always serve as an invitation for the incendiary to apply his torch, and we therefore see that of the thirty-three incendiary fires, ten took place in unoccupied buildings.

A number of arrests on charges of arson have been made by the Fire Marshal during the past year, some of whom have been tried and convicted, and others are awaiting trial.

H Y D R A N T S .

The number of Hydrants set on the first day of July was four hund-

red and forty-eight, of which forty were set during the past year, and the one at the northwest corner of Tehama and First streets was taken up by order of the Fire and Water Committee. A list of the Hydrants with their location, will be found hereafter in this report.

I will again call your attention to the necessity of having larger mains laid along the lower part of the City front, to which Hydrants can be attached, so as to afford in case of emergency an abundant supply of water—one or two steam engines taking suction from Hydrants attached to small mains, if fully enabled to supply themselves, will leave nothing for hand engines or hose carriages, and are more likely to be short of a supply themselves than otherwise.

CISTERN S.

There are forty-two Cisterns in the City in good order, ranging in capacity from 15,000 to 51,000 gallons; and there are eight in bad order, being nearly worthless. These latter should be put in good condition without delay.

The expense of building good Cisterns is large, but when well built they will last for years without additional cost, and the security they afford against extensive conflagrations under contingencies which might arise, will, in my opinion, warrant the outlay for their construction.

The water in the mains is frequently shut off in different parts of the City for the setting of hydrants, laying of pipes, and other purposes incident thereto, thus at times leaving certain sections for a period entirely without protection. To guard against accidents from this source, as well as to be prepared for any emergency that may occur from a lack of water in the hydrants, caused either from a scarcity of supply, or accident to the pipes or flumes conveying it to the City, it is deemed necessary that more Cisterns should be provided. As a rule also, steam engines can do better service from Cisterns than from hydrants, the supply from them being uniform and constant, while it sometimes happens that from the latter it is fitful and inadequate.

H O S E.

There is in use by the different companies of the Department about 10,800 feet of Hose, of which only about one-third can be considered in first rate condition, the remainder being of an ordinary character and not at all to be relied on in case of severe work.

Owing to the fact that soon hereafter the Department will be supplied with Steam Engines of a more powerful character than any we have yet had, it is necessary that a full supply of strong new Hose should be provided for them, so that at all times when in service, accidents from the bursting of Hose, and the delay consequent upon requiring the replacing of a defective length, oftentimes at the most critical moment of the fire, may be avoided. I therefore recommend that 10,000 feet of the best quality of new Hose be purchased at your earliest convenience.

F I R E A L A R M T E L E G R A P H .

I am pleased to be able to say, that the Fire Alarm Telegraph, during the past year has been kept in better working order than formerly, and has not as often been imposed upon by ringing false alarms. It is now working in a very satisfactory manner, and with due care and precaution on the part of those having it in charge, it will prove of great importance to the welfare of the City.

LOCATION OF FIRE COMPANY HOUSES AND DISTRICTS
FOR SERVICE.

The force of the Department as at present organized, is distributed in a very judicious manner throughout the city, and since they have been confined to certain districts within which to perform duty, their services have been of a less arduous character yet quite as efficient as formerly.

However, the new organization which will have less companies, and which in a few months will supersede the present one, will require a change in some instances for the proper location of some of them.

Under the act creating the Paid Department, your honorable body have the power to direct the sale of the houses and lots at present occupied by the Fire Companies, and secure others in suitable locations for the new companies, and I doubt not you will take timely measures to provide for their accommodation.

FIRE LIMIT BLOCKS.

Since my last report the line of the Fire Limit Blocks has been materially altered, and considerably curtailed, but it is yet extensive enough to eventually prove of benefit in securing the erection of fire-proof buildings on many of our prominent streets whenever it shall become necessary to substitute others for the frame structures now in existence.

The violations of the Fire Ordinance during the past year have not been as numerous as heretofore—if we except the line of Kearny street—owing probably in part to a fear of consequences instilled into the public mind by the arrest and punishment of a number of persons for like offenses, through the efforts of the Fire Marshal and Fire Wardens.

Along the line of Kearny street, between Sacramento and Geary, that part affected by the widening, a number of palpable violations of the ordinance have taken place; yet owing to the passage of a special order for the benefit of property owners on that line, by your honorable body, and the adoption of resolutions granting special privileges, no action could be taken by the Fire Wardens.

While every reasonable privilege should be given to those who had buildings that were interfered with by the order widening that street, compelling them to cut off a portion when the lot was not of sufficient depth to permit of their removal back, or removing them to the rear of the lot they were on when sufficiently large to allow of it, yet in neither case should they be allowed to overhaul and remodel them with new material to such an extent so as to make new structures of them. Permits for alterations and repairs on wooden buildings within the Fire Limit Blocks, should be granted only after proper examination, and where the necessity of the case absolutely demands it, and then in conformity with the spirit of the ordinance itself.

THE VOLUNTEER FIRE DEPARTMENT OF SAN FRANCISCO.

It is well known that during the session of the Legislature of last winter, a bill was passed abolishing the present Volunteer Fire Department, and authorizing the establishment of a paid one in its place.

As this will be the last opportunity I shall have of submitting a report under the law governing the present Department, I may be allowed the privilege of saying a few words in commemoration of the noble, energetic and faithful institution, soon to be numbered with the things that were.

This Department, now so soon to go out of existence, that has done so much for the protection and prosperity of the city, was organized in the year 1850, by some of our best citizens and business men, including merchants, mechanics, lawyers, clerks and laborers, many of whom had been active firemen in New York, Boston, Philadelphia, Baltimore and other eastern cities, and some of whom since have not only performed the active duty of firemen here, but have also filled offices of honor and profit amongst us where ability and integrity were required, and as exalted as that of Mayor of our city, and United States Senator.

During that and the preceding year, the population of the city had increased with unprecedented rapidity, and to afford them accommodations for living, as well as for business purposes, buildings of wood and cloth, and canvas tents were hurriedly erected with at that time scarcely an exceptional structure of brick or stone. The town being constructed of such combustible materials, and no organized provision made for the extinguishment of fires, we are not surprised to learn of the devastating conflagrations that took place here in early times, and compelled the inhabitants to perfect an organization among themselves for the protection of their own as well as neighbors' property and households.

On the twenty-fourth of December, 1849, occurred the first of these great calamities, though by no means comparing in magnitude with those that occurred in 1850 and 1851.

However, it was the inauguration of the fiery ordeal through which the city was to pass ere she should reach the proud eminence of permanent prosperity which she at this time has attained.

From an early history of San Francisco, we learn "that on the morning of that day, Dennison's Exchange on the east side of the plaza, was discovered to be on fire at about six o'clock. Nearly all

the block bounded by Kearny, Washington, Montgomery and Clay streets, was destroyed. The loss was estimated at one million of dollars. With no organized Fire Department, and the inflammable nature of the buildings being considered, it was wonderful that the conflagration did not make still more general devastation."

The great destruction of property by this fire, fully impressed the citizens with the necessity of creating an organization to combat the fiery element, and consequently we find that early in the succeeding year steps were taken by those whose property and interests were identified with the growth and prosperity of the city, to perfect and put in operation an organization which though then small in numbers, and poorly equipped, did most excellent duty when called upon, and which has continued to grow with the growth and requirements of the city, until it numbered fourteen Engine Companies, three Hook and Ladder Companies, and three Hose Companies, with one thousand and fifty members.

The first election for Chief Engineer took place on the nineteenth day of October, 1850, when Frederick D. Kohler was elected to that office. From that period the history of the Fire Department may be said to date, and in a few years, through the efficiency of its officers and the promptness and fidelity of its members, who worked not for pay, but for glory and honor, it obtained a reputation for efficiency and order equal to that of any of the old Departments in eastern cities, and it has kept on in the march of advancement until its fame was world-wide as it deserved to be, since in my opinion, I do not say too much when I say it was excelled by none either on this or the eastern continent.

At last the march of progress and improvement, ever on the advance, seized the minds of some of our people, and for a few years past the question of creating a paid department in place of the present volunteer one, was agitated both by the press and legislative bodies, until at last a bill was presented to the Legislature, which meeting with favor, become a law, and is to go into operation on the first Monday of December of this year.

Thus passes from our midst, an institution that has acquired honor and fame, as well as a history that will be read and talked of for years in the distant future.

The duty its members have performed for the people of San Francisco for the past sixteen years without other pay or emolument than that flowing from a consciousness of having performed their oner-

ous and self-imposed task faithfully, is beyond computation in mere dollars and cents. There was something higher and nobler that actuated those who turned out at the first tap of the bell at any hour of the day or night, in fair or stormy weather, than the mere wish to earn a livelihood from the necessities and misfortunes of their fellow men.

They can be looked upon in no other light than that of philanthropists, whose noble deeds and acts of daring in endeavoring to save life and property when combatting the march of the devouring element on many a hotly contested field, deserve ever to be held in grateful remembrance by the people of San Francisco, for whom as a body they have done so much, and for whom many of them have sacrificed both their health and their lives.

But a new order of things is now about to succeed them, and we trust that it will realize all the expectations that its friends entertain for it, and have advanced in its favor. And in this connection I desire to call particular attention to the magnanimous action of the officers and members of the Department in falling into the support of the new undertaking the moment it became a law, and their prompt and efficient performance of duty pending the time the new Department shall be fully organized and in working order.

It illustrates again, and in a new light, the character of the men composing the Fire Department. Although quite unanimous in their opposition to the passage of a law which would break up their organization, and in its stead place a paid Department, and notwithstanding the unnecessary misrepresentations against their character and conduct made during the time the question was under agitation, and the acrimonious debate indulged in by the friends of the measure, reflecting on the Companies and members of the Department, we find that no sooner is the matter settled by becoming a law, than with general accord they agree to withdraw further opposition, and perform their accustomed duty faithfully until such time as the authorities having the matter in charge, shall be able to get it organized, and in perfect working order.

Thus again are the enemies of the Department, those who predicted riot and disorder, and a refusal to do duty after the passage of the bill, rebuked. The members of the Department since the passage of the bill have done their duty well, and there is no reason to suppose that they will fail to continue doing it as long as their services are required.

EXPENSES OF THE FIRE DEPARTMENT FOR THE YEAR ENDING JUNE 30TH, 1866.

The total amount of demands audited and allowed out of the Fire Department Fund during the past year, as shown below, was \$65,248.21. This sum, however, includes a deficit of about \$15,000, which existed at the close of last year, and could not be provided for out of the annual appropriation for the expenses of the Department as allowed under the statutes of 1863, page 168.

The power necessary to authorize the payment of these demands was secured at the last session of the Legislature, and hence they are brought forward and placed with the expenses of the Department for the present year, though not properly belonging to it.

The following demands have been allowed during the past year, to wit.

FIRE DEPARTMENT EXPENSES.

Salaries :

Chief Engineer, 1 year....	\$4,000 00
3 Assistants, 1 year, \$50 per month each.....	1,800 00
Secretary, 1 year.....	1,800 00
Telegraph Operators, 2, 1 year, and 1, 11 months and 29 days, at \$100 per month each.....	3,593 54
Repairer, 7½ months, at \$100	750 00
Stewards, 20 at \$40 per month each, June 1st, 1865, to July 1st, 1866, 13 months.....	10,400 00
Engineers, 4 at \$60 per month each, June 1st, 1865, to July 1st, 1866, 13 months.....	3,120 00

COMPANY HOUSES AND LOTS.

ENGINE COMPANIES.

BRODERICK ENGINE COMPANY, No. 1.—House and Lot on the north side of Bryant Street, west of Third. Two-story wooden building ; City property, in good order.

MANHATTAN ENGINE COMPANY, No. 2.—House and Lot on O'Farrell Street, north side, between Dupont and Stockton streets. Three-story brick building ; City property, in good order.

HOWARD ENGINE COMPANY, No. 3.—House and Lot on the south side of California Street, between Sansome and Battery. Three-story brick building ; City property, in good order.

CALIFORNIA ENGINE COMPANY, No. 4.—House and Lot on north side of Market Street, between Sansome and Battery. Two-story brick building ; City property, in bad order, requiring to be entirely overhauled.

KNICKERBOCKER ENGINE COMPANY, No. 5.—House and Lot on the north side of Sacramento Street, between Montgomery and Sansome. New three-story brick building ; City property, in good order.

MONUMENTAL ENGINE COMPANY, No. 6.—House and Lot on west side of Brenham Place, between Washington and Clay streets. Two-story brick building ; City property, in good order.

VOLUNTEER ENGINE COMPANY No. 7.—House and Lot south side of Sutter Street, west of Jones. Two-story brick building ; City property, in good order.

PACIFIC ENGINE COMPANY, No. 8.—House and Lot on north side of Jackson Street, between Front and Davis. Two-story brick building ; City property, in good order.

VIGILANT ENGINE COMPANY, No. 9.—House and Lot on west side of Stockton Street, between Broadway and Pacific. Two-story brick building ; City property, in good order.

CRESCENT ENGINE COMPANY, No. 10.—House and Lot on the east

side of Stockton Street, north of Greenwich. Two-story brick building ; City property, in good order.

COLUMBIAN ENGINE COMPANY, No. 11.—House and Lot on north side of Bush street, between Dupont and Kearny. Two-story brick building ; City property, in bad order and requires overhauling.

PENNSYLVANIA ENGINE COMPANY, No. 12.—House and Lot on the east side of Sixth Street, south of Folsom. Two-story frame building ; City property, in good order.

YOUNG AMERICA ENGINE COMPANY, No. 13.—House and Lot on north side of Center Street, between Valencia and Guerrero street's. Two-story brick building ; City property, in good order.

TIGER ENGINE COMPANY, No. 14.—House and Lot on west side of Second Street, between Natoma and Howard. Three-story brick building ; City property, in good order.

HOOK AND LADDER COMPANIES.

ST. FRANCIS, No. 1.—House and Lot on west side of Dupont, between Sacramento and Clay streets. Three-story brick building ; City property, in good order.

LAFAYETTE, No. 2.—House and Lot on south side of Broadway, between Stockton and Dupont streets. Two-story brick building ; City property, in good order.

INDEPENDENCE, No. 3.—House and Lot on the west side of Fourth Street, between Jessie and Market streets. One-story frame building ; Company property, in good order.

HOSE COMPANIES.

WASHINGTON HOSE COMPANY, No. 1.—House and Lot on the west side of Dupont Street, between Vallejo and Green streets. New two-story brick building ; City property, in good order.

LIBERTY HOSE COMPANY, No. 2.—House and Lot on the east side of Fourth Street, near Howard. Two-story frame building ; Company property, in good order.

EUREKA HOSE COMPANY, No. 4.—House and Lot on the south side of Geary Street, near Mason. Two-story frame building; City property, in good order.

EXEMPT FIRE COMPANY.—House and Lot on south side of Jackson Street, east of Kearny. Two-story brick building; City property, in good order.

INDEPENDENT COMPANIES.

RINCON HOSE COMPANY.—House on the south side of Folsom Street, between Fremont and Beale streets. One-story frame building; Company property.

HAYES VALLEY HOSE COMPANY.—House located on the north side of Grove Street, east of Laguna. One-story frame building; owned or rented by Company.

WEST END ENGINE COMPANY.—House on Union Street, near Larkin. One-story frame building; Company property.

CENTRAL HOSE COMPANY.—House located on Brannan Street, near Eighth. Frame building; rented by the Company.

FIRE APPARATUS IN POSSESSION OF THE DIFFERENT COMPANIES.

BRODERICK, No. 1.—Second-class Engine, James Smith, New York, builder; City property. A two-wheeled Hose Cart, Folsom, builder, San Francisco; City property.

MANHATTAN, No. 2.—Second-class Engine, Cowing & Co., builders, Seneca Falls, N. Y. Also, a two-wheeled Hose Cart; all City property.

HOWARD, No. 3.—Third-class Engine, Hunneman, builder, Boston; and two-wheeled Hose Cart; both City property.

CALIFORNIA, No. 4.—Second-class Steam Engine, Button & Co., builders, Waterford, N. Y.; City property. A two-wheeled Hose Cart; City property.

KNICKERBOCKER, No. 5.—Second-class Engine, Jeffers, builder, Pawtucket, R. I., and a two-wheeled Hose Cart; both City property.

MONUMENTAL, No. 6.—First-class Steam Engine, built by Lee & Larned, N. Y., owned by the City; and a two-wheeled Hose Cart, Company property.

VOLUNTEER, No. 7.—Second-class Engine, built by Hunneman & Co., Boston, and a two-wheeled Hose Cart; both City property.

PACIFIC, No. 8.—Second-class Engine, Jeffers, builder, Pawtucket, R. I., and a two-wheeled Hose Cart; both owned by the City.

VIGILANT, No. 9.—Second-class Jeffers Engine, and a two-wheeled Hose Cart; both owned by the City.

CRESCENT, No. 10.—Second-class Engine, Cowing & Co., builders, Seneca Falls, N. Y., and a two-wheeled Hose Cart; both owned by the City.

COLUMBIAN, No. 11.—Second-class Engine, built by Van Ness & Torboss, New York, and a two-wheeled Hose Cart; all City property.

PENNSYLVANIA, No. 12.—Second-class Steam Engine, built by Neafie & Levy, Philadelphia, City property; and a four-wheeled Hose Carriage, owned by the Company.

YOUNG AMERICA, No. 13.—Second-class Engine, Cowing & Co., builders, Seneca Falls, N. Y., a fine four-wheeled Hose Carriage; both Company property; also, a two-wheeled Hose Cart, owned by the City.

TIGER, No. 14.—Second-class Steam Engine, Button & Co., builders, Waterford, N. Y., and a four-wheeled Hose Carriage; both City property.

HOOK AND LADDER COMPANIES.

ST. FRANCIS, No. 1.—Truck, with the usual number of Hooks, Ladders, etc., built by J. L. Berry, San Francisco, in good order; City property.

LAFAYETTE, No. 2.—Truck, with a good supply of Hooks and Ladders, J. L. Berry, builder, San Francisco, in good order; City property.

INDEPENDENCE, No. 3.—Truck, with fair supply of Hooks and

Ladders ; was purchased by the Company from a Company in Marysville ; in fair condition.

HOSE COMPANIES.

WASHINGTON, No. 1.—Four-wheeled Hose Carriage ; City property ; in good order.

LIBERTY, No. 2.—Four-wheeled Hose Carriage ; City property ; in good order.

EUREKA, No. 4.—Four-wheeled Hose Carriage ; Company property ; in good order.

INDEPENDENT COMPANIES.

RINCON HOSE COMPANY.—Four-wheeled Hose Carriage ; Company property.

HAYES VALLEY HOSE COMPANY.—Two-wheeled Hose Cart and five hundred feet of Hose, City property ; and three hundred feet of Hose owned by the Company.

WEST END ENGINE COMPANY.—The Engine and Hose in use by this Company are City property, and the Hose Cart, Company property.

CENTRAL HOSE COMPANY.—Two-wheeled Hose Cart, and three hundred and fifty feet of Hose ; City property.

LIST OF HYDRANTS.

1. Southwest corner of Broadway and Front.
2. Southeast corner of Broadway and Battery.
3. Southwest corner of Broadway and Sansome.
4. Southeast corner of Broadway and Montgomery.
5. Northwest corner of Broadway and Kearny.
6. Northwest corner of Broadway and Dupont.
7. Southwest corner of Broadway and Stockton.
8. Southwest corner of Broadway and Powell.
9. Northeast corner of Broadway and Mason, on Broadway.

10. Northeast corner of Broadway and Mason, on Mason.
11. North side of Broadway, between Front and Davis—California Steam Navigation Company's Yard—private.
12. Southwest corner of Bush and Battery.
13. Northwest corner of Bush and Battery.
14. Southwest corner of Bush and Sansome.

16. Southwest corner of Bush and Montgomery.
17. Southwest corner of Bush and Kearny.
18. Northwest corner of Bush and Dupont.
19. Northeast corner of Bush and Dupont.
20. Northwest corner of Bush and Stockton.
21. Northeast corner of Bush and Powell.
22. Northwest corner of Bush and Powell.
23. Northwest corner of Bush and Mason.
24. Northwest corner of Bush and Taylor.
25. Southeast corner of Bush and Taylor.
26. Northwest corner of Bush and Jones.
27. Northeast corner of Bush and Jones.
28. Southeast corner of Bush and Leavenworth.
29. Northwest corner of Bush and Leavenworth.
30. North side of Bush, at House of Engine Company No. 11.
31. Northwest corner of Bush and Larkin.
32. Northwest corner of Bush and Franklin.
33. Northwest corner of Bush and Laguna.
34. Northeast corner of Bryant and Rincon Place.
35. Northwest corner of Bryant and Second.
36. North side of Bryant, between Second and Third.
37. Southeast corner of Bryant and Third.
38. North side of Bryant, between Third and Fourth.
39. North side of Bryant, at House of Engine Company No. 1.
40. Northeast corner of Bryant and Fourth.
41. Northeast corner of Bryant and Park Avenue.
42. Northeast corner of Bryant and Garden.
43. Northwest corner of Brannan and Second.
44. Northeast corner of Brannan and Third.
45. Northeast corner of Brannan and Fourth.
46. Northeast corner of Brannan and Fifth.
47. Southeast corner of Brannan and Sixth.
48. Northeast corner of Brannan and Seventh.

49. North side of Brannan, between Seventh and Eighth.
50. Northeast corner of Brannan and Ninth.
51. North side of Brannan, between Sixth and Seventh.
52. Northwest corner of Brannan and Eighth.
53. Southwest corner of Commercial and Montgomery.
54. Southeast corner of Commercial and Kearny.
55. North side of Chestnut, between Powell and Mason.
56. Southwest corner of Chestnut and Stockton.
57. Southeast corner of Chestnut and Mason.
58. Northwest corner of Clay and Davis.
59. Northeast corner of Clay and Battery.
60. Southwest corner of Clay and Stockton.
61. Southwest corner of Clay and Powell.
62. Southwest corner of Clay and Powell, on Powell.
63. Southeast corner of Clay and Mason.
64. Northeast corner of Clay and Mason.
65. Northwest corner of Clay and Taylor.
66. Southeast corner of Clay and Taylor.
67. Northwest corner of Clay and East.
68. South side of Clay, east of Montgomery.
69. Northwest corner of Commercial and Battery.
70. Southeast corner of Commercial and Battery.
71. Southwest corner of Commercial and Sansome.
72. Southwest corner of California and Dupont.
73. Southeast corner of California and Battery.
74. Southeast corner of California and Sansome.
75. Southwest corner of California and Montgomery.

115. Southwest corner of Filbert and Dupont.
116. Northeast corner of Filbert and Stockton.
117. Northeast corner of Filbert and Powell.
118. Southwest corner of Filbert and Mason.
119. Northeast corner of Filbert and Mason.
120. Southwest corner of Filbert and Hyde.
121. East side of Fremont, between Folsom and Howard.
122. East side of Fremont, between Howard and Mission.
123. East side of Fremont, between Mission and Market.
124. Northwest corner of Folsom and Stewart.
125. Southeast corner of Folsom and Main.
126. Southeast corner of Folsom and Beale.
127. Northwest corner of Folsom and First.
128. Northeast corner of Folsom and First.

129. Northwest corner of Folsom and Second.
130. Northeast corner of Folsom and Third.
131. Southwest corner of Folsom and Fourth.
132. Northwest corner of Folsom and Fourth.
133. Northeast corner of Folsom and Fifth.
134. Northwest corner of Folsom and Sixth.
135. Southeast corner of Folsom and Sixth.
136. Northwest corner of Folsom and Rausch.
137. Northeast corner of Folsom and Ninth.
138. Northwest corner of Folsom and Eleventh.
139. Northeast corner of Folsom and Fremont.
140. Northwest corner of Folsom and Eighth.
141. North side of Folsom, between Second and Third.
142. North side of Folsom, between Fifth and Sixth.
143. North side of Folsom, between Fourth and Fifth.
144. East side of Folsom, opposite Mission Woolen Mills.
145. Southwest corner of Greenwich and Dupont.
146. Northwest corner of Greenwich and Stockton.
147. Northeast corner of Greenwich and Powell.
148. Southeast corner of Greenwich and Mason.
149. Northeast corner of Greenwich and Jansen.
150. Northeast corner of Greenwich and Jones.
151. Northwest corner of Green and Kearny.
152. Southeast corner of Green and Dupont.
153. Southeast corner of Green and Stockton.
154. Southwest corner of Green and Powell.
155. Northwest corner of Green and Mason.
156. Northwest corner of Green and Calhoun.
157. Northwest corner of Green and Hyde.
158. South side of Geary Street, in front of house of Eureka Hose Company.
159. Northwest corner of Geary and Kearny.
160. Northeast corner of Geary and Dupont.
161. Northwest corner of Geary and Stockton.
162. Southwest corner of Geary and Powell.
163. Northwest corner of Geary and Mason.

235. North side of Jessie, between Third and Fourth.
236. North side of Jessie, between Fourth and Fifth.
237. North side of Jessie, between Fifth and Sixth.
238. West side of Kearny, between Pine and California.
239. West side of Kearny, between Sacramento and California.
240. South side of King, near Second.
241. North side of King, near Third. Private.
242. Northwest corner of Lombard and Kearny.
243. Southwest corner of Lombard and Dupont.

244. Southwest corner of Lombard and Stockton.
245. Southwest corner of Lombard and Powell.
246. Southeast corner of Lombard and Mason.
247. Northeast corner of Lombard and Taylor.
248. Northeast corner of Lombard and Jones.
249. Southeast corner of Louisa and Fourth.
250. Northwest corner of Louisa and Fourth.
251. Southeast corner of Laurel Place and Essex.
252. Southeast corner of Market and Beale.
253. Southwest corner of Market and First.
254. Southwest corner of Market and Fourth.
255. Southwest corner of Market and Third.
256. South side of Market, between Second and Third.
257. South side of Market, between First and Second.
258. North side of Market, in front of Engine House, No. 4.
259. South side of Market, between Third and Fourth.
260. Southeast corner of Market and Fifth.
261. Southeast corner of Market and Fremont.
262. Southeast corner of Market and Eleventh.
263. Southwest corner of Mission and Stewart.
264. Northeast corner of Mission and Beale.
265. Southwest corner of Mission and Fremont.
266. Northeast corner of Mission and Fremont.
267. Southwest corner of Mission and First.
268. Northwest corner of Mission and First.
269. Southwest corner of Mission and Second.
270. Northeast corner of Mission and Fourth.
271. Southeast corner of Mission and Fifth.
272. Southeast corner of Mission and Sixth.
273. Northeast corner of Mission and Ninth.
274. Northeast corner of Mission and Eleventh.
275. Southeast corner of Mission and Twelfth.
276. Northwest corner of Mission and Sixteenth.
277. Northwest corner of Mission and Ridley.
278. North side of Mission, between First and Second.
279. North side of Mission, between Second and Third.
280. North side of Mission, between Fourth and Fifth.
281. North side of Mission, between Fifth and Sixth.
282. Northwest corner of Minna and First.
283. Southeast corner of Minna and Second.

284. Northwest corner of Minna and Third.
285. Southwest corner of Minna and Fourth.
286. North side of Minna, between First and Second.
287. North side of Minna, between First and Second.
288. South side of Minna, between Second and Third.
289. South side of Minna, between Fourth and Fifth.
290. Northwest corner of McAllister and Fillmore.
291. Northwest corner of McAllister and Buchanan.
292. Southwest corner of Natoma and First.
293. Northeast corner of Natoma and Jane.
294. Northwest corner of Natoma and Fifth.
295. North side of Natoma, between First and Second.
296. Northwest corner of O'Farrell and Dupont.
297. Northwest corner of O'Farrell and Stockton.
298. Northeast corner of O'Farrell and Mason.
299. Northeast corner of O'Farrell and Jones.
300. Northeast corner of O'Farrell and Hyde.
301. Northeast corner of O'Farrell and Larkin.
302. East side of Park Avenue, between Harrison and Bryant.
303. Northwest corner of Pacific and Battery.
304. Northwest corner of Pacific and Battery, on Battery.
305. Southeast corner of Pacific and Sansome.
306. Northeast corner of Pacific and Montgomery.
307. Southwest corner of Pacific and Montgomery.
308. Northwest corner of Pacific and Dupont.
309. Southwest corner of Pacific and Powell.
310. Northeast corner of Pacific and Mason.
311. Northeast corner of Pacific and Taylor.
312. Southwest corner of Pacific and Taylor.
313. Northwest corner of Pacific and Jones.
314. Southwest corner of Pacific and Jones.
315. Northwest corner of Pacific and Leavenworth.
316. Northwest corner of Pacific and Hyde. Broken.
317. Northeast corner of Pacific and Larkin.
318. North side of Pacific, opposite Virginia.
319. North side of Pacific, between Dupont and Stockton.
320. South side of Pacific, at old Engine House of No. 10.
321. Southeast corner of Pine and Battery.
322. Southwest corner of Pine and Sansome.
323. Southeast corner of Pine and Montgomery.

324. Southwest corner of Pine and Kearny.
325. Southeast corner of Pine and Dupont, on Pine.
326. Southeast corner of Pine and Dupont, on Dupont.
327. Northeast corner of Pine and Stockton.
328. Northwest corner of Pine and Powell.
329. Northwest corner of Pine and Jones.
330. Southwest corner of Pine and Mason.
331. Southeast corner of Pine and Larkin.
332. North side of Pine, east of Montgomery.
333. Northwest corner of Post and Montgomery.
334. Southwest corner of Post and Montgomery.
335. Northwest corner of Post and Kearny.
336. Northwest corner of Post and Mason.
337. Southwest corner of Post and Taylor.
338. Southeast corner of Post and William.
339. Southeast corner of Post and Jones.
340. Southwest corner of Post and Leavenworth.
341. Northeast corner of Post and Hyde.
342. Southeast corner of Post and Powell.
343. Southeast corner of Perry and Fourth.
344. North side of Perry, between First and Second.
345. North side of Perry, between Second and Third.
346. West side of Potrero Avenue, south of Brannan Street Bridge.
347. Southeast corner of Richmond and Battery.
348. Southwest corner of Sacramento and Drumm.
349. Southwest corner of Sacramento and Market.
350. Southeast corner of Sacramento and Davis.
351. Southeast corner of Sacramento and Front.
352. Northwest corner of Sacramento and Front.
353. Northeast corner of Sacramento and Battery.
354. Southwest corner of Sacramento and Sansome.
355. Northeast corner of Sacramento and Sansome.
356. Northeast corner of Sacramento and Leidesdorff.
357. Southeast corner of Sacramento and Kearny.
358. Southwest corner of Sacramento and Powell.
359. Northwest corner of Sacramento and Taylor.
360. Southeast corner of Sacramento and Taylor.
361. Southwest corner of Sacramento and Jones.
362. South side of Sacramento, at What Cheer House.
363. South side of Sacramento, opposite Waverly Place.

364. Southwest corner of Sacramento and Dupont.
365. Southeast corner of Sacramento and Larkin.
366. Southeast corner of Sacramento and Leavenworth.

443. Southwest corner of Washington and Stockton.

444. Southwest corner of Washington and Powell.
 445. Southeast corner of Washington and Mason.
 446. Southeast corner of Washington and Mason, on Mason.
 447. Northwest corner of Washington and Taylor.
 448. Northeast corner of Washington and Leavenworth (suction).

CISTERN S.

The following is the number and condition of Fire Cisterns :

Built of	Location.	Capacity.	Remarks.
Brick,	Powell corner Filbert.....	20,000,	arched, in good order.
Brick,	Powell corner Green.....	30,000,	arched, in bad order.
Brick,	Powell corner Broadway.....	30,000,	in good order.
Brick,	Powell corner Pacific.....	30,000,	in bad order.
Brick,	Powell corner Jackson.....	30,000,	in good order.
Brick,	Powell corner Washington.....	30,000,	in good order.
Brick,	Powell corner Bush.....	60,000,	in bad order.
Brick,	Stockton corner Union.....	30,000,	arched, in good order.
Cement,	Stockton corner Green.....	21,000,	arched, in bad order.
Brick,	Stockton corner Vallejo.....	20,000,	arched, in good order.
Brick,	Stockton corner Broadway.....	20,000,	arched, in good order.
Brick,	Stockton corner Pacific.....	25,000,	arched, in good order.
Brick,	Stockton corner Washington.....	20,000,	arched, in good order.
Brick,	Stockton corner Clay.....	20,000,	arched, in good order.
Brick,	Dupont corner Union.....	20,000,	arched, in bad order.
Brick,	Dupont corner Green.....	32,000,	arched, in good order.
Brick,	Dupont corner Vallejo.....	30,000,	arched, in good order.
Brick,	Dupont corner Broadway.....	35,000,	arched, in good order.
Brick,	Dupont corner Pacific.....	31,000,	arched, in good order.
Brick,	Dupont corner Jackson.....	25,000,	arched, in good order.
Brick,	Dupont corner Washington.....	25,000,	arched, in bad order.
Brick,	Dupont corner Clay.....	15,000,	arched, in good order.
Brick,	Dupont corner California.....	30,000,	in good order.
Brick,	Dupont corner Bush.....	29,000,	in good order.
Brick,	Kearny corner Pacific.....	30,000,	arched, in bad order.
Brick,	Kearny corner Merchant.....	30,000,	arched, in good order.
Brick,	Kearny corner Sacramento.....	30,000,	arched, in good order.
Brick,	Kearny corner California.....	20,000,	arched, in good order.

Brick, Kearny corner Bush.....	27,000, arched, in good order.
Brick, Kearny corner Post.....	30,000, arched, in bad order.
Brick, Montgomery corner Pacific....	30,000, arched, in good order.
Brick, Montgomery corner Washington.	30,000, wooden cover, in good order.
Brick, Montgomery corner Commercial.	32,000, arched, in good order.
Brick, Montgomery corner California..	32,000, arched, in good order.
Brick, Montgomery corner Bush.....	25,000, in good order.
Brick, Sansome corner Pacific.....	25,000, in good order.
Brick, Sansome corner Bush.....	30,000, in bad order.
Brick, Battery corner Bush.....	30,000, in good order.
Wood, First corner Jessie*.....	25,000, in bad order.
Brick, Folsom corner First.....	29,000, arched, in good order.
Brick, Third corner Mission.....	30,000, in bad order.
Brick, Stevenson corner Ecker.....	27,000, in good order.
Brick, Broadway corner Ohio.....	40,000, in good order.
Brick, Folsom corner Second.....	51,000, arched, in good order.
Brick, Clay corner Taylor.....	45,000, arched, in good order.
Brick, Powell corner Ellis (filled by a spring).....	25,000, arched, in good order.
Brick, Center corner Mission.....	28,000, arched, in bad order.
Brick, Dolores corner Center.....	42,000, arched, in good order.
Brick, corner Davis and California....	40,000, arched, in good order.
Brick, corner Fremont and Mission....	40,000, arched, in good order.

PROPERTY IN THE CORPORATION YARD.

One Relief Engine, in good order.
 Two Relief Engines, in bad order.
 Three Relief Hose Carriages.
 Two condemned Hose Carriages.
 Two condemned Engines, one small.
 One small Portable Forge, and lot of necessary tools.

* This Cistern is not worth repairing.

REPORT
OF THE
CITY AND COUNTY SURVEYOR.

CITY AND COUNTY SURVEYOR'S OFFICE, }
San Francisco, July 31st, 1866. }

*To the Honorable Board of Supervisors
Of the City and County of San Francisco—*

GENTLEMEN: In compliance to Resolution of your Board, No. 5556, I beg to make the following report :

During the past year I have finished the Block Book, explaining the location of the streets as now built upon in that part of the city east and north of Larkin and Ninth streets, as per Resolution of your Board, No. 4120. The cost of making the above Book, to me, has been thirteen hundred dollars, (\$1300) which amount has not been refunded by the city.

I wish again to call the attention of your Honorable Board to the fact that at present there is no officer whose duty it is to see that no encroachments are made upon the streets by the erection of buildings.

All of which is respectfully submitted,

GEO. C. POTTER,

City and County Surveyor.

CORONER'S REPORT.

OFFICE OF THE CORONER, }
San Francisco, July 1st, 1866. }

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco—*

GENTLEMEN: In conformity with Resolution No. 5556 of your Board, I respectfully submit the following Report of the number of dead that came under my supervision as Coroner, from July 1st, 1865, to June 30th, 1866.

Also, the number and character of inquests and autopsies held by me during the same period.

S. R. HARRIS, M. D.,

Coroner.

FIRE ALARM AND POLICE TELEGRAPH REPORT.

*To the Honorable the Board of Supervisors
of the City and County of San Francisco :*

GENTLEMEN: In compliance with Resolution No. 5556, of your Honorable Body, I herewith submit my first Annual Report of the Condition and Workings of the "Fire Alarm and Police Telegraph," for the fiscal year ending June 30th, 1866.

All the Signal Boxes, Wires, and Instruments of the "Fire Alarm Telegraph" have worked with remarkable regularity during the year. There have been four (4) new Signal Boxes erected, located as follows: No. 75, at the corner of Kearny and Union; No. 76, corner of Montgomery and Green; No. 78 corner of Folsom and Tenth; No. 79, corner of Polk and Broadway. Signal Box No. 5, has been removed to the corner of Battery and Union Streets; No. 12, to the corner of California and Kearny. By these arrangements, several additional localities were provided with Signal Boxes.

The following new regulations have been adopted: "Upon an alarm being struck the second time for the same fire, it will be a signal that more Engines are wanted. Upon a third alarm being received for the same fire, a general alarm will be struck in the following manner: The number of the Box from which the alarm came will be struck twice, followed by twenty blows in succession." By this arrangement every one will know, when a general alarm is struck, that there have been *two* previous alarms for the same fire.

The Signal Boxes are all tested once in every two weeks. The striking machinery of the Bells is carefully examined two or three times a week, so that it is scarcely possible that any serious derangement of the apparatus can occur.

From July 1st, 1865, to June 30th, 1866, there were 181 alarms given by means of the Telegraph. Of this number, 109 were actual fires. The balance were as follows: Second Alarms, 11; Rekindled, 8; Bonfires, 3; General Alarms, 4; Chimneys, 17; False, 29. Of this number, 105 were for the first half of the year; against 76, for the last half. The monthly average for the year has been 15. The largest number of alarms given during any month were in the months of September and October last, when 22 were given in each. The smallest number was given in February, when only 6 occurred.

The days of the week on which alarms were given are as follows: Sunday, 30; Monday, 25; Tuesday, 21; Wednesday, 15; Thursday, 26; Friday, 42; Saturday, 22. Sunday and Friday have been the most fruitful of alarms, while Wednesday has been the most free.

A careful examination reveals the following facts as to the hours of the day when alarms have occurred: Between 11, P.M., and 1, A.M., alarms have been most frequent; while between 7 and 11, A.M., has been most free. The next highest number comes between 8 and 9, P.M., while from 8 to 9, A.M., no alarms have been struck for the year. This is the only hour of which this can be said.

The boxes from which the largest number of alarms have been received during the year, are numbers 13, 18, 27, 61, and 62. Out of the 65 Signal Boxes, alarms have been turned in from all but 11. With the exception of the above named, the alarms have been pretty generally distributed among the remaining Boxes.

Judging from the number of alarms for the last half of the year, as compared with the first half, it is fair to presume, that the number of alarms for the next year will be greatly diminished. One thing which will tend to bring about this anticipated result, will be a reduction in the number of false alarms. That there will be less of these in the future arises from two facts: First, justice has overtaken some who have been engaged in this nefarious practice, which will have a tendency to deter others. Secondly, the operators at the Central Office have become so accustomed to the workings of the instruments, that they are generally able to detect a false from a genuine alarm, and hence do not strike such alarms.

The Police Telegraph has been completely remodeled during the past year, by which change the Batteries are dispensed with at the

different stations. All are now worked by one Battery at the City Hall. New stations have been erected at Hayes Park, and Jones, and Pacific Streets.

A careful observation during the year reveals the fact, that out of the 109 actual fires that have occurred, fully two-thirds of the alarms have been struck before any appearance of the fire could be seen from the top of the City Hall. That the Telegraph has fully met the expectations of its friends, and as completely dissipated the fears of those who first opposed it, is generally conceded.

The expenses of this Department have been as follows :

Office expenses.....	\$ 28 87
Repairs and extensions.....	353 19
Batteries.....	371 06
Tools	25 07
Three relay magnets.....	85 00
Six Police magnets.....	60 00
1,200 feet covered wire, at six cents per foot.....	72 00
Freight on porous cups, from Boston.....	104 25
Freight on eight signal boxes, from Boston.....	51 15
Lettering signs, and paints.....	27 02
Printing cards and instructions.....	51 50
550 porous cups.....	65 90
52 new keys.....	23 10
Total.....	<u>\$1,318 11</u>

Respectfully submitted.

M. GREENWOOD,
Sup't Fire Alarm and Police Telegraph.

HARBOR MASTER'S REPORT.

HARBOR MASTER'S OFFICE,
San Francisco, July 31st, 1866. }

*To the Honorable, the Board of Supervisors
Of the City and County of San Francisco—*

GENTLEMEN: In accordance with your directions, I have the honor to submit the following report:

During the year, four wharves have been built, as follows: One at the foot of Harrison street, one at the foot of Beale street, including blocks five and six, one from Long Bridge, and India Wharf rebuilt, which, with the new wharf just commenced by the Pacific Mail S. S. Co., will give ample accommodation for some time.

Eight docks have been dredged out to a sufficient depth of water for the largest vessels, viz: India, Vallejo, Broadway, Pacific, Market, Mission, Folsom and Stuart street. The other docks will be dredged out as fast as the Harbor Commissioners have the money to do so.

You will perceive by the tabular statement herewith annexed, that although 44 more vessels have arrived from foreign and domestic ports (exclusive of whalers and vessels employed in the coasting trade) this year than last, the amount of tonnage has decreased 17,649 tons owing to the fact that the vessels have been of a smaller class than last year.

There has been a considerable decrease in the number of vessels engaged in the Coasting and Bay Trade on account of loss and withdrawal.

The Whalers, as compared with last year, have decreased 3 in number, and 2,585 tons. The Harbor dues, collected and paid into the City and County Treasury amount to \$20,136 75. The expenses for printing and stationery amount to \$48 09. For rent of office and boat

hire, (authorized by law, last winter) \$150. Salary, \$3,000. Showing a net income to the City and County of \$16,938 66.

Respectfully submitted.

MARCUS HARLOE,
Harbor Master.

[WHALEERS—28 Vessels; 7,781 Tons.]

HEALTH OFFICER'S REPORT.

*To the Honorable the President and Board of Supervisors
Of the City and County of San Francisco—*

GENTLEMEN: I have the honor to submit the following Sanitary and Mortuary Report, for a portion of the fiscal year ending June 30th, 1866.

The Order of the Board of Supervisors creating the Health Office, and authorizing the Recording of Deaths, went into effect November 8th, 1865; since that time, a correct record of the deaths and interments in the City have been kept in this office.

There is no Ordinance of the Board of Supervisors requiring a record of Births and Marriages—these are kept by the County Clerk and the County Recorder; consequently, they will not appear in this Report.

The duties of the Health Officer are prescribed by your Honorable Board in the following language:

[Order 697, Chapter 11.]

SECTION 10. The Health Officer shall keep an office in some convenient location, and shall keep the same open for gratuitous vaccination during certain hours of each day, except Sundays, of which he shall give public notice, by advertisement, from time to time, in two daily newspapers. He shall give his personal attention and services whenever practicable, to the work of gratuitous vaccination, selecting and preserving the vaccine virus with his utmost care and skill, and shall so perform his duties as to promote the physical well being of all who shall apply at his office.

SEC. 11. Every parent, guardian, or other person, having in his or her charge any infant child, who shall either neglect or refuse to have such infant child duly vaccinated for a period of more than six months from its birth, unless prevented by sickness, or other reasonable cause, duly certified to by a respectable and competent physician, shall be deemed guilty of a misdemeanor, and on conviction, shall be punished by a fine of not less than fifty dollars, nor more than two hundred dollars, or by imprisonment in the county jail not less than ten days, nor more than twenty days.

SEC. 12. Every person except children under twelve (12) years of age, who, never having been vaccinated, shall either neglect or refuse, for the space of six months after the final passage and approval of this order, to be duly vaccinated, unless prevented by sickness or other reasonable causes duly certified to by a respectable and competent physician, shall be deemed guilty of a misdemeanor, and on conviction shall be punished as prescribed in Section eight of this Order.

SEC. 13. It shall be the duty of the Health Officer in every practical way to impress upon the citizens of the City and County of San Francisco the importance and duty of re-vaccination in the case of all persons who have passed a period of more than seven years since their first vaccination. The Health Officer, in addition to the duties specially mentioned in this Order, shall be prompt and active in seeing that all the orders of the Board of Health are properly executed, shall of his own motion be vigilant and active in detecting and removing all causes of disease, and shall see that all persons violating the orders of the Board of Supervisors, or the Board of Health, in relation to the preservation of the public health are duly prosecuted.

SEC. 14. It shall be the duty of the Health Officer, to keep a "Mortuary Record" of all deaths occurring in the City and County of San Francisco, in books duly prepared for the purpose, which shall be deposited, when filled, and duly preserved for public inspection, in the office of the County Recorder. Said Mortuary Record shall contain as nearly as possible the names of all persons who shall die in said City and County, their sex, the date and place of their birth, the date and particular locality of their death, the cause of their death, place of interment, and such other remarks as the Health Officer shall see fit to make in the margin of the record.

SEC. 15. It shall be the duty of the County Recorder to cause to

be prepared a proper Index of the names of all persons contained in the said Mortuary Record, as soon as the first volume shall be deposited in his office.

SEC. 16. Every Sexton, Undertaker, Superintendent of a Cemetery, or other person who shall inter, or cause to be interred, any human body, without having first obtained and filed with the Health Officer, a Physician's certificate, or the Coroner's certificate, or the certificate of some reliable person acquainted with the facts, setting forth as nearly as possible the name, sex, and date, and place of birth, date and locality of death, and cause of death of the deceased, shall be deemed guilty of misdemeanor, and on conviction, shall be punished as prescribed in Section eight of this Order, unless in any case it shall be shown to the satisfaction of the Court that it was actually beyond the power of such person to comply with the requirements of this section. It shall be the duty of the Health Officer carefully to examine the certificates filed in his office, and if in any case he shall have reason to believe the cause of death has been falsely stated, or that death has been occasioned by criminal means, he shall forthwith notify the Coroner, that due inquest may be had, and the guilty party dealt with according to law.

SEC. 17. Every Sexton, Undertaker, Superintendent of a Cemetery, or other person, who shall inter or cause to be interred any human body, or who shall remove or cause to be removed from the City and County of San Francisco any human body, without having first obtained a permit in writing for the same from the Health Officer, or who, having interred or caused to be interred, any human body under said permit, shall neglect, for the space of three days, to report the place of interment to the Health Officer, shall be deemed guilty of a misdemeanor, and on conviction, shall be punished as prescribed in Section eight of this Order.

There are obvious reasons why this Report will not be as comprehensive and elaborate as desired :

1st. The office has been recently established, and is not yet in good working order ; it is only by experience that we learn what books and forms are required for keeping the proper records.

2d. The impossibility of getting the correct percentage of deaths to the population. We can only approximate.

The following estimate is taken from Langley's Directory, published

August 1st, 1865, and is believed to be as fair an estimate as can be made, without an official and accurate census.

White males over 21 years.....	40,500
White females over 18 years	27,000
White males under 21 years, and white females under 18 yrs.	36,800
Chinese, males and females	3,000
Colored, males and females	2,800
Floating population.....	9,000
	<hr/>
	119,100
Increase during the last year	1,900
	<hr/>
Total.....	121,000
	<hr/> <hr/>

This floating population adds materially to our bills of mortality. We have representatives from almost every clime, with every variety of habits, and were it not for our invigorating climate, the death rate would be largely increased. Again, a large proportion of our Hospital cases are late arrivals from the country, and along the seaboard—persons who have come to this city for medical treatment. These deaths are not properly chargeable to our climate.

The following table will show the number of Interments from November 8th, 1865, to June 30th, 1866, being a period of seven months and twenty-two days.

GENERAL SUMMARY OF DEATHS.

Total number of Interments, from November 8th, 1865, to June 30th, 1866.....	1592
White	1438
Colored	154
Total	— 1592
Males	1037
Females	555
Total	— 1592
Adults	878
Minors.....	714
Total	— 1592

Deaths from registered diseases	1519
Deaths from suicide	11
Deaths from hanging	2
Casualties	60
Total	1592

RECAPITULATION.

Total number of Deaths, from November 8th, 1865, to June 30th, 1866	1592
White	1438
Colored	154
Total	— 1592
Males	1030
Females	555
Total	— 1592
Adults	878
Minors	714
Total	— 1592
Deduct Casualties	60
Suicide	11
Hanging	2
	— 73
Leaving deaths from registered diseases	<u>1519</u>
Not included in the above:	
Stillborn	141
Interments from country	88

Taking the net deaths at one thousand, five hundred and nineteen (1,519), and the population at one hundred and twenty-one thousand (121,000), we find the rate of mortality for seven months and twenty-two days to be about one and a quarter ($1\frac{1}{4}$) per cent.—from which we extract the following Table :

Mortality, per day	6 $\frac{1}{2}$
Do. per month	196 $\frac{1}{2}$
Do. per year	2357
Or, per diem	1 in 18,615 $\frac{1}{2}$
per month	1 in 616
per year	1 in 51 $\frac{1}{3}$

There are a few diseases that require special mention.

Aneurism. We have twenty-eight (28) cases reported, and if a history of these could be obtained, I doubt not but the majority of them would be found to have been miners, men who have labored in water, and have been exposed to extremities of heat and cold. Another reason, perhaps, is the exciting life men lead in the pursuit of wealth, and pleasure, and in many cases dissipation.

There were two hundred and twenty-three (223) cases of Consumption of the Lungs reported. From this number, it would appear that our climate is fatal to Lung disease.

A large proportion of these occurred among the Chinese; these people have seldom other medical advice or attendance than their own native doctors, and whatever may have been the cause of death, the certificates are generally signed Consumption; hereafter their cases will be laid before the Coroner for the cause of death.

Of *Cholera Infantum* we have seventy-three (73) cases. *Convulsions Infantile*, eighty-six (86). *Diphtheria*, seventy-nine (79).

The annexed table will show the different localities of death from Diphtheria, together with their ages; I regret that I cannot get the population of the different districts, in order that I might compare their mortalities from this disease. It will be observed by this table, that the largest mortality was in the Tenth District. This is a large district and thickly populated, and beyond this, in my opinion, is its locality, the want of proper drainage, low grades, and filled-in ground; again, this district is to the leeward of the City, and necessarily the atmosphere is less pure.

Next to the Tenth District, is the First. This District is on the water front, the grade low, drainage imperfect, and the atmosphere infected from the emptyings of the sewers. This portion of the City is made ground, and a large proportion not yet filled in.

DIPHTHERIA.

SHOWING THE DEATHS IN THE DIFFERENT DISTRICTS.

DISTRICTS.	Total.	AGE, Under 1 year.	AGE, From 1 to 2 years.	AGE, From 2 to 3 years.	AGE, From 3 to 4 years.	AGE, From 4 to 5 years.	AGE, From 5 to 10 years.	AGE, From 10 to 15 years.	AGE, From 15 to 20 years.	AGE, From 20 to 30 years.

Total	79	19	13	12	14	6	12	2	0	1

Small-Pox. During the past eight months, only eight (8) cases of this disease occurred in the City and County, and of this number but one proved fatal.

The admirable location of the Small-Pox Hospital enables us to control this disease without difficulty. The Hospital is under the control and management of Doctor William T. Garwood, Resident Physician of the City and County Hospital.

In connection with this disease, I regret to say that there is great difficulty in getting the people to understand the importance of vaccination, notwithstanding the law requiring it, free vaccination, efforts made by advertising, and other means; still they are insufficient.

Fever. There were nine (9) cases of Typhus and thirty-three (33) of Typhoid fever reported. I am convinced that many of these cases were not correctly described. It is a well known fact that pure Typhus and Typhoid fevers are seldom met with in the climate of San Francisco. Physicians are often careless in discriminating the approximating from the true disease; by this negligence, certificates of death are not carefully signed.

The City is not in as clean a condition as could be desired, and were it not for our invigorating climate, the rate of mortality would be largely increased. San Francisco contains a population of about one hundred and twenty-one thousand (121,000). This has been the accumulation of a little over sixteen years, and in the rapid construction of buildings to contain this number of people, without any regard to drainage in many cases, it is to be expected that filth will accumulate; the general system of drainage now being introduced throughout the City, will soon correct this defect.

The close proximity of the Slaughter Houses and Hog Ranches to the City, is a serious annoyance and public injury. Although many improvements have recently been made in drainage, and the removal of offal, still they are and will be, so long as they remain in the present locality, a great nuisance; I would strongly urge their removal at the expiration of the time allowed them by law—August 1st, 1866. The locality selected for them possesses fewer objections than any other portion of the County, being as it is to the leeward of the City, and sufficiently removed to allow us to escape the effluvia arising from them.

Another prolific source of disease, is the crowded and filthy condition of our Chinese population. So long as they are permitted to occupy the miserable and rickety old shanties in the very heart of the City, this will be an injury to public health, and a shock to decency.

Respectfully submitted,

J. M. McNULTY,

Health Officer.

HOSPITAL REPORT.

CITY AND COUNTY HOSPITAL,
SAN FRANCISCO, July 1st, 1866. }

To the Honorable the Board of Supervisors

Of the City and County of San Francisco—

GENTLEMEN: I have the honor to present the annual report of the Hospital, from July 1st, 1865, to June 30th, 1866, inclusive.

Patients in Hospital July 1st, 1865.....	330	
Patients admitted	1,439	
		<hr/>
To be accounted for.....		1,769
		<hr/>
Patients discharged cured.....	1,084	
Patients discharged by request.....	127	
Patients died.....	243	
		<hr/>
		1,454
Patients remaining July 1st, 1866.....		315
		<hr/>
Average number of patients.....		341
Outside treatments.....		4,625
Children born—Girls.....	9	
Boys.....	10	
		<hr/>
		19

SAN FRANCISCO INDUSTRIAL SCHOOL.

REPORT
OF THE
INDUSTRIAL SCHOOL DEPARTMENT.

OFFICE OF THE INDUSTRIAL SCHOOL DEPARTMENT, }
San Francisco, August 1st, 1866.

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco—*

GENTLEMEN: Responding to Resolution No. 5,556, passed by your Honorable Body June 4th, 1866, I respectfully present for your consideration the report of the President of this Department to the Board of Managers, together with those of the Secretary and Auditor.

Your obedient servant,

JAS. S. THOMSON,
Secretary Industrial School Department.

P R E S I D E N T ' S R E P O R T .

*To the Board of Managers
Of the Industrial School Department, San Francisco—*

GENTLEMEN: From the accompanying Report of the Secretary, it will be seen that the School is largely on the increase, and will be likely to continue so while vice unfolds her seductive charms and

allures the young from the paths of virtue to those of crime and degradation. I need not refer you to the many places of infamy in this city, where youths are to be found just entering upon that path which is to end in their ruin.

The present appropriation is inadequate to carry on the institution. The presence of so many young and innocent children as are to be found in this School is greatly to be regretted; and the City should make some provision for the support of this class, independent of the Industrial School.

The Act by which this School was established did not contemplate the receiving of children other than those committed by the Police Judge, the County Court, and Court of Sessions, for being vagrants, or leading an idle and dissolute life, or who should be duly convicted of any crime or misdemeanor. With the present means at our command, it will be impossible to carry out the requirements so much needed in an institution of this kind. Still, under our able and efficient Superintendent, Col. Wood, the School is under good discipline, never stood higher than it does to-day, and reflects the greatest credit upon the Superintendent and other officers.

I wish the whole city of San Francisco could look in upon these children, and hear them in their exercises; could see their deportment, and be with them in their devotions; for in this way their warmest sympathies would be enlisted in their behalf. Our city should be justly proud of such an institution, for it has reached out after these boys and girls, and snatched them from disgrace, misery, destitution, and villainy, and placed them in the paths of honor and virtue. Such a school as this is to-day, would reflect the greatest credit upon any city in the world. There are many noble spirits among them, who have been left in an evil hour to fall into temptation, and having no kind, parental hand to guide them, have yielded. Many, very many have been completely reformed, and have left the Institution, and are filling situations with great credit to themselves; kind words have been spoken to them, words of encouragement have been given, which has saved them and caused them to respect themselves and become an ornament to society. We cannot fail to recognize the obligations of the public to those gentlemen who have so earnestly labored with the children, from week to week, in the Sunday School. God bless them. They will have their reward in seeing these dear children entering that bright and shining path which leads to the mansions of eternal bliss.

WM. G. BADGER,

President.

S E C R E T A R Y ' S R E P O R T .

OFFICE OF THE INDUSTRIAL SCHOOL DEPARTMENT, }
 San Francisco, June 6th, 1866. }

To the President and Board of Managers

Of the Industrial School Department—

GENTLEMEN: Herewith please find statistical tables, showing the progress of the institution during the year ending this day.

Since the opening of the institution, May 3d, 1859, there have been committed as follows, viz.:

Boys.....	419	
Girls	118	
	<hr/>	537

ADDRESS OF WILLIAM G. BADGER, PRESIDENT OF THE INDUSTRIAL SCHOOL DEPARTMENT, AT THE CELEBRATION OF THE SEVENTH ANNIVERSARY OF THE INSTITUTION, MAY 17TH, 1866.

Kind friends, we have met here to-day to celebrate the seventh anniversary of this school. Many of you present have been deeply interested in its welfare, from its organization down to the present time. Some years before the school was established there were noble spirits who conceived the idea of providing a home for the neglected boys of our city. As early as 1856 a Sunday School was established under the care of the Young Men's Christian Association; prominent among the founders of that Sunday School were William R. Wadsworth and Samuel Pillsbury. Too much praise cannot be awarded these gentlemen for their zeal in so good a cause.

The necessity of establishing such a school as this, whose object is to gather together in a convenient place, for instruction on Sunday, all the news-boys, as well as the poor ragged youths of the city, was obvious to every Christian man or woman who had observed the character of a large portion of the youths residing in populous communities, particularly on the seaboard. These boys were different from any other class of youths; their habits and manner of life were peculiar to themselves; some had overcome the authority of their parents; others had been abandoned by their natural protectors. Under these circumstances they associated themselves together, and in many instances adopted an out-door life, not only in the day but in the night also.

Living in the streets, sleeping in old boxes, casks, or under sidewalks; they were brought in contact with all manner of evil. It is unnatural to suppose that their minds, continually exercised to their fullest extent in procuring a subsistence, should not become shrewd and acute, and that when hard pushed for their living, they might be tempted beyond their strength to resist, and having once yielded, enter that path which leads to destruction. In this school there are some noble girls and boys, that would do credit to any city; and I do not hesitate to say, taking into consideration the advantages they have had, it would be hard to find better boys and girls anywhere. Great credit is due Col. Wood, the Superintendent, and other officers of the School, but time will not permit more than an honorable mention of them.

As presiding officer of this institution, I feel the greatest satisfaction in the results accomplished, and look forward to the future with the most sanguine hopes of a long career of usefulness for the Industrial School. From a small beginning it has already grown into a large, successful, and beneficent enterprise, diffusing its benign and kindly influences over a large circle, where such influences are most needed. The objects of its bounty are poor, helpless children, whom it rescues from vicious ways, from evil associations, from degradation and want, and seeks to educate into good, upright, intelligent, and useful men and women. No human effort can accomplish higher or nobler ends than these. Instead of seeking to reform or punish criminals already grown old in the ways of vice and crime, it is our mission, by kind and gentle influences and affectionate appeals to the heart, to snatch the young from the paths of vice, and train them up in principles of morality and virtue. We do not seek to punish, but to persuade, to enlighten, to convince,

and thus to rescue from shame and ruin, large numbers of young, thoughtless, and unfortunate boys and girls, who, by some misfortune or by the neglect of their parents, have been exposed, in their helpless condition, to great temptations to vice and crime. Instead of a prison for malefactors, we intend this institution to be, as its name imports, a "school," where the young are not only educated in the learning of books, but are taught the higher principles of morality and virtue. It takes the young boy or girl under its fostering care, not to degrade, but to elevate them; not to punish, but reform them; not to restrain them of their liberty, but to teach them how to enjoy their liberty; not to put a stain upon their characters, but to enable them, in future life, to maintain spotless reputations; not to support them in idleness, but to stimulate them to regular, systematic industry, and thus fit them for the duties of life. We strive, my young friends, to make you feel that these are the noble ends at which we aim. It is, therefore, no reproach to you to have been an inmate of the Industrial School; and we hope that in future years, instead of feeling ashamed that you have been here, you will have cause to be grateful to us, as kind friends, who have watched over your youth and given you a fair start in life, with good habits and an untarnished name. This is all we can hope to do for you. The rest will depend upon your future conduct after you shall have left these walls. If you shall grow up as industrious, temperate, honest, and virtuous men and women, there is no position of honor or distinction to which you may not justly aspire. In this glorious land of ours, where all men are equal before the law, the poorest and most obscure boy, by energy, honesty, and natural capacity, may attain to the highest distinction in any calling. The humblest little girl may justly hope, by modesty, virtue, industry, and amiable conduct, to reach the highest station in society. I need not say with what solicitude we shall watch your future career, and if we shall hear of you hereafter as upright, respectable, and useful men and women, we shall thank God that we have been able to give you a fair start, and aid you when you most needed kind friends to protect you. So long as you remain here, all that we require of you is honest, upright conduct, reasonable industry, an amiable deportment, and obedience to our regulations and rules. In return for this, we will maintain you comfortably, treat you kindly, educate you to the best of our ability, and in all respects endeavor to promote your happiness and welfare; and after you shall have left us, you can still count upon us as friends, who are watching over you with affectionate solicitude. I trust that both you and we will have cause to thank God for the good you will have derived from the Industrial School.

My dear children, I have visited you early in the morning, at noon, and late in the evening, and I have ever received from you the kindest reception. All the gratitude of my heart flows out to you. We have sung, talked, and prayed together; and to me, and I think to you, these have been green spots in the Sahara desert of life. I will not detain you longer. You hear from me so often that what I say will be to you like a familiar story; but, in conclusion, let me say, that as long as I shall live you will have my warmest, deepest affection. God bless you all; and my prayers shall ever be that you may live long and die happy.

LICENSE COLLECTOR'S REPORT.

OFFICE OF THE COLLECTOR OF LICENSES, }
San Francisco, July 23d, 1866. }

ESTATES UPON WHICH LETTERS OF ADMINISTRATION HAVE BEEN ISSUED, BUT NO PROPERTY RECEIVED.

Letters of Administration have been issued on the following Estates, but no money or other property has come into the possession of the Administrator, nor any fees received thereon. The property of several of said Estates consists of claims to land not yet determined :

Robert Dyson,	Charles S. Norris,
T. B. McManus,	Huling Major,
John J. Coombs,	Horace Cole,
C. E. Trask,	James E. Calhoun,
Wm. F. Hamilton,	J. W. Phipps,
Julia W. Burns.	

The foregoing report includes all the Estates administered upon by me during the year ending June 30th, 1866.

As a number of the Estates are still unsettled, the amount of fees cannot be stated, but the same will, on final settlement, be four per cent. upon the amount administered in each Estate.

All of which is respectfully submitted,

J. W. BRUMAGIM,
Public Administrator.

POUND MASTER'S REPORT.

POUND MASTER'S OFFICE. }

JOHN SHORT, JR.,

Pound Keeper

REPORT

OF THE

SUPERINTENDENT OF PUBLIC SCHOOLS.

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco—*

GENTLEMEN: In compliance with the request of your Hon. Body, I have the honor of submitting the following report of the more important transactions of the Department of Public Schools, during the fiscal year ending June 30th, 1866. Accompanied with miscellaneous statistics exhibiting the development and general progress of the Public Schools of this city during the past and several preceding years.

BOARD OF EDUCATION—1865-6.

JOS. W. WINANS, 604 Merchant Street . President.

DIRECTORS.

L. B. MASTICK, Pier 10, Stewart Street..... 1st District.
H. T. GRAVES, 412 Clay Street..... 2d District.
WASHINGTON AYER, 408 Kearny Street..... 3d District.
JOS. W. WINANS, 604 Montgomery Street..... 4th District.

W. A. GROVER, 27 Post Street.....	5th District.
A. C. NICHOLS, Battery Street.....	6th District.
W. G. BADGER, 411, 413, and 415 Battery Street.....	7th District.
GEO. C. HICKOX, northeast cor. Mont. and Sac. streets.	8th District.
S. B. THOMPSON, 373 Brannan Street.....	9th District.
S. C. BUGBEE, 73 and 74 Montgomery Block.....	10th District.
M. LYNCH, No. 2, third floor, City Hall.....	11th District.
CHAS. M. PLUM, 22 Montgomery Street.....	12th District.
J. C. PELTON, 22 City Hall... Superintendent of Public Schools.	
D. LUNT, 22 City Hall..... Secretary.	

On the 5th of July, 1865, the Board of Education convened at the rooms of the Department, City Hall, and elected Joseph W. Winans President; also, confirmed the Superintendent's appointment of Daniel Lunt as Secretary. At the next meeting of the Board, in July, the Standing Committees were proposed by the President, and confirmed as follows:

Examination and Election of Teachers—Messrs. LYNCH, AYER, and HICKOX.

Rules and Regulations—Messrs. BADGER, THOMPSON, and GROVER.

Classification and Course of Instruction—Messrs. AYER, BUGBEE, and GRAVES.

Text Books and Music—Messrs. THOMPSON, NICHOLS, and BADGER.

High Schools—Messrs. GROVER, BADGER, and HICKOX.

Evening Schools—Messrs. THOMPSON, NICHOLS, and MASTICK.

School Houses and Sites—Messrs. MASTICK, BUGBEE, and PLUM.

Furniture and Supplies—Messrs. BUGBEE, PLUM, and GRAVES.

Salaries and Judiciary—Messrs. HICKOX, MASTICK, and LYNCH.

Finance and Auditing—Messrs. NICHOLS, AYER, and PLUM.

Grammar Department—Messesrs. GRAVES, AYER, GROVER, THOMPSON, LYNCH, and BUGBEE.

Primary Department—Messesrs. PLUM, MASTICK, BADGER, HICKOX, NICHOLS, and GROVER.

At the meeting of the Board of Education of July 10th, 1866, Jos. W. Winans was reelected President, and the above Standing Committees continued without change.

REPORT OF FINANCE AND AUDITING COMMITTEE.

The following elaborate and carefully prepared report of the Finance Committee of the Board of Education exhibits the present and prospective financial condition of the Public School Department of this city. This report was adopted in Board of Education, August —, 1866.

To the Honorable Board of Education—

GENTLEMEN: Your Finance and Auditing Committee herewith submit the annual report of the financial condition of the Public School Department, embracing a summary of the receipts and expenditures of the past year, and an estimate of the revenue and expenditures of the present fiscal year.

Grading of Lots.....	3,357 34	1,280 40	2,204 11	960 00
Purchase of Lots.....	760 00	200 00
Total.....	\$112,508 34	\$86,613 86	\$71,835 40	\$73,578 59	\$344,536 19
Transfers to other Funds.....	\$67,124 65
Excess of Audited Demands for Second Quarter (above amount reported).....	8 00
Making total Audited Demands and Transfers up to June 30th, 1866.....	\$411,668 84

Demands presented subsequent to June 30th, 1866, for expenses of the past fiscal year, about \$16,000; making a total for disbursements and transfers for the past fiscal year of \$427,688 84—(\$53,840 52 of which was for liabilities in addition to Transfers for Interest and Sinking Funds, incurred previous to first July, 1865).

The total receipts for the past year, including a balance of \$828 52 in the School Fund at the beginning of th year, and \$50,000 transferred from the Street De

partment Fund, and \$61,050 realized from the sale of School Bonds, amount to \$403,270 53.

Total disbursements for the year, including return of \$50,000 to the Street Department Fund, and transfers to Sinking and Interest Funds, amount to \$427,668 84, being in excess of receipts by \$24,398 31.

ESTIMATED SCHOOL REVENUE 1866-67, AS PER STATEMENT OF THE CITY
AND COUNTY AUDITOR.

From taxes on an assessment roll of \$72,000,000 at 35 cents on each \$100, gives.....	\$252,000 00
From other years (delinquent).....	8,000 00
From Poll Taxes.....	2,500 00
From Rent of School Property.....	1,500 00
From Dog Tax.....	800 00
From Evening Schools.....	200 00
From State School Fund, as per statement of State Superintendent..	57,000 00
Total Amount Revenue for Current Expenses.....	<u>\$322,000 00</u>

BUILDING FUND.

In addition to the above revenue, the Department will have a Building Fund, derived from the proceeds of the sale of School Bonds authorized by the last Legislature:

Amount of Bonds authorized.....	\$275,000
This amount at 80 cents will give.....	\$220,000 00
From this amount of proceeds there will be required to make up the deficiency of the past year, and for buildings already erected, about.....	85,448 31
Leaving for a Building Fund, about.....	<u>\$134,551 69</u>

ESTIMATED CURRENT EXPENDITURES FOR 1866-7.

For Salaries of Teachers.....	\$208,000 00
For Salaries of Janitors.....	14,000 00
For Marshals, same as past year.....	730 00
For Insurance, estimated at.....	3,500 00
For Clerks, fixed	1,800 00
For Carpenters, fixed.....	2,400 00
For Lights, estimated at.....	1,200 00
For Water, estimated at.....	400 00
For Furniture, estimated at.....	20,000 00
For Books and Supplies, estimated at.....	9,970 00
For Rents, estimated at.....	10,000 00
For Fuel, estimated at.....	3,500 00
Carried forward.....	<u>\$275,500 00</u>

<i>Brought forward</i>	\$275,500 00
For Repairs, estimated at.....	5,000 00
For Incidentals, limited to.....	2,500 00
For Grading of Streets, estimated at.....	4,000 00
For Transfers to Sinking and Interest Funds, fixed.....	35,000 00
Estimated current expenses of present year.....	\$322,000 00
To estimated receipts for current expenses.....	322,000 00

The Committee recommend that the Board keep the current expenses within the sums named above.

A. C. NICHOLS, '
WASHINGTON AYER,
CHAS. M. PLUM,
Finance and Auditing Committee.

AUGUST 20th, 1866.

Some of the estimates in the above report, that in regard to furniture, at least, may, I think, be in excess of what at the end of the year will be found to have been the necessary expenditures of the Department; other estimates may be slightly less than thus they might have been, but the general conclusion is undoubtedly correct, viz: That the expenses of our School Department may, with strict economy, be brought within its current resources.

RECAPITULATION OF SUNDRY DISBURSEMENTS.

TEACHERS' SALARIES (1865-1866).

The monthly salaries of Teachers for the current fiscal year ending June 30th, 1866, have been as follows:

MONTHS.	Total Salaries.	Increase.	MONTHS.	Total Salaries.	Increase.
July.....	\$13,091 53	.145	January...	\$15,844 08	.024
August....	14,021 62	.075	February..	16,073 03	.008
September..	14,749 07	.051	March.....	16,160 37	.005
October....	15,306 65	.039	April.....	16,480 93	.013
November..	15,254 05	.003	May.....	16,467 17	.0008
December..	15,469 16	.014	June.....	16,617 42	.009
Total for the year				\$185,535 08	

Average Salaries for 12 months.....	\$15,461 25
Average Salaries for last 6 months.....	16,273 82

The monthly increase of salary for the year has been an average of three per cent. (.03) per month upon the amount of the preceding month; but the monthly increase during the last six months has been only 9-1000 per cent. (less than one per cent.) per month, or less than one-third the average increase during the whole twelve months of the year.

The *total* increase for the year, in the annual total of salaries it will be seen, has been \$50,835 20, or over 37 per cent. It will be seen that most of the increase in salaries, during the current year just closed, was during the first half of the year. The rates of increase in the number of Teachers employed being much less during last half of the year. I believe the necessary increase during the coming year will be much less than during the past year.

The salaries of Teachers for the last month of last fiscal year, 1864-65, (June) amounted to \$11,278 73, while for the corresponding month of present year the amount was \$16,617 42, an increase of \$5,338 69, or over 47 per cent. Teachers' salaries for the first month (July) of the present fiscal year (1865-66) were \$13,091 53; for July, the corresponding month of ensuing fiscal year, (1866-67) \$17,234 15, or an increase of \$4,142 73.

REPORT OF COMMITTEE ON SALARIES AND JUDICIARY.

The following report will exhibit the present rates of salaries as fixed by our Board for the first four months of the year, viz: from July 1st to December 1st, 1866:

To the Honorable President and Members

Of the Board of Education—

GENTLEMEN: Your Committee on Salaries and Judiciary have, in compliance with the Manual, had under consideration the Schedule of Salaries to be paid to Teachers the ensuing year, and respectfully recommend adoption of the following

SCHEDULE OF SALARIES.

TEACHERS.	Per Month.	Per Annum.
Principal of Boys' High School.....	\$208 33	2,500 00
Teacher of Mathematics.....	175 00	2,100 00
Teacher of Modern Languages.....	150 00	1,800 00
Teacher of Belles Lettres.....	100 00	1,200 00
Principal of Girls' High School.....	208 33	2,500 00
Assistants of Girls' High School.....	100 00	1,200 00
Teacher of French School.....	100 00	1,200 00
Principal Latin School.....	208 33	2,500 00
Assistants Latin School.....	150 00	1,800 00
Principals of Grammar Schools.....	175 00	2,100 00
Sub-Masters.....	125 00	1,500 00
Male Assistant Mission School.....	100 00	1,200 00
Head Assistants Grammar Schools.....	83 33	1,000 00
Special Assistants Grammar Schools.....	80 00	960 00
Assistants 2d Class Grammar Schools.....	75 00	900 00
Assistants 2d Class Grammar Schools.....	67 50	810 00
Principal Primary Schools, 12 Classes.....	115 00	1,380 00
Principal Primary Schools, 6 Classes.....	100 00	1,200 00
Principal Primary Schools, 4 Classes.....	85 00	1,020 00
Principal Outside Schools, 2 Classes or more.....	75 00	900 00
Principal Outside Schools, 1 Class.....	70 00	840 00
Principal Colored School.....	100 00	1,200 00
Principal Chinese School.....	80 00	960 00
Assistants Primary School, each.....	67 50	810 00
Teacher of Music.....	150 00	1,800 00
Teachers of Penmanship and Drawing.....	150 00	1,800 00

They further recommend that all persons hereafter elected shall be regarded as probationary for the period of six months, and the salary fixed at time of election be at the following rates :

To Assistant Teachers of experience of one year and upwards in this State, \$55 per month for first six months. To Assistant Teachers of experience of one year and upwards in this State, \$60 per month for second six months ; and thereafter full salary of Assistant Teacher. To Assistant Teachers of less than one year's experience, \$50 per month for first six months, and \$55 per month for second six months, with increase to full Assistant's salary thereafter. These rates to remain unchanged, irrespective of any transfers during the probationary year, except by special action of the Board at the time the transfers take place.

Respectfully submitted,

GEO. C. HICKOX,

M. LYNCH,

Committee on Salaries and Judiciary.

SAN FRANCISCO, July 24th, 1866.

RANK AND SALARY OF TEACHERS FOR THE CURRENT FISCAL YEAR
1866-67*.

* The present rates, and these will probably be maintained, with but slight modifications, during the year.

NOTES REGARDING DISBURSEMENTS OF PAST AND EN- SUING YEARS.

Teachers' salaries, it will be seen, form the important item of our disbursements. This is to be expected. Teachers must be well paid, and the present liberal rates of salaries should be maintained, except, perhaps, as to inexperienced teachers during their probationary term.

The remuneration paid to our middle and lower grades of teachers, as compared with the ordinary rates paid in Eastern or Western cities, is indeed liberal ; the salaries paid to probationary teachers extremely so. Local circumstances compel us to pay rates which elsewhere might be regarded as exorbitant ; but while every class of salaries or wages, every kind of professional or other personal service, remain correspondingly high, and while local circumstances effecting such also remain as at present in this city, it will be impossible, as well as unjust, to discriminate against the teachers of our Public Schools by materially reducing the present rates of compensation allowed to them. The present number of teachers, July 31st, is 219. The total paid for teachers' salaries during the past current year has been unusually large. This has resulted from extraordinary causes, viz : The unusual increased number of schools, and consequently a correspondingly increased number of teachers employed as compared with other years. As will be observed elsewhere, the number of our teachers has increased during the past year from 144 at the beginning, July 1st, 1865, to 206 at the close of the year, June 30th, 1866. The number of pupils has also increased during the year, from less than 8,000 to 10,103. This should be regarded not as an indication of a lack of sound economy in the disbursement of our funds, but as an encouraging proof of the prosperity of our Department—the success of our Public School system. Other items of expenditures have also been unusually but unavoidably large.

Much increase in school accommodations have been required and provided by our Department during the year.

To meet the just demand upon our Department, accommodations for pupils have been provided whenever and wherever actually required, for we have felt that the Public Schools were equally open and free to *all*. We have not felt ourselves at liberty to provide for the larger portion of our pupils merely not content, when most of even a large majority, but when all were provided for. We have considered all who desired to enter Public Schools as having equal claims upon us, equal rights to a common enjoyment of our Public School funds. In short, while we have professed that our Public schools were open and free to all, we could not, with propriety or justice, suffer the doors of our schools to be closed on any ; and these necessary efforts to meet the just demands of all have rendered it necessary to improvise a large number of temporary school houses and class-rooms in the various districts of the city, and the procuring of the great number of these

rooms has added greatly to our salaries and rents, as well as to all other current expenses of the Department. Besides, the constant alterations and "repairs" rendered necessary by occupying temporary accommodations, have been very large during the past year.

Our furniture expenses for the past year have also been very large, for there have been paid from the past year's funds, not only the ordinary expenses of the present year, but nearly \$20,000 for the furniture of buildings erected during the previous years. \$17,000 have been paid by the present Board under a contract of the preceding year, for the furniture of the Lincoln School House alone, and about \$1,800 for the Denman School.

The furniture thus secured, however, is in the nature of permanent property of the Department, and will last as long as the buildings which contain it.

When, by the employment of the funds now at our disposal, we have succeeded in erecting the several school houses at present contemplated, these items of "Rents" and "Repairs" will nearly disappear from our accounts. And when our schools (rather the detached classes which form many of them) are collected and consolidated in our new buildings, the janitorial expense of our Department will also be diminished rather than increased.

BUILDING DISBURSEMENTS.

The large apparent amount of past expenditures for building (\$59,216 82) is noticeable ; but it should be remembered that a large portion of these disbursements have been paid on contracts of last year, to wit :

On Lincoln School.....	\$32,412 25
On Fairmount.....	2,668 00
On Hayes Valley.....	2,590 00
	<hr/> \$37,670 25

This sum deducted from the total of disbursements for building, and, as shown in the report of the Finance Committee, we have left \$21,546 57 as the actual amount of building disbursements, for which the present Board is strictly accountable, and this amount, though small, compared with similar disbursements of last and preceding years, nevertheless has secured accommodations for a larger number of pupils than has ever before been provided, for the same outlay of funds, since the organization of the Department. The return of taxes illegally

collected has occasioned a large and unexpected disbursement of current funds. The payment for Teachers at the Industrial School will not hereafter be paid from the School Fund. Our expenditures for books and printing have been much greater during the past year than such expenses need be during the coming current year. The transfers to the Sinking and Interest funds for the payment of interest on, and the redemption of School Bonds, will for the present year and hereafter be somewhat in excess of past years, as we have to meet and provide for the payment of Interest and Sinking Fund of new bonds, as authorized by the last Legislature.

It is apparent from the present condition of the schools, and the general circumstances of our Department, that we may with good reason hope that the coming current year, with little increase in our gross expenditures over those of last year, will be one of great prosperity and substantial success to the Public School Department.

REVIEW OF THE GENERAL CONDITION OF THE PUBLIC SCHOOL DEPARTMENT, AND STATISTICS RELATING TO THE SAME.

There are other considerations affecting the efficiency of our Department, its general prosperity, and success, of equal, if not greater importance, than those relating to its finances, and although the latter should, doubtless, form the prominent topics to be presented in this report to your Honorable Body, still, a brief reference to and consideration of other questions may not be inappropriate.

PRESENT CONDITION OF THE SCHOOLS.

It will be admitted by all who have taken careful note of the affairs of our Department during the past year, that our Schools have enjoyed a very high degree of prosperity; our Department, as a whole, a success gratifying to friends, and it is to be hoped, satisfactory to all.

In the choice of Teachers the Board of Education has been exceedingly fortunate during the past year. We have in our Schools the most zealous, faithful, and intelligent professional Teachers—those who appreciate the responsibility of their positions, and know how to perform their duties. Nearly one-third of our Teachers have been edu-

ated in our Normal School, with direct reference to their profession. The general spirit prevailing in our Department, controlling the management of its affairs and the discharge of its important trust, is that of harmony, good-will, and mutual confidence. The future, we believe, is full of promise to us.

During the year our School facilities have been greatly increased, and our Schools have not only been multiplied in number, but improved, if not perfected, in classification and discipline, in efficiency and usefulness. Not only have several thousands of pupils been added to the Schools of the Department, but the general character of scholarship and deportment of those attending our Schools has been improving throughout the year—the standard of every merit has been raised higher and higher, till we feel that our Public Schools may safely be compared with those of any State or country, or be judged from any known and attainable standard of excellence. But it must also be admitted that at the commencement of the year just closed, our affairs were attended with embarrassments neither few nor trifling. These resulted partly from a serious deficiency in the funds of the Department, and also in part from a want of correct appreciation on the part of the community of the circumstances under which we were compelled to labor. There has been too often exhibited in the community a feeling not confidential or friendly to the general administration of the Public School Department, or those connected therewith—a disposition to criticise sharply, rather than to commend or even candidly examine and discuss our measures. The best efforts we have been able to make for the improvement of the Schools and for the general good of the Department, have often been met by unnecessary and unjust distrust, rather than by a spirit of proper and generous encouragement. The whisper of extravagance, want of economy, and wastefulness, if not of absolute malfeasance in the administration of our affairs, has sometimes been indulged in, with little thought and less justice or discrimination.

During last year, and the early part of the present, many parents were becoming discouraged from making further efforts to gain accommodation for their children, and were transferring their patronage and support to private instead of to Public Schools. Irritation and annoyance to all parties, under these circumstances, has been a matter of course, and caused no surprise.

A disposition of general fault-finding and ungenerous criticism and complaint may, perhaps, under these circumstances, have been some-

what excusable, but certainly very unjust where manifested and indulged in toward the present Board of Education. But though unjust and misapplied, it has had to be borne patiently, while a reasonable remedy could be sought and applied. This remedy was sought by our Board at once at the beginning of the present year, in an immediate increase in our School accommodations, *especially for the Primary Schools*, of which we found, one year ago, thirty-six classes, containing 2,156 pupils, in rented buildings and rooms, inconvenient and in almost every respect unsuitable. Some were in basements and other tenements belonging to the Department utterly unfit to be accupied, if not disgraceful to the city. I may be pardoned for here adverting to the fact that in my first report to the Board of Education, I brought these facts prominently to its attention and urged immediate action in the premises; but so chronic and unreasonable had become the spirit of distrust, fault-finding, and complaint, that my most obviously just and judicious recommendations, urged with the very purpose of remedying the evils so generally existing and so impatiently complained of, were, strange as it may appear, opposed, rather than encouraged, by one or two of our city papers. I had urged in my report that immediate efforts should be made for the accommodation of the 1,142 applicants, as returned per census, and for at least 1,997 more, who would, as I thought, attend Public Schools if suitable provisions were made for them. I need not state in what manner these calculations, since proved to have been so correct, (see statistics on page six) were met by some. It was indeed industriously attempted to be shown that my calculations were entirely erroneous; that only trifling, if any, additional Public School facilities were necessary; that few, if any, children, were unprovided for; that any scheme of building, such as had been proposed, was quite unnecessary, if not extravagantly absurd.

However, a committee (on School Accommodations) was raised in the Board of Education, to which was intrusted the matter of devising means for meeting the then pressing demands upon our department for increased School facilities. With what success the efforts of that committee have been attended during the past year, may be justly inferred not only from the enlarged School accommodations of to-day, as compared with those of one year ago, but from the scheme of improvements now in progress.

Though honest and well-intended efforts had been made during several years preceding the present, in providing for the rapidly increasing wants of the city; and though large sums had been devoted

to building School houses, still, at the beginning of last year, of the 16,586 children and youths returned by the Census Marshals, (of the proper ages to attend Public Schools) only 7,952 were in actual attendance. There were reported as attending private schools 5,450. There were applying, and not able to gain admission, 1,142; and several hundreds were reported as not attending any school, or seeking to do so.

I beg to call attention to the condition of our Public School statistics of to-day, as compared with the foregoing, and I would ask if ought therein can be found otherwise than encouraging to friends of the Public School system of this city. From the late Census returns (the canvass being made only eleven months later than that from which the foregoing figures have been taken) and also from our School reports of last months, July, the following facts appear. And it should be remembered that this improved condition of our Department has resulted from no unusual means placed at our disposal, but from an economical and judicious use of those in hand.

Number of pupils enrolled in the Public Schools.....	11,552
Increase during the year.....	3,552
Per cent. of increase	30
Number returned as attending private schools.....	4,403
Decrease during the year.....	1,047
Per cent. of decrease.....	23
Number returned per census as applying for admission to the Public Schools (and these have now been admitted).....	55
Decrease.....	1,087

Last year there were two High Schools, this year there are three. Last year there were six Grammar Schools, this year there are seven. Last year there were twenty-two Primary Schools, this year there are thirty-one.

During the present year ninety-one pupils have been added to the High Schools, 1,206 have been added to the Grammar, and 2,021 to the Primary Department; and eighty-three additional Teachers have been employed over the average of the previous year.

The per cent. of increase in the number of Teachers in the Public Schools during the past year is forty-three. The per cent. of increase in pupils added to the Public School Department is forty-two and three tenths. Two-thirds of the increase in pupils has occurred in the Primary Schools.

The above ratios and per centages of increase and decrease should

be attentively examined. They form the best possible and only needed defense against the thoughtless charges of misapplication of School funds. Truly, a most eloquent appeal is here found for public confidence, encouragement, and support. These figures may be safely regarded as a sure indication not merely of a permanent and encouraging growth of our Public Schools, but as an unmistakable evidence of an increasing and earnest interest in the same on the part of our citizens; and this increase of interest is per consequence followed by a correspondingly increased sympathy, confidence, and good-will, insuring to us a corresponding accession to the permanent support and solid strength of the Public School system of San Francisco. And before the thoughtless and unreflecting renew their charges of misapplication of funds and extravagance, they should at least attentively consider the number of our schools, the extent of our Department, the magnitude of its interest, and the importance to the city of its just and generous support. While the debit side of our accounts are so critically examined, the over-balancing credits should not be overlooked.

Economy, strict and positive, should of course be exercised at all times, under all circumstances, in the management of the public funds. None can appreciate or act more constantly and conscientiously under a sense of its importance than have the officers of our Department during the past year. This cannot be successfully denied. But economy must be intelligently understood and judiciously exercised, or it will, in school or educational matter especially, be the very reverse of what the word economy *should* imply. It may be asked if it is economy to allow hundreds of our children to ramble through our streets, to acquire idle and vicious habits? to cultivate and encourage vagrancy by restricting or limiting Public School facilities? if it is economy to lessen the number and the compensation of our Public School Teachers, and increase the number and enrolments of our city Police? if it is economy to build churches, found asylums and hospitals, and establish colleges, and erect our homes of charity and benevolence, and neglect the substantial care and education of our Public School children? The verbal answer to these questions will be readily given in the negative *by all*, yet should we seek an answer in the actions and the deeds of some, rather than from their lips, a very different answer would often be received.

NEW SCHOOL BONDS OF 1866.

One of the first as well as one of the most important efforts of the present Board of Education, as elsewhere remarked, was the maturing

of a scheme of building embraced in the subjoined report of our Committee on School Accommodations. It was, however, early discovered that the financial resources of the Department had been seriously crippled by the building disbursement and other contracts of the preceding year—that the funds of the present current year had been encroached upon in nearly the sum of \$52,000, and that thereby we were not only deprived of the means necessary for the carrying out of the proposed improvements, but had also in prospect the alternative of closing the Schools for several months before the end of the year, or providing for an inevitable deficiency in our current funds to an amount at least equal to the above \$52,000 overdrawn.

To meet this deficiency and avoid closing the Schools, and also to procure the means of carrying out our projected improvements, the Board of Education conceived the plan of issuing School Bonds. A statement of the condition and wants of our Department was accordingly prepared by our Committee on School Accommodations in February last, and forwarded to the Legislature; and this appeal was followed by the personal efforts of the members of said Committee. The relief sought was obtained, and Bonds were authorized to be issued to the amount of \$275,000. Of this sum there has been already issued \$125,000, and of the proceeds of this latter amount there has been appropriated \$82,454.55, to meet the deficiency of last year, and for buildings erected and in progress of erection, under the approval of your Honorable Body. The remaining \$150,000 of the Bonds authorized by the Legislature should be issued in time to meet the requirements of this Department. But our building improvements need not and should not be delayed for the sale of these remaining Bonds. The current funds soon to be, or already in the treasury, from the payment of taxes, may and should be employed in immediately hastening forward the projected improvements, so imperatively demanded. The amount thus drawn from the current funds can be restored from the sale of Bonds when issued. By this means the issue of the Bonds may be postponed for some time, and thus a considerable amount be saved the Department in the item of interest. Unless this course be pursued, the money necessary to be employed, as above suggested, will remain unused in the treasury, while meantime we shall be forced to continue on paying our present high rents; the two or three thousand children now in unsuitable and unwholesome tenements meantime compelled to suffer on through the approaching rainy season, and the officers of our Department be forced to endure unnecessary mortification, and we fear unmerited reproof.

REPORT OF THE COMMITTEE ON SCHOOL ACCOMMODATIONS.

The following report to the Board of Education, from the Committee on School Accommodations, will show the projected building improvements complete, in progress, and contemplated, during the present and coming years :

*To the Honorable the Board of Education,
City and County of San Francisco—*

GENTLEMEN : The undersigned, Committee on School Accommodations, beg leave to present the following report, and respectfully recommend the same for adoption by the Board as an entire and complete plan for erecting, procuring, and improving School Houses during the years 1866 and 1867, which said improvements, it is believed, will amply provide for the wants of the Department, and should be made from time to time in the order herein named.

First. (a) The erection of a one-story twelve-class room building, at the corner of Fifth and Market streets, for Primary classes, at a cost not to exceed, say \$6,000.

Second. (b) The erection of a seventeen class room building on the Tehama Street Lot, in accordance with plans donated by S. E. Bugbee, Esq., and presented by your Committee, the same to be of brick, two stories high, with French attic, and at a cost not to exceed, say \$27,000.

Third. To construct a two-class room from the south end of the Assembly Hall, in the Lincoln Grammar School building, for the use of the Latin School, at an estimated cost of \$300.

Fourth. To raise the new school house on Broadway, near Larkin, and add one story thereto, thus doubling its present capacity, at a cost of about \$4,000.

Fifth. (c) To procure the conveyance of the Synagogue on Broadway in exchange for certain portions of the one hundred-vara lot corner of Fourth and Harrison streets, said portions as designated on the map made by Messrs. Dore & Co., and marked with a red cross, and estimated by them at a valuation of \$18,100.

Sixth. (d) To convert the Synagogue so obtained into an eleven or twelve class room building, at once, in order to provide for the immediate and pressing wants of the First, Second, and Fourth Districts, which said improvements it is believed can be made for an amount not to exceed \$9,000.

Seventh. To procure a lot, by purchase or exchange, near the corner of Broadway and Montgomery streets, for the prospective need and erection of a Primary School building, for the accommodation of that immediate neighborhood ; the cost of said lot not to exceed \$4,000.

Eighth. To erect a ten or twelve class room building on the lot corner of Filbert and Kearny streets, to be of wood, not less than two stories high, and at a cost of \$18,000.

Ninth. (e) To grade the school lot on Greenwich Street, and erect thereon a ten or twelve class room wood building, so as to conform as nearly as may be with the grade of the street, at an estimated cost, for grading and building, of \$20,000.

Tenth. (f) To construct a suitable addition to the Rincon Grammar School

building, for the accommodation of that District; such addition to comprise eight class rooms, at a cost say \$10,000.

Eleventh. (g) To procure, by exchange of land now belonging to the Department, the lot and building on Post Street, near Dupont, now owned and occupied by Dr. Cohn, for school purposes; the value of the land to be exchanged not to exceed the sum of \$20,600.

Twelfth. (h) To procure the property on and near the corner of Larkin and Pine streets, on the terms heretofore proposed, \$4,750, (or failing in that, then some other lot), and the erection thereon of a twelve class room building of wood, for a Primary School, at a cost not to exceed \$18,000.

Thirteenth. The erection of a ten or twelve class room building, for Primary School, on the lot on Harrison Street, near Tenth, to be built of wood, and at a cost not exceeding \$18,000.

Fourteenth. To add to the Mission Grammar School building four class rooms, at a cost of about \$3,500.

Fifteenth. To erect a one class room building at or near the Ocean House, at a cost of about \$1,000.

Sixteenth. The erection of a two class room building near the corner of Mission and Twenty-Second Streets, or midway between the San Bruno and Fairmount Schools, to be of wood, and at a cost not to exceed \$2,000.

Seventeenth. To erect a one class room building on the West End lot, for what is known as the Six Mile or West End School, long since organized and at present occupying a miserable garret; the cost of such building to be about \$1,000.

Eighteenth. To erect a similar building near Steiner and Turk streets, and at about the same cost, \$1,000.

Nineteenth. The erection of a building of the same character and capacity on Filmore Street, near Union, \$1,000.

Twentieth. To procure a new lot for the Rincon Grammar School, the wants of that District requiring further land accommodations, most certainly in the immediate future, if not at the present time, \$10,000.

Lastly, the Committee would earnestly recommend the adoption by the Board, in the erection of these and all future structures, of a plan or plans as nearly as possible approaching uniformity, subject only to such variations as may be unavoidable and necessary from the nature of the land to be built upon, and the capacity of the building to be erected.

It will be observed that nearly the entire amount of the proposed expenditures is for the accommodation of Primary Schools. Your Committee, after bestowing much care, thought, and labor upon this subject, and carefully consulting, from numerous and intelligent sources, the public desire, have presented a uniform and complete plan of improvements, which will not only meet the wants of the Department for the ensuing two years, but will also save the expenditure of an aggregate amount of about \$15,000, now disbursed for rents, besides large sum now expended for repairs, and will also furnish better facilities for the accommodations of the pupils now belonging to the Department, as well as those who may hereafter be received therein.

All of which is most respectfully submitted, together with the suggestion that the order of time proposed for the foregoing improvements may be so far varied as

that any or all of them, so far as circumstances may permit, may be simultaneously prosecuted, in the discretion of the Board.

JOSEPH W. WINANS, Prest. Board Education,
J. C. PELTON, Superintendent Public Schools,
GEORGE C. HICKOX,
H. T. GRAVES,
W. A. GROVER.

The following notes on the above report will show to what extent the foregoing programme of improvements have already been completed or commenced :

(a) The building corner Fifth and Market streets was completed on the first of last month, July, and immediately occupied with twelve Primary classes. The cost of this building, and the planking and other improvements of the premises, was \$6,723 35 ; yet it affords commodious, neat, and pleasant accommodations for 720 pupils. The convenience and economy of this structure must commend itself to all. The interest on the amount here disbursed, \$6,723 35, at one per cent., would be about six dollars per class room per month—one-fifth or one-sixth of the ordinary rents for inferior class rooms, which our Board now finds itself compelled to occupy in various parts of the city.

(b) A contract for the erection of this building was entered into by our Board with Messrs. Kimball Bros., for the sum of \$25,850. This does not include about \$1,500 which they are to bring in for extras ; nor does it include school furniture, the cost of which will be about \$1,000 to \$1,500 additional. The second floor of this building is already laid, and by the terms of the contract the structure is to be completed on the 15th of November next. This improvement will sufficiently accommodate this southeastern section of the city for many years to come. When occupied, this building will at once save our Department \$380 per month, now paid for rents in the vicinity. This building will contain seventeen class rooms, and will accommodate 1,020 pupils. The cost of this school edifice, compared with similar brick buildings heretofore erected by the Department, will be noticeable. The inconsiderate charge of extravagance in the disbursement of moneys for the erection of school buildings is here at once well answered.

(c) The purchase of the Synagogue has been completed on the terms above proposed, \$19,100.

(d) Plans and specifications have been adopted and contract entered into with Mr. Samuel McCullough for its reconstruction at a cost of

\$12,627. This improvement, when completed, will furnish to our Department a fine, substantial brick building, having twelve large, well ventilated, well lighted, and airy class rooms, each having seats for sixty pupils, or a total capacity of 720 seats. The Synagogue school will relieve the Department from a monthly rental of \$215, now paid for small and unsuitable rooms, corner of Montgomery and Broadway streets. It will, besides, greatly relieve the pressure upon the crowded schools on Mason, corner Washington, and also the still more over-filled classes of the Primary School near the corner of Jackson and Powell streets.

For suitable, good accommodations for this school, additional grounds should be secured as soon as practicable. This will cost some \$4,000 or \$5,000, not included in the above estimated expenses for securing Public School accommodations during the present and coming years. The furniture of this building was not included in the above estimates of the Committee, and will cost some \$800 or \$1,000.

(e) The project of grading and rebuilding of the Greenwich Street School has been abandoned, and instead of these improvements another lot has been secured, as a donation from the city, on Filbert Street above Taylor. Plans have been adopted for a new twelve class room building upon this lot, which will cost about \$15,000, so that another and perhaps better location, and new building thereon, will be obtained for a less sum than proposed to be expended in grading the lot and rebuilding the Greenwich School house. Plans have also been proposed and will probably be adopted, in accordance with the above recommendations of our Committee.

(f) The contemplated addition of eight class rooms will double the capacity of this (Rincon) school, and respectably and very conveniently accommodate this portion of our city for several years. When these proposed improvements are completed, the Rincon School House will contain sixteen fine class rooms, and accommodate 960 pupils, with two additional class rooms in basement, which may, if necessary, seat 120 pupils, giving a total capacity of 1,080 seats; about one-half of these accommodations are for primary pupils.

(g) This property has been secured on the terms proposed by our Committee, and plans have been adopted for a suitable enlargement of the present accommodations on these premises. These improvements contemplate an addition to the present building of six convenient class rooms, and a new building on the front portion of the lot, which will contain four class rooms and two small recitation rooms. This building

is designed for the Latin school. The present building in the addition thereto will probably be occupied by the "Cosmopolitan School"—the school in which pupils are taught in the German, French, and Spanish languages. These additions and improvements, for which we have already adopted plans, will cost about \$12,000, exclusive of furniture.

(h) This proposition is before the Honorable Board of Supervisors, and should be approved and consummated. In addition to the above enlargement of the accommodations of our Public School Department during the present and coming year, we may include the expected return to us of the North Beach School House, now and for a number of years past occupied by the city—the City and County Hospital. This building, with those contemplated and in progress north of Broadway, will afford the northern portion of the city the most ample accommodations—sufficient for many years to come.

That the merits of the exchanges of property by which we obtained the Synagogue property, on Broadway, and the estate of Dr. Cohn, on Post Street, may be understood and appreciated, it is only necessary that the facts in the case should be well known.

The property on Harrison Street was useless to the Board of Education, unsuitable as a location for a school, and unproductive. That which we obtained in exchange is exceedingly well located for school purposes in both instances, the sites being just where we required them. For our property exchanged we obtained the highest market rates, more than could have been otherwise realized, and more than the property could now be sold for. While the property obtained by the exchange was acquired at extremely low rates in both instances, the price of the Post Street property being especially favorable to the Board.* No real estate agent in this city will put the price of the Post Street lot, exclusive of the building upon the same, at less than \$12,500. This would leave about \$7,000 as the price of the school house, a good, substantial brick school of six quite convenient, and one small class room. This amount of school accommodations was never before obtained for so small an amount of money. Wood buildings, during the past several years, of about the same capacity, have cost more than this superior brick building.

The real estate (half 50-vara lot) on Broadway, exclusive of the building, (the Synagogue) will not by any estate broker, be valued at less than \$7,000 or \$8,000; deducting the less sum (\$7,000) from the amount paid for the property, and we have left the price of the build-

ing, \$12,000—\$12,000 for a good, strong, heavy walled and substantially constructed brick building, which, only a few years since cost, we believe, about \$40,000. When \$12,000 are expended upon the reconstruction of the Synagogue, we shall have obtained, for less than \$25,000, a first class, convenient, and substantial brick school house of twelve rooms; a school house of a greater capacity and a more convenient arrangement of class rooms than has ever before been obtained by the School Department for the same outlay of funds.

Had we had cash in hand with which to have made the above purchases, we could not have secured the property in question (which we very much needed, and felt to be almost indispensable to our Department) at lower rates. This we knew. Had we placed our real estate in the market and sold it at current rates, we should almost certainly have realized less than the prices we succeeded in obtaining in the exchange of property; besides, had we sold for cash, the terms of the recent law authorizing the issuing of School Bonds, would have required us to place one-half of the whole amount of which have not even yet been issued only one-half the moneys realized from sales of the property, would in this case have been avoidable.

We leave an intelligent community, whose faithful servant we would be, to pass upon the merits of those and other transactions of our Department during the fiscal year just closed.

Respectfully submitted,

J. C. PELTON,

Superintendent Public Schools.

The Special Committee on the Annual Report of the Superintendent have examined the same, and find that it is very full and has been carefully prepared, much care and labor having been bestowed upon the preparation of valuable statistical tables; that it contains much information relative to the School Department not before presented in a condensed form, and that it meets the views and hearty approval of the Committee.

H. T. GRAVES,
WM. G. BADGER.
W. A. GROVER.

* Averaged from the figures of 1857 and 1859, as the actual figure was not reported.

† The Ward Schools were this year withdrawn from the Public School Department.

‡ These figures show the total number of pupils that were enrolled during the respective years, and not those enrolled for a month, as are shown by the other figures. Were the transfers deducted, the actual number of pupils in the Department could be seen.

§ 17,223 are between five and fifteen years of age.

HENRY L. DAVIS

Sheriff.

REPORT
OF THE
SUPERINTENDENT
OF
PUBLIC STREETS AND HIGHWAYS.

SAN FRANCISCO, August 13th, 1866.

To the Honorable Board of Supervisors—

GENTLEMEN: I herewith submit the following report of the amount and cost of work completed for the year ending July 1st, A.D. 1866, and the location of the same; together with a summary of the cost of all street work done, during each year, from July 1st, 1856, to July 1st, 1866, and the total length of all the sewers.

Respectfully submitted,

GEO. COFRAN,
Superintendent of Public Streets and Highways.

APPENDIX

TO

THE MUNICIPAL REPORTS

OF 1865-6.

The financial and general transactions of the Municipal Government of the City and County of San Francisco, during the fiscal year 1865-6, are shown by reports of the various Officers and Heads of Department, submitted to the Board of Supervisors at the close of the year, and presented in the preceding pages, a careful examination of which will be found advantageous in arriving at correct conclusions as to the present conduct of local affairs, and to a fair comparison with those of former years.

With the commencement of the current year, on the first day of July last, a period of ten years elapsed since the initiation of Municipal authority under provisions of the Consolidation Act, which was considered and adopted as a basis of retrenchment and reform; by that, the annual expenditures were restricted to very moderate sums for each of the specified departmental and general purposes; these, from the necessarily increased requirements of the rapid growing city, were repeatedly enlarged at successive sessions of the State Legislature, until from the many amendments enacted, only a minor portion of the original document remains intact; yet, in the sections which are thus preserved, and in the general character of the additional powers granted, the wise safeguards against extravagant expenditures are retained, and constitute the fundamental principles of the existing Act. The amounts authorized to be expended for the several purposes in any one Fiscal year, are still limited to fixed sums, reasonably apportioned to estimated requirements of the different Departments, but probably in some instances less than at times the public welfare may require.

The passage of the Consolidation Act in 1856 was not effected without strenuous opposition ; its advocates were numerous, but its opponents believing its provisions not adapted to the proper administration of the government of a large city, appeared in nearly equal numbers to defeat it ; many of the latter subsequently became its supporters, and with its originators have steadfastly upheld and sustained the system which it created, acknowledging that in its workings it has stood the tests of time better than the most sanguine anticipated or predicted ; prior to, and at its inception, the people were dissatisfied with the reckless management and wasteful expenditures which marked the history of governmental affairs of former years, whereby onerous debts were incurred, and oppressive measures enacted, until Municipal bankruptcy was apparent to all save those willfully blind to the fact ; at the present it is confidently believed that a large majority of citizens acquiesce in the economical and beneficial results of the system which it inaugurated, and would deplore any material change from its provisions as a public misfortune. During the period since its adoption, the substantial progress of the city has been great, commercially, industrially, and financially. San Francisco seems now to be only on the threshold of a magnificent future ; the grand Pacific Ocean opens with broad arms its western shores to, and invites her trade ; the Islands, and thousands of miles of its eastern bounds are awake to the importance of her position. Although by far the youngest of the large American seaports, she ranks third in commercial importance. Industrially, she may be said to be younger still ; but the sound of the anvil, the hammer, the mill, and the factory are no strangers in her environs ; each new branch of industry that is developed is hailed as a harbinger of continued progress and success.

Financially, the world yields to her the palm as to native wealth and export of precious metals ; \$75,000,000 per annum for seventeen years past, shipped from her port as the product of the State, and of the adjacent States, is believed to be below the mark. Agriculturally, it can be said that one of the counties of the State raises nearly wheat enough to supply bread for the entire population. Mercantile enterprises in some respects, may have drooped, but considering the hazards attendant upon dealings with a large interior population, changing localities from time to time, not more than in history of the past, Eastern cities of larger population and older years have experienced, and yet very many mercantile houses have withstood the vicissitudes of seventeen years, and are still in successful operation.

The National, State and local taxes levied during the last four years, have been heavy, and it may be deemed almost remarkable that they have been so promptly and willingly met.

Comparisons of the revenues and expenditures of preceding years have been so frequently made heretofore, that no particular reference is required now ; in the following pages the simple tables present the facts.

EXPENDITURES.

From August, 1849, to May 8th, 1850	\$ 649,859 82
From May 8th, 1850, to June 30th, 1851.....	1,813,447 00
In Fiscal Year 1851-2.....	456,332 00
In Fiscal Year 1852-3.....	1,009,029 00
In Fiscal Year 1853-4.....	1,831,825 00
In Fiscal Year 1854-5.....	2,646,190 00
In Fiscal Year 1855-6.....	856,120 00
In Fiscal Year 1856-7.....	353,292 00
In Fiscal Year 1857-8.....	366,427 00
In Fiscal Year 1858-9.....	480,895 00
In Fiscal Year 1859-60.....	745,014 00
In Fiscal Year 1860-1.....	579,131 00
In Fiscal Year 1861-2.....	591,656 00
In Fiscal Year 1862-3.....	700,364 00
In Fiscal Year 1863-4.....	785,894 53
In Fiscal Year 1864-5.....	915,325 48
In Fiscal Year 1865-6	1,085,941 96
Total.....	\$15,866,743 79

In this connection it is to be remarked that the expenditures of the last ten years are given as they actually appear, making no allowance for receipts of Fee officers, or sums paid by the State for School purposes, Assessment expenses, and Hospital dues, the amount of which in the last year was \$169,007.51, as shown by Auditor's Report, page 57, and in each of three years past is shown as follows :

Fiscal Year.	Fees of Officers.	State School Expenses.	State Assessment Expenses	State for Hospital Dues.	Total.
1863-4	\$107,629	\$23,918	\$5,445	\$.....	\$136,992
1864-5	117,086	40,435	6,875	6,744	171,140
1865-6	116,977	43,044	6,453	2,533	169,007
Totals..	\$341,692	\$107,397	\$18,773	\$9,277	\$477,139

Making an average of nearly \$160,000 per annum as an offset to items included in current expenses, which if deducted for the last year, as shown above, would leave a net expenditure of \$916,934 ; but taking the figures as they stand, there appears expended in six years and eleven months prior to July 1st, 1856, the sum of \$9,262,802.82, and in the ten years succeeding, until July 1st, 1866, the sum of \$6,433,933.46 ; it is also to be noted that a large amount was paid in those ten years in liquidation of debts contracted in the former period, which reaches the sum of \$4,010,581.96, entirely exclusive of interest paid on Bonds of 1863-4, or the so-called City Slip Judgment Bonds, issued in

settlement of claims arising from defective title to the slip lots sold on the water front in 1854, which settlement was made after a protracted litigation of nearly ten years, the matter having been decided by the Courts in favor of the purchasers and adverse to the City, involving the payment of one million of dollars over and above the appraised value of the lots in question which were surrendered to the purchasers, and Bonds issued as aforesaid. Adding to these the payments made in support of the State Government since 1850-51, an aggregate of disbursements is presented to wit :

From August, 1849, to July 1st 1856.....	\$9,262,808 82
From July, 1856, to July, 1866.....	6,433,933 46
Paid in liquidation of debts contracted prior to 1856.....	4,010,581 96
Paid to the State.....	5,793,163 35
Total.....	\$25,500,487 59

In addition to the net expenditure for City purposes in the fiscal year as shown by the statement preceding, an additional sum of \$90,995.90 was incurred for permanent improvements, for items of which see Report of the Auditor, pages 57,58.

In considering expenditures of the year, it is to be observed that the item for lighting public streets is an important one, the sum paid for street lamps, including repairs, amounting to \$124,931 47, the total number of lamps at close of the year being seventeen hundred and ninety-eight, at twenty cents per night. In the year 1860-61 the sum paid for same purpose was \$20,898 57, the number of lamps being two hundred and fifty-eight, price twenty-six cents per night ; showing an increased annual expense at the close of the five years of \$100,000 for street lights alone.

For particulars of State payments and the sources of revenue derived therefor, the following is presented :

Fiscal Years.	Property Taxes.	Poll Taxes.	Licenses.	Stamps, etc.	Total.
1850-1	\$95,879	\$2,220	\$38,904	\$137,003
1851-2	78,675	2,180	21,665	102,520
1852-3	61,218	11,833	20,532	93,583

* Assessments upon improvements are included in Real Estate, and Mortgages in Personal Property Roll; the average amount of the latter for five years past, being about \$12,000,000.

† The footing of the supplementary Personal Property Roll, completed on the 27th of October, but included in the above, is \$1,453,737.

THE STATE AND CITY PURPOSES

To which made applicable for current year were—

For the State, one hundred and thirteen cents upon each one hundred dollars (\$100) valuation; applied to the following specific purposes as prescribed by law, viz :

General State purposes.....	30¾	
Interest and redemption of Bonds of 1857.....	30	
Interest and redemption of Bonds of 1860.....	01¼	
Interest and redemption of Soldiers' Relief Bonds.....	04	
Interest and redemption of Soldiers' Bounty Bonds.....	12	
Interest and redemption of Line Officers Bonds.....	01	
Support of Schools.....	08	
Interest on Pacific Railroad Bonds.....	08	
Construction of State Capitol.....	10	
Militia purposes.....	05	
Insane Asylum.....	03	
		———— \$1 13

For the City, including Corporation Debt and Sinking Funds and Railroad interest, one hundred and ninety-seven cents upon each one hundred (\$100) dollars valuation, applied as follows :

Corporation Debt Fund, applicable to the various sinking funds and interest on debt of the City and County.....	38½	
School Fund.....	35	
General Fund.....	67½	
Street Light Fund.....	15	
Street Department Fund.....	4½	
Interest on bonds of the City and County, bearing date October 1st, 1863, and June 1st, 1864.....	9	
Sinking Fund on said bonds.....	7½	
Interest Tax on San Francisco and San José Railroad Bonds..	4	
Loan Fund on said San Francisco and San José Railroad Bonds.	2½	
Pacific Railroad Interest Tax.....	8½	
Sinking Fund on Bonds of the City of San Francisco, 1855...	5	
		———— 1 97
Total.....		———— \$3 10

For sums collected applicable to the different purposes, see Auditor's Report, page 56.

THE SPECIAL FEE FUND.

The object and workings of this Fund are well understood. It was created for several offices in 1858-9. In 1861, all fee-receiving offices were included, excepting for collection of Poll Taxes, for which a per centage of fifteen cents upon the hundred is allowed, and from which the Deputies of the Tax Collector, thus specially employed, are paid by that officer; also, necessary incidental expenses. The receipts of the several offices (formerly the perquisites of the respective officers) are now made payable weekly into the City and County Treasury, constituting a Fund from which salaries and expenses are paid, and the balance remaining at close of each fiscal year transferred to the General Fund. The receipts and expenses of the different offices, prior to 1861, were:

In the report of the Auditor, pages 34 to 36, a detailed statement is presented of Bonds issued and Bonds redeemed during the year, showing a net decrease of \$53,100 from the amount outstanding at its commencement.

TREASURY EXHIBIT.

In Auditor's Report, pages 37 to 44, the Treasurer's Account for the year is presented, which shows—

Cash balance of	\$156,754 11
Loans from Sinking Funds outstanding	186,215 00
	\$353,969 11
Less demands audited but not presented	74,548 26
<i>Carried forward</i>	\$279,420 85

<i>Brought forward</i>	\$279,420 85
Add to this the balance in hands of the Commissioners of the Funded Debt, applicable to redemption of City Bonds	882,322 78
Also, Stock of San Francisco and San José R. R. Co., held as collateral with Bond of the Company for redemption of \$300,000	
City Six per cent. Bonds.....	300,000 00
And the total of assets shown is.....	<u>\$1,461,743 63</u>

As to the stock of the San Francisco and San Jose Railroad Company referred to in the foregoing, by an Agreement entered into in 1865, the Company became bound to take the stock held by the city, and give in lieu thereof \$300,000 in San Francisco Six per cent. Bonds, on or before the fourth day of October, 1866, paying interest thereon for the preceding year; this as yet has not been done, and the whole matter remains for settlement when the term expires. The supposed flourishing condition of the Company, with fifty miles of road in successful running order, leads to belief that the obligation will be met at the expiration of the time mentioned.

This road is the first on the Pacific coast of the trans-continental line to the Atlantic States. The two continuous lines, the "Western" and "Central" Pacific, are making progress, and the track of the latter will, it is believed, within the ensuing year, be laid through the passes of the Sierras into the plains beyond to meet the lines now so rapidly advancing from the East.

The advantages to be derived by San Francisco from the successful completion of the connecting lines can hardly be imagined or understood; joined to which, oceanic steam communication with Eastern Asia, the Sandwich Islands and Japan, soon to be established by the Pacific Mail Co., the presumptive successful laying of the Russian and American telegraphic lines, completing a circuit around the earth, leaves no room for doubt as to the importance of her commercial position.

Already her merchants and business men are in daily telegraphic communication with their correspondents in New York, Liverpool, London and Paris, and often the news of an important movement is in their possession apparently hours before the actual time of its occurrence at the East.

Attention is now called to the material developments and progress of the year, in which the great measure of

WIDENING KEARNY STREET,

stands prominent, and is being successfully carried out. By order No. 605 of the Board of Supervisors, approved December 22d, 1864, the width of the street was enlarged from forty-five five twelfths feet to seventy-five feet. After filing in the County Court the Commissioner's Report on the fifth of April, 1866, protracted litigation ensued, for particulars of which see letter of Hon. Alex-

ander Campbell, special counsel in the matter, included in Report of City and County Attorney, page 169.

Notwithstanding delay caused in hearing objections urged to Report of the Commissioners as to assessments for compensation for damages to owners for their lands condemned to be taken to make the improvement, also of those who considered the apportionment for benefits accrued to their property, too great, and the six months of time necessarily taken for testimony, arguments and examination of all the cases, some forty in number, the work still steadily progressed. Many property owners largely interested, soon after the report of Commissioners was filed on the fifth of April, 1866, commenced operations by voluntarily removing or tearing down on the western side of the street, the buildings then standing on the ground, reported as necessary to be taken, and without waiting for receipt of moneys awarded, with a spirit of enterprise somewhat unusual to witness, entered into erection of new buildings, which has been steadily continued until the present writing, when seven of the eleven blocks are rapidly approaching completion, and present in place of the one and two story buildings, mostly of wood, which were a recognized mark of the era of 1849-50, substantial structures of brick and iron, all of three and four stories in height, numbers of which have been tenanted for months, the whole matter throwing far into the shade the well vaunted enterprises of earlier days.

It is now more than probable that within the ensuing year, the whole work will be completed, and the entire distance from the City Hall to Market Street, and intersection with Third Street opened, making a continuous and broad thoroughfare through Third Street to the bay, entitling Kearny and Third Streets to rank as the main Avenue of the eastern portion of the city.

In the time which has thus been taken, manifest advantages have been derived by many; by mechanics, laborers and artisans consequent upon the large amount of skill, labor and materials required; by owners from increased value of property; by the city, in the increased revenue therefrom.

The measure has been and is now looked upon by the entire community as one of great public importance and permanent benefit to the city.

In the County Court, on the fourth day October, 1866, His Honor Judge Cowles rendered a decision adverse to objections, and confirming report of Commissioners in most of the cases; some three or four of minor importance were referred back for amendment; these cases involved questions as between owners and occupants of property, under lease for a term of years, the decision being to effect that assessments for benefits and damages be equitably assessed and apportioned between owners and occupants of the lands affected.

The decision reviews in detail all the cases submitted, and makes one hundred and fifty-six pages of manuscript.

One month is allowed by statute to carry the cases on the part of contestants to the Supreme Court, by appeal for review upon matters of law under Section 12 of Act of 1863-4, a proceeding which it is believed but few if any of the contestants will adopt. Should no appeal be taken, the whole subject can be considered as definitely settled.

In his decision, passing first upon case of W. A. Piper, owner of lot on corner of Kearny and Merchant Streets, Judge Cowles says :

"The Court is compelled to enter upon the investigation of these and other issues tried in connection with the proceeding, at odd intervals, and without the benefit of freedom from the pressure of other official duties so desirable in a complicated work of this nature.

At the threshold of this investigation it is proper to state, that in reviewing the figures of the Commissioners of appraisal and assessment in this proceeding, the extent of the duty imposed upon the Court is conceived to be to ascertain whether they have succeeded, not in making an assessment of damages and benefits absolutely equal and uniform and exactly just in every particular, but whether they have succeeded in arriving at a fair and reasonable approximation towards perfect uniformity and equality in the assessment of damages, and the apportionment of benefits in this proceeding. To require more than this would be to exact results impossible of attainment, an absurdity of which the law is never guilty.

The legal presumption is, that the Commissioners, who it may be remarked were selected at the instance of a large number of persons having a deep pecuniary interest in the proper execution of the work, and with special reference to their peculiar fitness for the duties assigned them, have discharged their duties faithfully, and have embodied in their report legal and just results."

Following the rendering the decision, decrees in thirty-two cases were filed on the 9th of October. On the 18th of October an amendatory report, making re-apportionment in the minor cases referred back, was filed in the County Court by the Commissioners, Messrs. E. N. Torrey, C. C. Webb, and A. B. Forbes. The time for hearing objections to the amendatory report has been set for the fifth day of November.

THE FIRE ALARM AND POLICE TELEGRAPH

Has been conducted with marked success during the year ; a detailed statement of its affairs is presented in report of the Superintendent, pages 216, 218. The forerunner and initial to introduction of the Paid Fire Department System, its workings were carefully noted by the public, and had an important bearing upon the adoption of that system.

Some additions and repairs to the machinery in use were made ; for the City Hall Bell, heavier striking apparatus has been ordered, and no effort will be spared to make its workings as effective as possible.

Some changes have been made in location of Signal Boxes, which are now placed as follows :

- 1—Cor. Stockton and Francisco streets.
- 2—Cor. Mason and Lombard streets.
- 3—Cor. Stockton and Greenwich streets.
- 4—Cor. Sansome and Greenwich streets.
- 5—Cor. Battery and Union streets.
- 6—Cor. Jones and Filbert streets.
- 7—West End Engine House, Union street, between Hyde and Larkin streets.
- 8—Cor. Powell and Union streets.
- 9—Hose Company No. 1, Dupont street, between Union and Green streets.
- 12—Cor. California and Kearny streets.
- 13—Cor. Front street and Broadway.

The instructions to key holders are the same as heretofore, viz : Upon the discovery of a fire near your Signal Box, turn the crank slowly and steadily about twenty-five or thirty times ; then wait a few moments, and if you hear no ticking in the Box, or alarm on the large bells, turn as before. If you still hear no alarm, go to the next Box, and give the alarm from that. Never open the Box, or touch the crank, except in case of fire. Never signal for a fire seen at a distance. Be sure your Box is locked before leaving it.

All persons interfering with, or maliciously injuring the Telegraph Apparatus, or giving false fire alarms through the Signal Boxes, are made liable to heavy penalties.

It is also provided that when found necessary for any person or persons to remove, interfere with or disturb any portion of the Telegraph lines for removal of buildings or otherwise, due notice in writing shall be given or caused to be given to the Superintendent, or in his absence, to the operator on duty at the City Hall, between the hours of six o'clock, A.M., and twelve o'clock M., stating the locality at which, and the manner in which it may be necessary to disturb, interfere with, or remove the line.

PAID FIRE DEPARTMENT.

The change now making from the Volunteer to the Paid system, presents the most marked event of the year. On the third day of December ensuing, the latter will be placed in operation under provisions of Legislative enactments of 1865-6. As to the services of the former, a merited tribute is paid in the Report of the Chief Engineer, pages 181-184.

The impromptu manner with which the Volunteer Department originated and was organized is familiar to all. Most nobly did early residents enroll themselves in its ranks. Soon after the December fire of 1849, some six companies were in organization and efficient service. Empire No. 1, Manhattan No. 2, Howard No. 3, St. Francis Hook and Ladder No. 1, Lafayette No. 2, and Sansome No. 3, were earliest in the field; to which, California No. 4, Knickerbocker No. 5 and Monumental No. 6 were soon added.

The draft of an Act to establish a paid Fire Department was presented in the Board of Supervisors on the sixteenth day of February, 1863, by John C. Merrill, then Supervisor of the Ninth Ward, but failed to receive sanction of the Board, and was laid upon the table. A copy of this introduced in the State Legislature during session of 1863-4 was defeated.

At the next session, 1865-6, a modified bill, introduced in the Assembly by Hon. J. A. McClelland, was passed by both Houses, overcoming strenuous opposition and receiving sanction of the Executive, became a law on the second of March, 1866. That, with an Amendatory Act, approved April 2d, constitutes the present law, and designates, as before said, the third of December ensuing for going into operation.

On the fifth of March, 1866, a certified copy of the Act having been received, the subject was referred to a Special Committee of the Board, composed of members of the Fire and Water and Fire Alarm and Police Telegraph Committees, jointly.

This Special Committee took the matter immediately in hand, and by telegraph, in the month of April thereafter, entered into an agreement with the Amoskeag Manufacturing Company of Manchester, New Hampshire for four Steam Fire Engines of their patent—one to be of 1st, and three of 2d Class, for the sums respectively each of \$5,000 for 1st Class, and \$4,750, 2d Class, payable in gold or its equivalent in U. S. Notes, also one Hose Reel for the sum of \$560, upon same terms—all complete, freight paid, deliverable in San Francisco; the negotiation having been materially aided through services rendered by Mr. Charles Main, of San Francisco, then at the East.

The terms of the contract were complied with; all of the Engines and the Hose Reel were received in contract time, and are ready for service.

In the further carrying out of the measure, a Special Committee, consisting of Supervisors Stanyan, Rowell, and Shrader, was appointed on the sixteenth of July, by which some twenty horses have been purchased at an average cost of \$350; so that the new Department was provided with a great portion

of its apparatus and stock nearly two months before the time set by law for it to take effect.

In addition to this, a contract has been entered into with Messrs. H. Casebolt & Co., of the City, to manufacture and deliver by the time required eight Hose Reels, of the same quality and style as the Eastern pattern, for the sum of \$381.25 each.

By provisions of the enactment first referred to there were to be chosen five Fire Commissioners to take necessary steps by the appointment of officers, etc., to place the Department in complete working order by the time designated. The Act made two Commissioners elective by the people, one to be appointed by the Board of Supervisors, two to be appointed by the Board of Fire Underwriters; the result of which has been the election of—

BENJAMIN H. FREEMAN and JOHN V. McELWEE, by electors of San Francisco, September 5th.

JACOB S. DIMON, appointed by Board of Supervisors, September 10th.

ERASTUS N. TORREY and JOHN C. MERRILL, chosen by the Board of Underwriters, September 14th.

The term of office fixed is five years—one Commissioner to go out yearly; the classification for first term to be determined by lot.

The Board thus constituted held a first and preliminary meeting on the twenty-second of September, at which Mr. JOHN C. MERRILL was chosen temporary President, and Mr. JACOB S. DIMON, temporary Secretary.

The ballot for Classification was had, resulting—

Mr. E. N. Torrey	drawing	term of five years.
Mr. J. C. Merrill	“	“ four “
Mr. B. H. Freeman	“	“ three “
Mr. J. V. McElwee	“	“ two “
Mr. J. S. Dimon	“	“ one “

A second meeting was held on the twenty-ninth of September, when the Board permanently organized, choosing BENJAMIN H. FREEMAN, President; and J. B. JOURDAN, Clerk.

The contemplated force and composition of the Department, with other particulars relating thereto, are shown in sections four and six of Act approved March 2d, 1866, (see Statutes 1865-66, pages 139, 140) to wit :

SECTION 4. “The Fire Department of the City and County of San Francisco shall, when organized under this Act, consist of a Chief Engineer, two Assistant Engineers, one Corporation Yard Keeper, six (6) Steam Fire Engine Companies—to consist each of one Foreman, one Engineer, one driver, one fireman, and eight (8) extra men; two Hook and Ladder Companies—to consist each of one Foreman, one driver, one tillerman, and twelve (12) extra men; and three (3) Hose Companies—to consist each of one Foreman, one driver, one steward, and six (6) extra men.

Each Steam Fire Engine Company shall have one steam fire engine, one hose reel, with one thousand (1,000) feet of hose, and not more than four (4) horses. Each Hook and Ladder Company shall have one truck with hooks and ladders, and necessary appurtenances, and two horses. Each Hose Company to have one hose reel with one thousand (1,000) feet of hose, and one horse. But the said Board of Supervisors shall have power to increase or diminish the number of Fire Companies as the public safety of the City and County may require, and to purchase the necessary steam engines and apparatus therefor, and to organize such volunteer Companies for outside districts of said City and County as they may see fit; *provided*, such volunteer companies shall be subject to the provisions of this Act; but none of the members thereof, except the steward for each of such volunteer companies, shall receive any salary.

SEC. 6. "The salaries of the officers and men comprising the said Fire Department shall not exceed the following sums, payable monthly: to the Chief Engineer, two hundred and fifty dollars (\$250) per month; to each Assistant Engineer, one hundred dollars (\$100) per month; to each foreman, thirty dollars (\$30) per month; to each engineman, eighty dollars (\$80) per month; to each driver sixty dollars (\$60) per month; to each fireman, fifty dollars (\$50) per month; to each tillerman, fifty dollars (\$50) per month; to each steward, fifty dollars (\$50) per month; to each extra man, twenty dollars (\$20) per month; to the Corporation Yard Keeper, fifty dollars (\$50) per month. All the paid members of the Fire Department except the foreman and extra men shall give their undivided attention to their respective duties. The foreman and extra men shall perform such duties as may be prescribed from time to time by the Board of Fire Commissioners."

The terms of office of Chief Engineer and Assistant Engineers are for two years, unless removed by the Board for some cause; that of subordinate officers during good behavior; the Clerk during pleasure of Commissioners, by whom regulations are to be adopted for government and regulation of the Department. Appointments for Chief Engineer and Assistant Engineers to be confirmed by Board of Supervisors.

At a third meeting of the Fire Commissioners, held on the sixth day of October, the following appointments were made, and on the eighth day of same month confirmed by the Board of Supervisors, to wit:

Mr. F. E. R. WHITNEY, Chief Engineer.

Mr. HENRY W. BURCKES, 1st Assistant Engineer.

Mr. CHARLES ACKERSON, 2d Assistant Engineer.

FIRES AND FIRE ALARMS.

During the year closed the number of fires and alarms was less than in that preceding, being two hundred and twenty-one against two hundred and thirty-five in 1864-5; yet the aggregate of losses claimed is more than double that

of the former year. The principal reason of this is found in the destruction, on the seventeenth of July, 1865, of a large warehouse at the corner of Battery street and Broadway, the loss by which was placed at \$343,827—only some seven thousand dollars less than half the total of the year; this fire, in report of Mr. JOHN L. DURKEE, Fire Marshal, an abstract of which is presented herewith, is stated to have been caused by spontaneous combustion; large quantities of coal and linseed oils with cotton and other extra inflammable material, were stored in the premises. The above taken into consideration with the large number of incendiary fires (including three Hay Barns near the water front), more than accounts for the increase of loss, although the total of Insurance on property destroyed is some twenty thousand dollars less than in the previous year.

That a disposition to incendiarism on the part of evil disposed persons has been and is still prevalent, is unfortunately too true. Stringent penalties against the crime are prescribed, notwithstanding which, and all vigilance of the officers, in a large majority of instances this has proved insufficient to secure the arrest of its perpetrators.

FIRE LIMITS.

Important changes have been made during the year, in the boundaries of that portion of the city within which the erection of wooden buildings is prohibited; the district is now bounded by a line commencing at the intersection of Market and Davis streets, and running thence along the westerly line of Davis street to Clark street; thence along the southerly line of Clark street to Front street; thence along the westerly line of Front street to Broadway; thence along the southerly line of Broadway to Stockton street; thence along the easterly line of Stockton street to Clay street; thence along the southerly line of Clay street to Dupont street; thence along the easterly line of Dupont street to Bush street; thence along the southerly line of Bush street to Stockton street; thence along the easterly line of Stockton street to Market street; thence along the southeasterly line of Market street to Fourth street; thence along the northeasterly line of Fourth street to Folsom street; thence north-easterly along the northwesterly line of Folsom street one hundred feet; thence northwesterly and parallel with Fourth street to a point within one hundred feet of Market street; thence northeasterly and parallel with Market street to a point within one hundred feet of Third street; thence southeasterly and parallel with Third street to the northwesterly line of Folsom street; thence northeasterly along said line of Folsom street to a point one hundred feet north-easterly from Third street; thence northwesterly and parallel with Third street to a point within one hundred feet of Market street; thence northeasterly and parallel with Market street to a point within one hundred feet of Second street; thence southeasterly and parallel with Second street to the northwesterly line

of Howard street; thence northwesterly along the said line of Howard street to a point one hundred feet northeasterly from Second street; thence northwesterly and parallel with Second street to a point within one hundred feet of Market street; thence northeasterly parallel with Market street to a point within one hundred feet of First street; thence northeasterly parallel with First street to the northwesterly line of Howard street; thence northeasterly along the said line of Howard street to a point one hundred feet northeasterly from First street; thence northwesterly and parallel with First street to a point within one hundred feet of Market street; thence northeasterly and parallel with Market street to the intersection of Davis Street; and thence to the point of beginning.

CITY AND COUNTY HOSPITAL.

This Institution continues under the management of Dr. WM. T. GARWOOD, Resident Physician, and Drs. F. A. HOLMAN, Visiting Surgeon, and A. G. SOHLE, Visiting Physician.

The Report of the Resident Physician, pages 236 to 241, shows present number of inmates, and gives particulars for comparison with statistics of former years.

The average number of patients provided for yearly since 1860, has been—

For the year ending June 30th, 1860.160	For the year ending June 30th, 1864.322
For the year ending June 30th, 1861.176	For the year ending June 30th, 1865.370
For the year ending June 30th, 1862.236	For the year ending June 30th, 1866.341
For the year ending June 30th, 1863.283	Remaining at close of the year.....315

The expenditures during the thirteen years ending June 30th, 1866, were—

1853-4.....\$213,364	<i>Brought forward</i>\$738,654
1854-5.....278,328	1860-1.....36,386
1855-6.....89,478	1861-2.....39,292
1856-7.....40,360	1862-3.....58,049
1857-8.....43,880	1863-4.....67,314
1858-9.....37,653	1864-5.....85,127
1859-60.....38,591	1865-6.....85,441
<i>Carried forward</i>\$738,654	<i>Total</i>\$1,110,263

Hospital affairs since the year 1849, are fraught with much of public and general interest. In that year, several attempts were made to establish a permanent Hospital wherein the sick and destitute otherwise unprovided for, at an inclement season of the year, could receive proper aid and medical attendance.

The records of Municipal legislation in 1849 show the enactment of several measures having that object, the carrying out of which, however, in all cases was disastrous or proved utter failures.

Under the conduct of various physicians, there were so called Hospitals established, by which the names and fame of Drs. Alfred Melhado and Peter Smith, with others, are preserved in lively recollection.

Under their auspices the young municipality became burdened with onerous debts to meet exorbitant and rapacious charges; during the winter of 1849 to May 8th, 1850, the sum of \$66,973 66 was paid, or the city made liable therefor, while from May 8th, 1850, to February 28th, 1851, the sum of \$208,135 was thus paid, or further liabilities incurred, the effect of which is known and felt at the present time, in the many clouds thrown upon titles to property, growing out of suits and judgments, whereby city and individual property was seized and sold to meet the indebtedness thus created.

The table presented shows the disbursements of more recent years, in which time it will be observed that Hospital matters have presented new and more promising phases.

At the present it is in contemplation to erect a new Hospital, and also Alms House buildings, as authorized by Acts of the Legislature in 1863 and 1866. For this a portion of the San Miguel Rancho, comprising eighty acres of arable land, situate some three miles southwesterly from the City Hall, has been purchased at a cost of \$30,000.

Premiums for the plans adopted as first and second best, were offered, viz: \$250 for the first, and \$200 for the second; and eight plans with elaborate drawings were submitted on the first of October, which after careful examination by the Joint Committee on Public Buildings and Hospital, assisted by the Visiting Surgeon, Visiting Physician, and Resident Physician of the City and County Hospital, resulted in awarding to Messrs. M. F. Butler and Bugbee the first premium, and to Messrs. Kenitzer and Farquharson the second. The matter is being closely attended to by the committee having the subject in charge. Specifications are being prepared by Messrs. Butler and Bugbee, and proposals for building the Alms House will soon be called for.

STREET LINES AND GRADES.

Under the operations of the Van Ness Ordinance, ratified by State legislation and subsequent enactments, a large portion of the so-called outside lands of former years has been settled, and now forms an integral part of the City; nearly three hundred miles of streets have been surveyed, the grades established, and a large portion graded and otherwise improved.

The profiles of the streets surveyed, showing the configuration of the land, the elevation above base of the grades established, the official map of the city, and a block book of streets within charter limits of 1851, showing deviations from rigid lines, are filed in the office of the City and County Surveyor all of which were legalized by an order approved January, 26th, 1866, entitled

Order No. 684—Establishing the lines and Grades of Streets and Public Highways in the City and County of San Francisco, and the Legal and Official Plan and Map of said City.

The People of the City and County of San Francisco do ordain as follows:

WHEREAS, under and by virtue of an Act of the Legislature of the State of California, entitled "An Act to establish the lines and grades of Streets in the City and County of San Francisco," approved April 26, 1862, and the Act amendatory thereof, the Board of City Engineers therein mentioned and constituted, having completed their Survey, Maps and Profiles, and a Book explanatory thereof, called the Block Book, and having delivered the same with their Report, according to law, to this Board.

And this Board having thereupon published a notice for three weeks, stating that such Report had been made, and that the same with the Survey, Maps, Profiles, and block Book aforesaid, were open for public inspection in the Office of the Clerk of the Board of Supervisors; and notifying any property owner dissatisfied with said Survey, Maps, Profiles and explanatory Block Book, or either of them, within said three weeks, to file in the Office of the Board of Supervisors, with said Clerk, objections, in writing, to the same, or to the establishment of the aforesaid Grades and Lines; stating specifically the grounds and reasons of said objections, which published Notice contained a tabular statement of the respective grades as indicated by said Surveys, Maps and Profiles.

And the said Report, Survey, Maps Profiles and Block Book, having been kept open for public inspection in the Office of the Clerk of said Board of Supervisors during the period of the publication of said Notice.

And said period of three weeks having expired, and no written or other objections to said Survey, Report, Maps, Profiles and Block Book, or either of them having been filed.

And the said Survey, Maps, Profile and Block Book, having been finally submitted to said Board of Supervisors, it is now ordered:

SECTION 1. That the Survey, Maps, Profiles and Block Book, aforesaid, be and they are hereby approved and adopted, and that said Maps, Profiles and Block Book do stand as the legal and valid official plan of the City and County of San Francisco, to determine the lines of the streets and the grades thereof, as provided by the Acts of the Legislature aforesaid.

SEC. 2. That the lines of the streets in those portions of the City and County of San Francisco, as delineated in the aforesaid Block Book, shall be run in accordance with the distances from the monument of Re-Survey lines to the respective corners as fixed and indicated in said Block Book; and every survey hereafter made shall conform thereto, and shall be plotted in said Block Book, as an official record of such survey.

SEC. 3. That the lines of streets and sizes of blocks in all the other portions of the City (not included in said Block Book) shall be run in accordance with the distances and dimensions marked on the General Map of the City and County of San Francisco, made by said Board of Engineers, in connection with the "Monument Map" of said Board of Engineers, as regards the location of the monuments and stakes with the lines of said streets.

SEC. 4. The respective grades of the streets, as indicated by said Surveys, Maps and Profiles, and hereby determined, are specially shown by the following tabular statement, viz:

OUTSIDE LANDS.

A suitable and equitable disposition of this long mooted question has for several years past attracted a large share of public attention, and presented a prominent feature in Municipal Legislation.

On the eleventh of December, 1865, a Special Committee of the Board of Supervisors, consisting of Frank McCoppin, E. N. Torrey, Monroe Ashbury, Chas. H. Stanyan, Chas. Clayton, submitted a Report in the matter which was considered and adopted on the twenty-sixth of same month.

This report formed the basis of a bill which was subsequently introduced in the State Legislature, and passed both Houses, but failed to receive sanction of the Executive.

The conclusions arrived at by the Committee are shown by their recommendations, unanimously concurred in, to wit :

“First—That the Board of Supervisors be authorized to appoint three Commissioners, who shall be known as the San Francisco City and County Land Commissioners, whose duty it shall be, as soon as practicable after their appointment, to ascertain the character and extent of claims to the Pueblo lands of the City, and appraise the value of the same, irrespective of the value of improvements thereon.

“Second—That the said Commissioners shall have power to execute or cause to be executed, deeds of release and quitclaims to the parties in the actual possession thereof, by themselves or tenants, or by their co-tenants in joint or common tenancy on or before the first day of January, eighteen hundred and sixty-five, with the reservations, conditions, and exceptions hereinafter mentioned, all right, title, and claim of said City and County to the lands described in the aforesaid decree of the United States Circuit Court, situated without the corporate limits of the City of San Francisco, as established by an Act to re-incorporate said City, passed April fifteenth, 1851; provided such possession has been continued up to the present time, or if interrupted by an intruder or trespasser, has been or may be recovered by legal process; provided also, that no claimant shall be entitled to hold more than fifty acres of the said lands, and that as a condition precedent to the execution and delivery of any deeds as aforesaid, the parties claiming the lands shall be required to pay into the Treasury of the City and County of San Francisco, for a tract not exceeding ten acres, ten per cent. of its appraised value, and for every additional ten acres up to fifty acres, ten per cent. shall be added: thus, there shall be charged for ten acres, ten per cent.; for the second ten acres, twenty per cent.; for the third ten acres, thirty per cent.; for the fourth ten acres, forty per cent.; and for the fifth ten acres, fifty per cent. of its appraised value, and in the same proportion for fractional quantities.

“Third—That where a tract of land exceeds in quantity the limit herein expressed and defined, the claimant shall, before receiving a deed as aforesaid, be required to quit-claim, and peaceably deliver the possession of any surplus so held and claimed to the Commissioners, for the use and benefit of the City and County of San Francisco, to be disposed of as hereinafter recommended, provided the parties in possession,

whose claims are recognized by the Commissioners, shall be authorized and required to locate in one compact body, as nearly as possible, the quantity of land allotted to them, and to which they shall be entitled; provided, always, that the amount of taxes levied on said lands and paid by the claimants or their grantors to the City and County of San Francisco, for municipal purposes, since the year 1860, shall be credited to the said claimants and reckoned as a part of the amount to be exacted by and paid to the City.

*“Fourth—*That the Commissioners, with the concurrence of the Board of Supervisors, shall be required to lay off and reserve one or more Public Parks, and to lay off, appropriate, and reserve sufficient lands for public streets, and provide for the opening of the same, and to lay off, appropriate, and reserve sufficient lands for charitable objects, and City Cemetery, and for schools, hospital, and engine house lots, or for other necessary public purposes, at convenient distances, with a view to provide for the wants, health, comfort, and recreation of the inhabitants of the City; provided, that if the lands claimed by any valid claimant shall be taken for any of the aforesaid purposes, equivalent allotments shall be provided for them by the Commissioners out of the nearest ungranted lands to such valid claim, or where this cannot be done, the City shall pay for the lands so taken at the same rates charged by her for lands to be granted, according to the terms hereby recommended; provided, also, that the improvements thereon shall be paid for at their full appraised value, said appraisal to be made by the Commissioners.

*“Fifth—*That the residue of said lands shall be sold at public sale, under the direction of the Commissioners, in such quantities and upon such terms as will enable persons of limited means to purchase homesteads—provided the Commissioners shall have power—and it shall be made their duty to remit to the parties purchasing, fifty per cent. of the amount remaining due and unpaid to the City on account of purchases, to all those who shall within one year from the date of sale expend a sum equal to fifty per cent. of the purchase price of their lots, in fencing, building upon and otherwise improving the same, provided also the terms of sale shall be one-third cash, one-third in one, and the balance in two years.

*“Sixth—*That the proceeds of such sales, as well as all moneys received for grants of lands made as aforesaid, shall be paid into the Treasury of the City and County of San Francisco, and shall constitute a Fund to pay for lands taken by the City for the purposes herein mentioned and in the manner heretofore expressed, and for the opening of free roads through said lands to the ocean beach, and the improvement of the grounds reserved for a public park or parks.”

The effect of the Executive Veto was to return the subject matter to the Board of Supervisors, in which body it was subsequently taken up and referred to a new Committee, composed of Supervisors Clement, Rowell, Ashbury McCoppin, Stanyan. This Committee, on the seventeenth of September, 1866, introduced an order which was passed for printing, and on the twenty-fourth of same month referred to the Judiciary Committee, by which it was favorably reported with amendments, October 1st, and again passed for printing; on the eighth of same month was finally passed, received the signature of the Mayor on the twelfth of October, and will be submitted to the Legislature at its next session for confirmation and further authority to carry out details of its provisions. The Order is as follows :

ORDER No. 733.—For settlement and quieting of the title to lands in the City and County of San Francisco, situated above high water mark of the Bay of San Francisco and the Pacific Ocean, and without the former corporate limits of the City of San Francisco.

The people of the City and County of San Francisco do ordain as follows:

SECTION 1. Immediately after the passage of this Order, the Board of Supervisors shall proceed to devise and adopt a plan for the subdivision into blocks and lots of all the lands not reserved to the United States, situated on the peninsula of San Francisco, and within the present corporate limits of said City and County, and above the natural ordinary high water mark of the Bay of San Francisco and the Pacific Ocean, as the same existed on the seventh of July, 1846, and without the corporate limits of the City of San Francisco as defined in the Act to re-incorporate said City passed by the Legislature of California, on the fifteenth day of April, 1851, so far as said Board may deem such subdivision necessary; and to select and set apart for public uses such lots and portions of said land as said Board may deem necessary, subject to the limitations and provisions hereinafter in this Order contained.

SEC. 2. After the adoption of the plan provided for in Section 1 of this Order, the Board of Supervisors shall cause to be made a map of said lands according to said plan. Such map shall show the streets and public highways, the blocks formed by the intersection of the streets and public highways, and the lots into which said blocks shall be subdivided; and upon such map shall be designated the lots and portions of land set apart for public uses, and the particular use for which each lot or portion of land shall have been set apart.

SEC. 3. Upon the completion of the map provided for by Section 2 of this Order, it shall be deposited for public inspection in the office of the Clerk of the Board of Supervisors and there remain for a period of sixty days; and notice shall be published in three of the daily papers during the whole time that said map shall so remain in said office.

SEC. 4. Any person having or claiming any interest in any portion of said lands under and by virtue of any of the provisions of this Order, may at any time before the completion of said map, or while the same shall remain in the office of the Clerk of the Board of Supervisors for public inspection, present to the Committee on Outside Lands, hereinafter in this Order provided for, a description and diagram of the lands in which he shall so claim an interest, and have the same delineated on said map, and may also present to the said Committee in writing his objections to the location or use of any lot or portion of land designated on said map as set apart for public uses and embraced within the description and diagram presented by him, but no claim shall be delineated upon said map by said Committee, unless all taxes have been paid thereon for the five fiscal years preceding the year beginning July 1st, 1866.

SEC. 5. After the said map shall have remained in the office of the Clerk of the Board of Supervisors for the said period of sixty days, as provided in Section 3 of this Order, the Board of Supervisors shall examine the objections, if any, made thereto, and may make such alterations in the location or designation of any lots or portions of lands set apart for public uses as may be necessary to obviate any objection which the said Board shall deem just and proper; provided, that no alter-

ation shall be made which shall effect any person whose claim shall have been delineated on said map, and who shall not have made any objection to the location or designation of the lots or portions of land set apart for public uses.

SEC. 6. As soon as the alterations provided for, in Section 5 of this Order, shall have been made and delineated on said map, the said map shall become and be the official map of said lands; and the portions of land thereon designated as public streets and highways shall become and be dedicated to public use as streets and highways: and the lots and portions of land thereon designated as set apart for other public uses shall severally become and be dedicated to the uses for which they severally shall have been set apart.

SEC. 7. No lot set apart for public use, other than for a park, plaza, cemetery or public square, or for the erection thereon of a City Hall, or buildings for a City Library, Hospital, or an Asylum, shall exceed in extent two fifty-vara lots; and no tract or portion of land set apart for a plaza or public square, shall exceed in extent four whole blocks, formed by the intersection of the main streets of the plan; and the tract or portion of land set apart for a cemetery shall not exceed in extent two hundred acres, nor be less than one hundred acres; and the tract or portion of land set apart for a public park shall not be less than three hundred acres.

SEC. 8. In addition to the streets and highways not less than one-twentieth nor more than one-tenth part of any tract which, including streets and highways, does not exceed fifty (50) acres in extent, shall be set apart for public use; but if any tract which by the provisions of this Order would pass to one person, shall exceed fifty (50) acres in extent, including streets and highways, there shall be set apart for public use other than for a public park, and for a cemetery, and in addition to the streets and highways, not less than one-twentieth nor more than one-tenth part of fifty (50) acres; and not less than one-tenth part of all above fifty (50) acres, from any tract which by the provisions of this Order, would pass to a number of persons as joint tenants or tenants in common, so much shall be set apart for public use and no more, as by the provisions of this section might be set apart if the interests of the respective tenants were several and divided. If of any tract less in extent than one-half of a block, formed by the intersection of the main streets of the plan, a portion shall be set apart for public use, other than for a public park, or for a cemetery, or for streets and highways, the person or persons to whom said tract would pass by the provisions of this Order, may purchase the amount so set apart for public use, by payment, to the City and County, in gold coin, the value thereof; the value to be determined by the Board of Supervisors on the report of the Committee on Outside Lands.

SEC. 9. The tract or portion of land set apart and designated on said map as a Public Park, and the tract or portion set apart and designated thereon as a Cemetery, and the several portions thereon designated as public streets and highways, shall be deemed absolutely dedicated as such; but persons who, by the provisions of this Order would, but for such dedication, be entitled to any of the lands embraced within such Park or Cemetery, shall be entitled to receive compensation for their claims to portions to which they would be so entitled less the deductions which might be made therefrom according to the provisions of Section 8 of this Order, such compensation to be made according to the value of the lands taken, the value

to be determined by the Board of Supervisors on the report of the Committee on Outside Lands; but no person shall be entitled to receive, either under the provisions of this section or of Section 8 of this Order, compensation for any lot or portion of land set apart for public use, unless his claim shall have been delineated on the map hereinbefore in this Order provided for, nor until all conflicting claims to such lot or portion of land shall have been finally determined, and no person shall be entitled to receive compensation for any portion of land included on any street or highway.

SEC. 10. No conveyance of any tract of land, or any interest therein made after the eighth day of March, 1866, shall be regarded in the selection and designation of lots and portions of land for public use; but the amount of land that may be reserved and set apart for public use shall be determined by the claims and possessions as they existed on the eighth day of March, 1866.

SEC. 11. All that portion of the land described in Section 1 of this Order, which lies south of a line drawn due south eighty-one degrees and thirty-five minutes east magnetic, through Seal Rock, and west of a line easterly not less than two hundred feet from ordinary highwater mark, is hereby reserved and set apart for public use as a public highway.

SEC. 12. The City and County of San Francisco hereby relinquishes and grants all the right, title, and claim which the said City and County now has or may hereafter acquire as the successor of the Pueblo of San Francisco, or as the grantee or patentee of the United States, in and to the lands hereinbefore in this Order described, and not excepted or reserved, or intended to be excepted or reserved, by any of the preceding sections or provisions of this Order, and which may not be set apart for public use under any of the preceding sections and provisions, and upon which shall be paid previous to the first day of April, 1867, all taxes which have been assessed thereon, during the five fiscal years preceding the year beginning July 1st, 1866, unto the persons, or to the heirs and assigns of persons who were on the eighth day of March, 1866, in the actual *bona fide* possession thereof, by themselves or their tenants, or having been ousted from such possession before or since said day have recovered or may recover the same by legal process. And it is hereby declared to be the intent and object of this section to pass the right, title, and claim of the said City and County in and to every tract or portion of said land, except the portions that are or may be reserved as aforesaid, possessed by one person, unto the possessor thereof in severalty; and every separate tract or portion thereof, except the portions that are or may be reserved as aforesaid, possessed by more than one person jointly or in common, unto the possessors thereof jointly or in common.

SEC. 13. The grant and relinquishment by this Order made, shall be subject to the selections, reservations, and conditions hereinbefore in this Order made and provided for.

SEC. 14. A Committee of three members of the Board of Supervisors shall be chosen by said Board, whose duty it shall be to prepare and report to the Board, the plan provided for in Section 1 of this Order, to supervise the making of the map provided for in Section 2, to select, set apart, and designate the lots and portions of land hereinbefore provided to be set apart for public use, and generally to

superintend the carrying out of the provisions of this Order; all the acts of said Committee to be subject to the approval of the Board of Supervisors.

SEC. 15. Whenever a survey shall be required to determine the boundaries of any claim or portion of any claim, whether ordered by the Committee or requested by the claimants, the expense of such survey shall be borne by such claimants; and no survey shall be received by the Committee, except it shall have been made by the City and County Surveyor, or a Surveyor designated by the Committee; and the amount of compensation for such survey shall be fixed by the Committee at a reasonable rate, not to exceed the ordinary charges for such services.

SEC. 16. The compensation which may become due, by virtue of Sections 8 and 9 of this Order, shall be made in such manner as the Legislature may hereafter provide.

SEC. 17. This Order shall take effect from and after its passage.

On the 15th of October, in pursuance of section 14 of the Order, the Committee of three required to be chosen was elected by the Board of Supervisors, and consists of R. P. Clement, Chairman; Frank McCoppin, and Charles H. Stanyan.

As having a relative connection with the foregoing subject, as well as with that of the Pueblo title and the Van Ness Ordinance, the following extract is presented from the valuable "Colonial History of San Francisco," a volume published by Hon. John W. Dwinelle, Special City Counsel in the Pueblo case. (See addenda thereto, page 356):

"It certainly illustrates the hardships to which the holders of real estate are subjected in the City of San Francisco, when we find the Governor of the State repudiating the Pueblo title, which no Governor either Mexican or American ever denied before him, and laying down legal propositions, which if true, not only overturn all titles under the Van Ness Ordinance, but also deny all title whatsoever to the City in the Outside Lands. For, if the Legislature cannot modify the execution of a beneficial public trust, or cannot adopt and confirm the previous action of a municipal corporation, then the Van Ness Ordinance is void. The municipal corporation cannot accept the trust created by the Act of Congress of March 8th, 1866, without the consent of the Legislature. The City has, therefore, nothing but the Pueblo title to repose upon in the distribution of the Outside Lands; but the holders of real estate may rest assured that not one of the propositions of the Governor's veto message is sound law, and that the Van Ness Ordinance is valid, as well as the PUEBLO title."

In the same connection, and as having an important bearing upon the final settlement of the whole subject, an Ordinance entitled the

VAN NESS ORDINANCE,

Approved June 20th, 1855, is given, which reads as follows:

SECTION 1. It shall be the duty of the Mayor to enter, at the proper Land Office of the United States, at the minimum price, all the lands above the natural high water mark of the Bay of San Francisco, at the time of the admission of California

into the Union as a State, situated within the corporate limits of the City of San Francisco, as defined in the Act to incorporate said City, passed April 15th, 1851, in trust for the several use, benefit, and behoof of the occupants or possessors thereof, according to their respective interests.

SEC. 2. The City of San Francisco hereby relinquishes and grants all the right and claim of the said City to the lands within the corporate limits, to the parties in the actual possession thereof by themselves or tenants, on or before the first day of January, A.D. 1855, and to their heirs and assigns forever; excepting the property known as the Slip property, and bounded on the north by Clay street, on the west by Davis street, on the south by Sacramento street, and on the east by the water lot front. And excepting also, any piece or parcel of land situated south, east, or north of the water lot front of the City of San Francisco, as established by an Act of the Legislature of March 26th, 1851; *provided*, such possession has been continued up to the time of the introduction of this Ordinance in the Common Council; or, if interrupted by an intruder, or trespasser, has been, or may be, recovered by legal process; and it is hereby declared to be the true intent and meaning of this Ordinance, that when any of said lands have been occupied and possessed under and by virtue of a lease or demise, they shall be deemed to have been in the possession of the landlord or lessor under whom they were so occupied or possessed; *provided*, that all persons who hold title to lands within the said limits by virtue of any grant made by any Ayuntamiento, Town Council, Alcalde, or Justice of the Peace, of the former Pueblo of San Francisco, before the seventh day of July, 1846; or grants to lots of land lying east of Larkin, and northeast of Johnston street, made by any Ayuntamiento, Town Council, or Alcalde of said Pueblo, since that date, and before the incorporation of the City of San Francisco by the State of California; and which grant, or the material portion thereof, was registered or recorded in a proper book of record deposited in the office, or custody, or control, of the Recorder of the County of San Francisco, on or before the third day of April, A.D. 1850; or by virtue of any conveyance duly made by the Commissioners of the Funded Debt of the City of San Francisco, and recorded on or before the first day of January, 1855, shall, for all the purposes contemplated by this Ordinance, be deemed to be the possessors of the land so granted, although the said lands may be in the actual occupancy of persons holding the same adverse to the said grantees.

SEC. 3. The patent issued, or any grant made by the United States to the City, shall inure to the several use, benefit, and behoof of the said possessors, their heirs and assigns, mentioned in the preceding section, as fully and effectually, to all intents and purposes, as if it were issued or made directly to them, individually and by name.

SEC. 4. The City, however, as a condition annexed to the next two preceding sections, reserves to itself all the lots which it now occupies, or has already set apart for Public Squares, Streets, and sites for School Houses, City Hall, and other buildings belonging to the Corporation; and also such lots and lands as may be selected and reserved for streets and other public purposes, under the provisions of the next succeeding sections.

SEC. 5. The City shall have the right to proceed to lay out and open streets as soon as the Corporation may deem it expedient, in that part of the city west of Larkin street, and southwest of Johnston street, and reserves the right to take

possession of such land as it may be necessary to occupy for that purpose, without compensation; and to assess, in the manner provided by the present, or any existing charter of the City, upon the lands bounded on such streets, the whole expense of laying out, opening, grading, or constructing the same; and payment of the cost of said improvements shall be deemed a charge upon the lands mentioned in this section, to which the City of San Francisco relinquishes her right and title by the second and third sections of this Ordinance.

SEC. 6. The City shall also have the right to select and set apart from the lands west of Larkin street, and southwest of Johnston street, as many lots, not exceeding one hundred and thirty-seven and a half feet square each, as the Mayor and Common Council may by Ordinance determine to be necessary for sites for school houses, hospitals, fire engine houses, and other public establishments necessary and proper for the use of the Corporation; and may lay out and reserve upon the said lands, at convenient and suitable points and distances, public squares, which shall not embrace more than one block, corresponding in size to the adjoining block; *provided*, that the selection shall be made within six months from the time of the passage of this Ordinance; and that the City shall not, without due compensation, occupy for the purposes mentioned in this section, after the laying out of the streets aforesaid, more than one-twentieth part of the land in the possession of any one person; and that such possessor shall voluntarily assent thereto, or refusing to do so, shall not be entitled to the benefit of any concession contained in the second and third sections of this Ordinance.

SEC. 7. The lots and lands reserved for the use of the Corporation, under the provisions of the next preceding section, shall be selected in localities likely to be most convenient and suitable for their respective uses, and in such proportion to the quantity in the possession of the respective occupants as to make the apportionment as nearly equal as circumstances will admit.

SEC. 8. The selection of said lands and lots shall be made by a Commission, to consist of three persons, who shall be chosen by the Common Council, in Joint Convention, who shall report the same to the Common Council for its approval; and upon such approval, deeds of release to the Corporation for the lands thus selected shall be executed, acknowledged, and recorded, in which deeds shall be specified the uses for which they are granted, reserved, and set apart respectively.

SEC. 9. Although the City hereby renounces in favor of the actual possessors, in accordance with the provisions of Section 2, any right or claim of its own, nothing in this Ordinance is intended to prejudice any other outstanding title to the said lands adverse to the said possessors.

SEC. 10. Application shall be made to the Legislature to confirm and ratify this Ordinance, and to Congress to relinquish all the right and title of the United States to the said lands, for the uses and purposes hereinbefore specified.

SEC. 11. Nothing contained in this Ordinance shall be construed to prevent the City from continuing to prosecute to a final determination her claim now pending before the U. S. Land Commission, for Pueblo lands, for the several use, benefit, and behoof of the said possessors mentioned in Section 2, as to the lands by them so possessed, and for the proper use, benefit, and behoof of the Corporation as to all other lands not herein before released and confirmed to the said possessors.

SEC. 12. That all Ordinances or parts of Ordinances, conflicting with this Ordinance, or any part of its provisions, be and the same are hereby repealed.

It is almost superfluous to add that said Ordinance No. 822 and confirmatory Ordinance No. 845 were approved and ratified by Act of the State Legislature, approved March 11th, 1858.

PUBLIC GROUNDS.

Pending settlement of the outside land question, much attention has been paid to the selection and setting apart suitable grounds for a Public Park, and in the various measures or recommendations presented and entertained in recent years, this subject stands prominent as an important part of the subject.

On the 6th of November, 1865, the memorial of a large number of citizens and tax-payers, in reference to the matter, was received and considered by the Board of Supervisors, which set forth that—

“The great cities of our own country, as well as of Europe, have found it necessary at some period of their growth, to provide large parks, or pleasure-grounds, for the amusement and recreation of the people. When they have set about the work early in their history, the grounds have been secured near to the centers, and so made easily accessible, and the expense has been comparatively light.

“No city in the world needs such recreation grounds more than San Francisco. A great Park, or—what is more practicable—a series of small parks, connected by varied and ornamented avenues, where people can drive, and ride, and walk, free from dust and noise, is the great want of this city. Until some provision is made to meet this want, however successful and impressive the business growth of San Francisco may be, it will not be an attractive place for families and homes.

“With this fact patent to everybody, and the certainty that every year’s delay adds to the difficulties to be overcome, it would seem to be wisdom, before the suburbs of the city are more thickly populated, to have some general plan adopted for such pleasure grounds and connecting avenues, and to secure the required land as early as possible. However slowly or rapidly the work on the grounds may be prosecuted, all the other developments of the city, in buildings, railroads, sewers, gas and water pipes, etc., will then be adapted to the plan of the Park, and thus the great expense of subsequent changes will be avoided.”

The memorial thus referred to, concludes by recommending that Mr. Frederick Law Olmsted, landscape architect, of the City of New York, who had recently visited San Francisco, be communicated with in relation to the matter.

Following this, and in the same month, his Honor the Mayor, the City and County Attorney, with Supervisors Bell and McCoppin, were empowered to correspond with Mr. Olmsted, and obtain his views and recommendations as to extent of grounds required, and suitable location for a Park, a communication to which effect was mailed on the 11th of November, 1866. On the 31st of March, Mr. Olmsted responded in a preliminary report (with map, plans, and

elaborate designs accompanying), from which the following brief extracts are made :

"A place of public recreation being demanded for the people of San Francisco, I am asked to say in what way I should propose to meet this demand.

"Before any discussion can be had with advantage upon this subject, it is necessary that a clear understanding should be arrived at in regard to the special conditions to which the proposed recreation ground should be adapted.

"These may be either of a social character, such as the number and the habits and customs of the people which are to make use of it, or such as are fixed by natural circumstances, as of topography, soil, and climate.

"In regard to the social conditions, it is obvious that San Francisco differs from other towns which have provided themselves with parks, in the incompleteness of its general plan. As soon as the Pacific Railroad is finished, its importance will no longer depend as much as it does at present, upon its position relative to the wants and the productions of the people of the Pacific Slope of the American Continent, but it will begin to assume relations with the larger part of the population of the whole world—and the most industrious and productive part, both civilized and uncivilized—relations more direct, intimate, and profitable, than are now held by any existing town. The magnitude and variety of the field which will thus become tributary to its prosperity, will insure its progress against excessive fluctuations, and its citizens, influenced by a steadily increasing demand for their services, will provide for this demand by a steadily increasing enlargement of their means of accomplishing business, in the construction of manufactories, shops, warehouses, and otherwise. The present city is but a small section of that which is yet to be formed.

"It is, therefore, important to remember, that a public pleasure ground, when once formed within a city, possesses a character of permanency beyond any civic building, and usually becomes the most unchangeable feature in its plan. Consequently, it is necessary, in designing such a work, first of all, to consider how the convenience and pleasure of future generations are to be affected by it, and in the present case, it is more than usually important that this should be borne in mind from the very outset, because a pleasure ground adapted to meet the wants of the population of the City of San Francisco, as it exists to-day, will probably be needed to accommodate two or three times that number of people, even by the time it had reached in the growth of plants and other respects, the conditions aimed at in its design—and, ultimately, a far larger number. Whatever pleasure ground is formed for it in the next ten years, should be laid out with reference to the convenience, not merely of the present population, or even of their immediate successors, but of many millions of people. Obviously this responsibility cannot be adequately met without careful prevision of circumstances very different from those with which we have immediately to deal.

* * * * *

"San Francisco has a future more certain than any of these older towns, and its probable requirements are more easily to be anticipated. It is important, therefore, at the outset, that due attention should be given to the fact that a pleasure ground planned merely to meet the requirements of the present, or of the next ten

or twenty years, will be an uneconomical undertaking, and a neglect of a very important municipal duty.

"At the same time, the need of a public pleasure-ground for the use of the present population, is a very pressing one; and the immediate demand should not for a moment be set aside on account of the difficulty of providing for the future.

* * * * *

"The conclusion to which these considerations lead, is obviously that whenever a pleasure-ground is formed in San Francisco, it should have a character which the citizens will be sure to regard with just pride and satisfaction. It should be a pleasure-ground second to none in the world—a promenade which shall, if possible, become so agreeable to its citizens, that when they go elsewhere they will remember it gratefully, and not be obliged to consider it a poor substitute for what is offered them by the wiser policy of other cities.

* * * * *

"The special conditions fixed by natural circumstances, to which the plan must be adapted, are so obvious that I need not recapitulate them here. Determining for the reasons already given, that a pleasure-ground is needed which shall compare favorably with any in existence, it must, I believe, be acknowledged, that, neither in beauty of green sward, nor in great umbrageous trees, do these special conditions of the topography, soil, and climate of San Francisco allow us to hope that any pleasure ground it can acquire will ever compare in the most distant degree with those of New York or London.

"There is not a full grown tree of beautiful proportions near San Francisco, nor have I seen any young trees that promised fairly, except, perhaps, of certain compact, clumpy forms of evergreens, wholly wanting in grace and cheerfulness. It would not be wise nor safe to undertake to form a park upon any plan which assumed as a certainty that trees which would delight the eye can be made to grow near San Francisco by any advantages whatever which it might be proposed to offer them. It is perhaps true that the certainty of failure remains to be proved, that success is not entirely out of the question, and it may be urged that experiments on a small scale should be set on foot at once, to determine the question for the benefit of future generations; but, however this may be, it is unquestionably certain that the success of such experiments cannot safely be taken for granted in any general scheme that may, at this time, be offered for the improvement of the city.

"The question, then, is, whether it be possible for San Francisco to form a pleasure-ground peculiar to itself, with a beauty as much superior to that of other such grounds, *in any way*, as theirs must be superior to what it can aspire to in spreading trees and great expanses of turf.

"I think that it can.

* * * * *

"In any pleasure-ground for San Francisco, the ornamental parts should be compact; should be guarded from the direct action of the northwest wind; should be conveniently entered; should be rich in detail; close to the eye, and should be fitted to an extensive system of walks, rides, drives and resting-places. These latter should also be sheltered as much as possible from the northwest wind; should be of such a plan that their public use can be efficiently regulated without cumbrous,

unusual, or very expensive police arrangements, and should be easily kept clean and free from dust. No ground should be selected for this improvement which is already of very great value, yet the neighborhood should be of a character which will ultimately invite the erection of the best class of private mansions and public edifices. Entrance to it should be practicable at no great distance from that part of the town already built up; it should extend in the direction in which the city is likely to advance, or should be so arranged that an agreeable extension can be readily made in that direction hereafter. At the same time, it should have such a form, that when the city shall be much enlarged, it will so divide it that, without subjecting the trees and shrubs it contains to destruction during great conflagrations, it shall be a barrier of protection to large districts which would otherwise be imperiled. It is further desirable that it should not make any great change in the present plans of sewerage, lighting, and water supply necessary; should not present any insurmountable obstructions to the ordinary ways of passage or business transportation between different parts of the city; should not block the city railroads or other public works, and should not greatly disturb buildings already erected, streets already graded, sewered and paved, or otherwise cause heavy losses or depreciation of value to the existing property of the city, or that of corporations or private citizens.

"If there is any scheme by which all these seemingly conflicting requirements can be met, no arrangement which can be proposed, that falls short of it, will long be considered satisfactory. Changes of detail, revisions, repairs, temporary expedients to meet special difficulties, will constantly be suggested, discussed, and from time to time adopted; and thus in the end any less comprehensive plan will prove excessively inconvenient and expensive. It will be much more economical to adopt a plan which comprehends everything that is likely to be wanted at the outset. The whole scheme of improvements should, as far as possible, therefore, be definitely established at the outset, and the plan of the city in all respects adjusted to suit it.

* * * * *

"The best place for a rural ground, to be retired from the general promenade, that I have been able to find near the city, is in a valley sheltered on the north, west and southwest sides by hills lying north and west of what is designated the 'hospital lot' on the city map, and not far from the Orphan Asylum. This valley is not only unusually protected from wind, but the soil is moist, and I have observed that in the driest season the shrubs and herbaceous plants, of which there is a very abundant natural growth within it, retain their freshness and health better than anywhere else.

"There is a considerable extent of low level ground in the same vicinity, suitable for a parade and play ground of moderate size, which being close on Market Street, near the Mission, will be readily accessible from the present town. It is also very centrally situated with reference to all the suburbs of the city, and is just within the lines to which the streets of the city are laid out by the map of 1865. As beyond this point to the westward the rectangular system of streets will probably have to be abandoned, owing to the steepness and ruggedness of the hills, it offers also a convenient point of division between a scheme of grounds intended for the use of citizens during the next ten or twenty years, and a scheme for future improvements.

“For these reasons I would propose to place here, as far as practicable, all those parts of the general system of pleasure grounds which require considerable lateral expansion. In European town parks, the more strictly rural portions are generally associated with the parts intended to be used as a promenade, in which but little lateral space is really needed. As by the arrangement already sketched out the social public promenade is provided for elsewhere, and as only a moderate area will be needed for military use here, the parade ground proper being located farther out in the country, it will be desirable to bring this area in juxtaposition with the tract to be set apart for the more secluded garden ground, in order to gain a greater general impression of spaciousness than either alone would give. As, however, the purpose of each is quite distinct from that of the other, they should, in the detailed arrangement of the design, be very completely separated. I propose, therefore, to place between them a grand terrace or tribune, readily accessible from each, as well as from the general promenade, and from the common streets of the town. This structure might be formed in two levels, one set apart for persons in carriages, the other for those on foot. On two sides of it might be rich parterres or formal flower gardens with fountains, and the whole might be given a highly architectural character with rich parapets of stone; or it might be cheaply finished with turf banks, bastions, and bays, and plain iron or wooden hand-rails. In connection with this grand central concourse there should be suitable stands for music, for fireworks, and for public speaking. These should face toward the parade ground, in which a crowd of many thousand persons might be assembled without danger of injury to plants or objects of art, and where a regiment might be manœuvred, or a division reviewed in marching column. Additional accommodations for spectators on foot and in carriages should be arranged all around its margin. It should be placed at as low a level as practicable, with higher ground and thick plantations on the windward side.

“On the other side of the terrace or tribune, in a still more thoroughly protected position, I would have a small garden formed in the nook of the hills, facing to the southeast, with a grove of trees in the upper part and in that part nearest the tribune, the remainder being thrown into a surface of picturesque form, with rocks and terraces, and planted closely and intricately with shrubs and vines, with walks running among them, and frequent seats, arbors, and small sheltered and sunny areas of turf and flowers. In the lowest part there should be a flatter space, in which there should be laid out and kept up at any expense for maintenance that might be found necessary, a small clear lawn of turf sloping down to the shore of a pool of still water, on the other side of which there should be the finest display of foliage in natural forms which art could command. From within this garden, no carriage road or buildings, except those of a rural character, inviting rest, should be seen, and no pains should be spared to make it a spot of pure and tranquil sylvan loveliness. If it is a question whether anything of this kind could be maintained in a large city without being misused, and rendered practically valueless for those who would most enjoy it, through the misbehaviour of lawless men and boys, the Ramble in the Central Park, parts of which in a great degree realize what I should attempt, gives a sufficient answer.

“For some years to come, such a series of grounds and structures as I have suggested near the Orphan Asylum, with a Marine Parade at Point San José, and a spacious promenade between them, would probably suffice.

"A line between these two points would be nearly parallel to a line equally subdividing the present population of the city, being within ten minutes drive of the City Hall and the Lincoln School House respectively; and the best course for a promenade to be laid out between them, having regard merely to the beauty and fitness of the promenade itself, would be a moderately direct one, carried in a succession of easy curves, generally in the depression of the hills.

"If, however, the value of the land which would need to be purchased, and the disarrangement of the present lines of streets and properties which would be required to carry out this plan, should be thought a very great objection to it, it would be practicable to make use of Van Ness Avenue, from the water line to Eddy street, and I think it best to presume that this would be deemed advisable.

"Taking Van Ness Avenue, I should add to it one tier of building lots on each side, which gives a space 390 feet wide. Fifty-five feet of this space on each side might be appropriated to streets, into which the cross streets now falling into Van Ness Avenue would lead, without there being necessarily any change in the present plans for their grading, paving, sewerage, or piping. The present middle tier of lots of the blocks on each side of Van Ness Avenue would then be front lots on these two streets, which would be in all respects formed in the usual manner, except that it might be considered best not to lay any walk on the sides opposite the houses. There would remain a space to be given up to the promenade and ornamental ground 280 feet wide. Within this an excavation would be made, varying in depth a little, according to the shape of the surface, but everywhere at least 20 feet deep. The sides of the excavation should slope so as to leave a nearly level space at the bottom 152 feet wide. In the center of this might be formed a mall 24 feet wide, flanked on each side by a border, to be used as will hereafter be described. Between the borders and the foot of the slopes might be two roadways, each 54 feet wide, and 15 feet being made of loose sifted gravel, as a pad for saddle horses, and the remaining 39 feet finished with hard rolled gravel for carriages. Immediately outside the roadways, the surface should usually rise very gently and be occupied by beds of turf or flowers, which should be carried up irregularly until lost under plantations of shrubs and trees. The upper part of the slopes adjoining the streets should be everywhere planted with coniferous trees set closely and trimmed so as to form a lofty hedge or thick screen sufficient to break off the wind from the less sturdy plants within.

"At such intervals as might from time to time be deemed advisable, bridges to carry streets across the promenade grounds, would have to be constructed, and at each of these bridges entrances should be arranged by which persons on foot could reach the mall. Access to the roads may be obtained by carriage approaches descending the slopes in lines diagonal to the general course, starting midway between the bridges.

"After crossing Eddy street, the promenade might fork into two branches, that to the left going straight to the southwest corner of the present Yerba Buena Park, where the Pioneer Monument is to be placed, which would form the vista-point of the mall. Here it would terminate with an entrance on Market Street, six blocks out from Montgomery street. The fork to the right would be at right angles to the first, and run parallel to Market street until it reached the vicinity of the low ground near the Orphan Asylum, where it would connect with the terrace before

described. Here it would be divided, one branch of the roadway being carried around the garden, following the hills; the other making the circuit of the parade ground; the mall being arranged to branch out into the garden walks, and also to lead around the parade.

"The system of roads and walks after leaving this point, would resume more or less of the original restricted form, and would be carried on as far as might be thought advisable, as an extension of the general promenade. Between the Pioneer Monument and the old Spring Valley Reservoir near the Orphan Asylum, little having been done toward the carrying out of the existing plan of the city streets on the west side of Market street, I think it would be best to revise the city map, both to secure greater convenience for business purposes, and to increase the dignity of the approaches and surroundings of the parade and garden. The small pieces of ground now reserved in this vicinity for public squares, may as well be thrown into streets and lots, and the streets at present laid out to divide the property between Market street and the proposed promenade, be given up, and a more simple and symmetrical plan adopted.

* * * * *

"If such a plan should be adopted as I have suggested, each section of the general promenade formed by the bridges should receive a somewhat different treatment, especially in the border between the mall and the roadway. In some sections the border may be treated in a natural style; in others, in a formal style. The latter would be especially applicable where the level of the natural surface and the adjoining streets is highest and the cuttings deepest, as in these situations it may be best to employ retaining walls, and throw the ground into terraces on the exterior slopes; then, at some points, the border may be decorated with vases elevated on pedestals, baskets of flowers, yuccas, aloes, orange trees, or other exotic plants in tubs, which would admit of their being placed under shelter. Another section of the mall should be planted with fastigate trees and shrubs, another with cactuses, another with standard roses, another with a particular class of flowering shrubs, another with creeping plants pegged down, another with a vegetable embroidery upon fine turf, another with beds of tulips, of violets, or of callas, etc.

"At some points, the walks should be carried out to the edge of the roadway, (as shown in the vicinity of the bridges upon the sketch C), so that people can step upon it from their carriages, or converse with them upon it without getting out. Some of these openings should be covered with pavilions of rustic or lattice work, overgrown with vines or creepers and furnished with seats; at other points the walk may be thrown out to the road on each side, and the center occupied by smaller pavilions, or by fountains, statues, cages of birds, dove cotes, rabbit hutches, small paddocks of gazelles or antelopes, tanks of aquatic plants, globes of fish, or such suitable objects of art or curiosity, as may from time to time be acquired by the city, either as gifts or by purchase. By slight modifications of the general plan, the details could be modified to an indefinite extent, and every desirable object might be placed in the position most suitable to exhibit it to advantage, either from the carriage road or the walk, or from both. Portions of the mall, for instance, might be made lower than the adjoining road, and divided, so as to run within narrow rocky ravines, in the ledges and crevices of which would be the most delicate plants, or the rocks might be covered with ivy.

"Thus, in minor points, the design could be everywhere varied, always taking care, however, that the slopes should be of a somewhat larger style than the one adopted for the borders of the central mall. At the same time, if considerations of economy should be required to control the design in this respect, a plain turf finish might be given to the borders, and the slopes might be planted with masses of common shrubs and small trees, such as the lilacs, mock orange, calceanthus, acacia, flowering currant, elder, laburnum, buckeye, manzanita, photinia, ceanothus, magnolias, laurels, azalias, ædenostema, eriodyction, golden-leaved chestnut, holly-leaved berry, and many others which may be obtained in large quantities from the cañons of the coast range. Some sections might be devoted to an illustration of the shrubs of California, others to those of Australia, China, Japan, or Siberia, in so far as they would suit the situation.

"As, however, the winter of San Francisco is peculiarly adapted, whenever it is fair weather, to the enjoyment of the promenade, I should prefer to plant much the larger part almost wholly with evergreens, especially with the smooth-leaved evergreen shrubs and vines, like the laurel, myrtle, rhododendrons, Chinese magnolias, and ivy. With a smaller expenditure than several individuals in Europe and the Eastern States have made for the purpose, the citizens of San Francisco might, I believe, provide themselves in a few years with a "Winter Garden" more beautiful than any now to be found in the world.

* * * * *

"To the present time the street plan of San Francisco has been contrived with scarcely any effort to adapt it to the peculiar topography of the situation. On a level plain like the site of the city of Philadelphia, a series of streets at right angles to each other is perfectly feasible, and the design is as simple in execution as it appears on paper; but even where the circumstances of site are favorable for this formal and repetitive arrangement, it presents a dull and unartistic appearance, and in such a hilly position as that of San Francisco, it is very inappropriate. If the present site, as it was in 1850, had now to be laid out for a large city, it would be desirable to adopt a different arrangement in many respects.

"If hills of considerable elevation occur within the boundary of a site marked out for a city, this salient difficulty should be met at the outset, and a series of main lines of road should be arranged that will ascend these hills *diagonally*, in such a way as to secure sufficiently easy grades. The skeleton lines being thus determined on, a series of transverse and connecting streets should next be provided that will divide the whole into sections of moderate size, and each of these intermediate districts should then be planned separately, and with as much regularity as the circumstances of the case admit.

"The city of San Francisco is unquestionably in a very different degree of advancement from what it was in 1850; but even now it is evident that by far the larger portion of the city remains to be built up. Although, therefore, very much has been done that it would be impossible to think of changing, and the interests involved in the portions that are not improved are, doubtless, so numerous as to make a change anywhere difficult and troublesome; still the future advantage to the city of a judicious reconsideration of the whole subject at this time can hardly be overestimated, especially with reference to that portion of the city that remains entirely unoccupied by buildings of a permanent character.

"The first cost of constructing the streets upon such a plan as has been suggested, would probably be less than upon the present; and the advantage in the saving of wear and tear to horses and vehicles, to say nothing of fatigue to persons on foot, would be incalculable."

With the foregoing, it is to be noted that the Government of the United States holds in possession a large tract comprising some three hundred acres, known as the "Presidio," situated near the entrance to the Harbor, on the northwestern bounds of the City. This tract having for a period of twenty years been held for Government purposes, and comprising a much larger territory than required for military use, attention was called to the propriety and feasibility of obtaining its use for a Park, excepting that portion needed for barracks for soldiers and other military uses.

With such object, a Committee, consisting of Supervisors Rowell, Ashbury, and Clayton—appointed on the sixteenth of June, 1866—was instructed to confer with the United States military authorities of the Department of the Pacific in regard to the matter.

The response received from Major General Halleck, commanding the Division of the Pacific, was favorable. Survey and plans proposed were asked for, when furnished to be submitted to the War Department at Washington for consideration.

Authority for this was given by a resolution unanimously adopted in Board of Supervisors, September 10th, 1866, viz :

"*Resolved*, That the Special Committee appointed to confer with the Government authorities in reference to procuring a portion of the lands of the Presidio for the purposes of a Public Park, be and hereby is authorized to procure a survey to be made by the City Surveyor, of the Military Reservation at the Presidio, for the purpose of ascertaining what portion of said lands are suitable for the uses of a Park, and, can be used for that purpose without prejudice to the military requirements of the Government at that point."

Pending this, no further steps have been taken.

WARDS AND ELECTION DISTRICTS.

In pursuance of authority granted at the last session of the Legislature, a number of the Wards have been subdivided so as to constitute two Election Districts, for greater convenience of voters, a polling place or precinct being designated in each District.

The following shows the boundaries of the Wards and Districts as now established :

FIRST WARD.—Bounded by Washington street on the south, Kearny street

on the west, and the Bay of San Francisco on the north and east. Islands in the Bay attached to First Ward.

SECOND WARD.—Bounded by Kearny street on the east, Vallejo street on the south, Larkin street on the west, and the Bay of San Francisco on the north.

THIRD WARD.—Bounded by Washington street on the north, Kearny street on the west, California street on the south, and Market street and the Bay of San Francisco on the east.

FOURTH WARD.—Bounded by Vallejo street on the north, Kearny street on the east, Washington street on the south, and Larkin street on the west.

FIFTH WARD.—Bounded by California street on the north, Kearny street on the west, and Market street on the south and east.

SIXTH WARD.—Bounded by Kearny street on the east, Pine street on the south, Larkin street on the west, and Washington street on the north.

SEVENTH WARD.—Bounded by Harrison street on the south, Second street on the west, Market street on the north, and the Bay of San Francisco on the east.

Election District No. 1.—Bounded by Howard street on the south, Second street on the west, Market street on the north, and the waters of the Bay on the east.

Election District No. 2.—Bounded by Harrison street on the south, Second street on the west, Howard street on the north, and the waters of the Bay on the east.

EIGHTH WARD.—Bounded by Kearny street on the east, Market street on the south, Larkin street on the west, and Pine street on the north.

Election District No. 1.—Bounded by Post street on the south, Larkin street on the west, Pine street on the north, and Kearny street on the east.

Election District No. 2.—Bounded by Market street on the south, Larkin street on the west, Post street on the north, and Kearny street on the east.

NINTH WARD.—Bounded by Harrison street on the north, Seventh street on the west, and the Bay of San Francisco on the east.

TENTH WARD.—Bounded by Market street on the north, Seventh street on the west, Harrison street on the south, and Second street on the east.

Election District No. 1.—Bounded by Harrison street on the south, Fourth street on the west, Market street on the north, and Second street on the east.

Election District No. 2.—Bounded by Harrison street on the south, Seventh street on the west, Market street on the north, and Fourth street on the east.

ELEVENTH WARD.—Bounded by Seventh street on the east, by Market street and Ridley street in a direct line to the Pacific Ocean on the north, by the Pacific Ocean on the west, and by the line of San Mateo County and the Bay of San Francisco to the line of Seventh Street on the south and east.

Election District No. 1.—Bounded on the east by Seventh street to Mission Creek, on the south by Mission Creek and Sixteenth street to Dolores street, and on the west by Dolores street to Market street, and westerly and northerly by Market street to Seventh street.

Election District No. 2.—Bounded on the north by Mission Creek and Sixteenth street to Dolores street, on the east by Dolores street from Sixteenth to Ridley street, thence northerly by Ridley street and a direct line to the Pacific Ocean, thence westerly by the Ocean to the line of San Mateo County, on the south by the line of San Mateo County to the Bay, and easterly and northerly by the waters of the Bay to Mission Creek.

TWELFTH WARD.—Bounded by Larkin street on the east, by Market street and Ridley street in a direct line to the Pacific Ocean and the Bay of San Francisco on the west and north.

Election District No. 1.—Bounded by Larkin street on the east, Bush street on the south, the Pacific Ocean on the west, and the Bay on the north.

Election District No. 2.—Bounded by Bush street on the north, Larkin street on the east, Market street to Ridley street, Ridley street in a direct line to the Pacific Ocean on the south, and the Pacific Ocean on the west.

OFFICERS OF ELECTION.

1st Ward—Election District.....	{ Clerk.....	Benjamin Shellard.
	{ Judges.....	{ Samuel Neall, John McHenry.
2d Ward—Election District.....	{ Clerk.....	Jeremiah Smith.
	{ Judges.....	{ H. H. Lawrence, M. C. Conroy.
3d Ward—Election District.....	{ Clerk.....	J. H. Church.
	{ Judges.....	{ E. A. Robinson, H. G. Langley.
4th Ward—Election District.....	{ Clerk.....	J. M. Johnston.
	{ Judges.....	{ C. C. Morton, S. L. Lupton.

OFFICERS OF ELECTION.—CONCLUDED.

5th Ward—Election District	{ Clerk.....	Robert Merrill.
	{ Judges.....	{ N. B. Stone, M. Winn.
6th Ward—Election District.....	{ Clerk.....	George O. Whitney.
	{ Judges.....	{ J. C. Harvey, H. R. Johnson.
7th Ward—Election District No. 1.	{ Clerk.....	C. E. Johnston.
	{ Judges.....	{ Peter Wheelan, R. S. Cutter.
7th Ward—Election District No. 2.	{ Clerk.....	J. W. Slosson.
	{ Judges.....	{ C. A. Hawley, J. C. Hubbard.
8th Ward—Election District No. 1.	{ Clerk.....	C. J. Snow.
	{ Judges.....	{ Jacob Lynn, Lewis Teese.
8th Ward—Election District No. 2.	{ Clerk.....	Franklin Williams.
	{ Judges.....	{ W. P. Kirtland, Lewis Peck.
9th Ward—Election District.....	{ Clerk.....	J. M. Buffington.
	{ Judges.....	{ Isaac Tabor, Thomas Boyce.
10th Ward—Election District No. 1.	{ Clerk.....	R. A. Marden.
	{ Judges.....	{ Alfred Miesegaes, N. P. Copp.
10th Ward—Election District No. 2.	{ Clerk.....	Bernard Lande.
	{ Judges.....	{ A. Benard, Herman Rankin.
11th Ward—Election District No. 1.	{ Clerk.....	A. G. Randall.
	{ Judges.....	{ Donald McLennan, Thomas N. Cazneau.
11th Ward—Election District No. 2.	{ Clerk.....	Martin Fennell.
	{ Judges.....	{ M. W. Lamb, John T. McGeoghégan.
12th Ward—Election District No. 1.	{ Clerk.....	J. B. Morton.
	{ Judges.....	{ Wm. T. Canham, J. A. Rodgers.
12th Ward—Election District No. 2.	{ Clerk.....	Charles P. Kimball.
	{ Judges.....	{ E. Heath, Thomas Bolster.

NOTE.—The term of office of the Clerks and Judges of Elections is two years, unless sooner made elective by Board of Supervisors, which body also has power to fill vacancies.

MILITARY.

By an Act "Concerning the Military of the State of California," approved April 2d, 1866, material changes were made in the organization of the State Militia, by which several regiments, battalions, and unattached companies were mustered out of service, or consolidated into a new organization, now known as the "National Guard," consisting of six brigades, composed of eighty companies; sixty-four of infantry, of not less than fifty privates, with officers and non-commissioned officers; twelve of cavalry, of not less than thirty privates, with officers and non-commissioned officers, and four of artillery, officers, etc.

THE NATIONAL GUARD

is under command of Major-General LUCIUS H. ALLEN; head quarters, San Francisco, whose Staff is as follows:

Lieut. Colonel S. C. ELLIS.....	Ass't Adj't Gen'l, and Chief of Staff.
Lieut. Colonel A. H. HOUSTON.....	Commissary.
Lieut. Colonel A. W. VON SCHMIDT.....	Engineer Officer.
Lieut. Colonel DANIEL NORCROSS.....	Paymaster.
Lieut. Colonel S. O. HOUGHTON.....	Inspector.
Lieut. Colonel THEO. A. MUDGE.....	Ordnance Officer.
Lieut. Colonel J. H. STEARNS.....	Quartermaster.
Lieut. Colonel J. W. BRUMAGIM.....	Judge Advocate.
Lieut. Colonel GEO. HEWSTON.....	Surgeon.
Major S. P. MIDDLETON.....	Aid-de-Camp.
Major JAS. L. BEYEA.....	Aid-de-Camp.

That portion of the National Guard located in the city and county of San Francisco now consists of two regiments of infantry, three companies of cavalry, and one artillery light battery of six guns, all attached to the Second Brigade; Brigadier General JOHN HEWSTON, Jr., Commanding.

STAFF.

Major G. W. SMILEY.....	Ass't Adj't Gen. and Chief of Staff.
Major JOHN HILL.....	Inspector.
Major W. F. LADD.....	Ordnance Officer.
Major M. M. RICHARDSON.....	Paymaster.
Major C. E. HINCKLEY.....	Commissary.
Major C. L. WIGGIN.....	Quartermaster.
Major A. D. GRIMWOOD.....	Judge Advocate.
Major T. J. P. LACY.....	Engineer.
Major S. R. GERRY.....	Surgeon.
Captain OCTAVIUS BELL.....	Aid-de-Camp.

The San Francisco regiments and Companies thus referred to are as follows:

FIRST REGIMENT OF INFANTRY.

ROBERT SIMSON.....Colonel.
 T. B. LUDLUM.....Lieut. Colonel.
 W. C. LITTLE.....Major.

Company Letter.	Company Name.	Commanding Officer.	No. of Men.

FIRST REGIMENT OF CAVALRY.

CHAS. L. TAYLOR.....Colonel.
 ABIJAH MCCALL ..Lieut. Colonel.
 JOHN H. MARSTON.....1st Major.
 H. M. LEONARD.....2d Major.

Company Letter.	Company Name.	Commanding Officer.	No. of Men.
A.....	..First Light Dragoons...	..Captain Jacob Browning.....	.. 85..
B.....	..San Francisco Hussars..	..Captain G. G. Bradt.....	.. 82..
C.....	..Jackson Dragoons.....	..Captain P. R. O'Brien.....	.. 79..

LIGHT BATTERY.

Company Letter.	Company Name.	Commanding Officer.	No. of Men.
H.....	..California Guard.....	..Captain W. C. Burnett.....	.. 82..

During the interval between the passage of the Act of April, 1866, and the date of organization of the National Guard under its provisions, most companies of the State Militia organization continued in service until regularly mustered out, without receiving pay for armory rents or regimental incidental expenses, and a question arose whether, under the law, they were entitled to receive it; this has been satisfactorily settled; all of the companies so continuing in service have been paid in full to respective dates of mustering out, and those mustered into the National Guard, until the 1st of October, 1866. The law referred to reduced the allowance to Colonels, for incidental regimental expenses, from \$100 to \$25 per month, at which latter sum their demands have been audited or paid. The present monthly allowance for incidental expenses and armory rents is fixed: to Colonels of Regiments, \$25; to Captains of Companies, \$50; to California Guard Light Battery, \$40 for each gun, making \$240 for their six guns.

HARBOR AND WHARVES.

The People of San Francisco, as well as those of the State and elsewhere, having commercial relations with the port, particularly in shipping, have good reason for congratulation in the certain early building of the long contemplated Sea Wall, or masonry constructed harbor protection on the water front.

The success which has thus far attended the labors of the Board of State Harbor Commissioners meets with general commendation, and is confidently believed to be gratifying to all who desire the greatest facilities extended to the large and ultimately vast commercial interests, for which it is the great object in every way suitably to provide.

Heretofore, so much has been said and written in regard to this subject, and the matter is generally so well understood that it is needless now to enter into a recapitulation of all the doings of the Commissioners, since their organization Nov. 4th, 1864; the practical results of their exertions and the earliest completion of the great work intrusted to them, is more important and most looked for. The Board now consists of

CHAS. L. TAYLOR, chosen by electors of the State,

S. S. TILTON, appointed by the Legislature, and

JAMES LAIDLEY, chosen by electors of San Francisco.

ROBT. E. C. STEARNS, Secretary, appointed by the Board.

By the courtesy of the Secretary, Mr. Stearns, the following exhibit of transactions of the Board, for thirteen months ending October 4th, is presented :

R E C E I P T S .

WHARVES, ETC.	Gross Receipts.	Current Expenses.*	Net Receipts.
Clay Street Wharf.....	\$15,744 75	\$ 2,611 25	\$13,133 50

* This Fund cannot be drawn upon by the Commissioners, except for the payment of contracts when new wharves, etc., are built, or for dredging.

† Commissioners' Orders on this Fund, only in payment for contracts performed in connection with the *permanent* improvement of the Water Front.

It will be seen by the foregoing statements that the Harbor Commissioners have, during the period named, viz: from September 4th, 1865, to October 2d, 1866, thirteen months, remitted to the State Treasurer to the credit of the

Wharf and Dock Fund	\$ 33,609 84
Harbor Protection Fund	110,816 34
Making a total of	\$144,426 18

or an average monthly remittance of \$11,109.70, being an average increase over the previous eleven months, as shown in the Municipal Report of last year, (p. 372) of over \$2,000 per month, and exceeding the estimated remittance to said Funds *vide* Annual (1865) Report of the Commissioners to the Governor (p. 23) of over \$1,100 per month. This *increase* is not owing to any *decreased* expenditure in the repairs of the wharves and other structures; for the average monthly expenditure for repairs for the period mentioned in the Municipal Report of last year was \$1,383.31 per month, while for the thirteen months included in this Report, the cost of the same has averaged \$1,494.07 per month, but is the result of additional facilities furnished to commerce in the way of substantial and well kept structures.

All of the wharves in the possession of the Commissioners are now in excellent order, and the accommodations furnished to the commerce of the port, though perhaps short of what they should be, are far superior to what they have been at any previous period.

In addition to the amount expended for urgent repairs, (\$19,423) the sum of \$44,106.50 has been expended for dredging the slips at Mission Street, Vallejo Street, and North Point Wharves.

During the year the Commissioners have had a thorough survey and soundings of the Water Front, made by competent engineers, and in April last the Board offered, through the newspapers, a *premium* of \$1,000 for the best plan for a Sea Wall for the protection of the Water Front of the City.

In response to said offer, over thirty plans were submitted by various parties, requiring the most careful and studious examination. Finally, on the twentieth of September last, the plan (marked Y. y) submitted by W. J. Lewis and Geo. F. Allardt, was adopted by the Commissioners.

Lack of space in this report prevents any extended description of the plan referred to; it consists, however, of a granite wall upon an immediate foundation of concrete, the whole resting upon a foundation of broken rock, and the front of the wall protected at its base against the action of the waves by a rip-rap of heavy stones; the estimated cost of this structure is \$2,462,470.

The suits commenced in 1864 by the Commissioners through their counsel, Mr. Edward Tompkins, against the Broadway and Pacific Wharf companies, also against the owners of the Market Street and Central wharves having recently been decided in favor of the State by the Supreme Court, the revenue of the Commission will be largely increased ere many months. It is presumed that quite extensive repairs may be required upon the structures held by said companies which will, of course, absorb the revenue from them for some considerable time.

HEALTH DEPARTMENT.

In the current year, as well as during the fiscal year closed, particular attention has been paid to the enactment and carrying out of suitable sanitary measures and regulations, tending to promote greater health in the community.

At the time of the Asiatic cholera visitation in 1850-'51, a Board of Health was first organized in San Francisco, which by Ordinance No. 87, approved Nov. 5th, 1850, was composed of the Mayor, one member of the Board of Aldermen, one member of the Board of Assistant Aldermen, three citizens of the city, and three from medical men of the city who were citizens.

The comparative mildness with which the epidemic prevailed in the city at that time, and its entire disappearance early in the year 1851, was followed in subsequent changes of government, by abolishment of the ordinances.

Under provisions of Section 74 of the Consolidation Act, (amended in 1863) by order No. 626 of the Board of Supervisors, approved April 3d, 1865, a new Board of Health was provided for, to be composed of the Mayor, as President, and six members, five to be appointed by the Board of Supervisors, two to be from the medical men of the city, two from citizens at large, one member of the Board of Supervisors, and the Harbor Master.

On the tenth of July the five members were chosen by ballot, to wit:

From Board of Supervisors	Dr. ISAAC ROWELL,
	Dr. J. P. WHITNEY,
From Physicians and Citizens.....	Dr. S. F. ELLIOT,
	Dr. J. D. B. STILLMAN,
	Dr. L. J. HENRY.

The Board organized on the eleventh of July, and appointed Chas. L. Wiggin Secretary.

That order was amended on the sixteenth of October, 1865, by Order No. 664, under which the Board was formed of the Mayor, three members of the Board of Supervisors, comprising the Committee on Health and Police, the Harbor Master, and a competent physician of the city and county to be appointed by said Board, also to be Health Officer.

On the thirtieth of October, Dr. J. M. McNulty was chosen Health Officer, which position he holds at the present time, having for his clerk, Capt. W. F. Scott. (For record of that portion of the Health Department see pages 222 to 235.)

On the twenty-seventh of March, 1866, an act was passed by the State Legislature entitled, "An Act to establish a quarantine for the bay and harbor of San Francisco, and sanitary regulations for the City and County of San Francisco," approved April 2d, 1866. By that act a new Board of Health was constituted, composed of the Mayor, who is *ex officio* President, the Quarantine Officer, the Coroner, the President of the Chamber of Commerce, and the Chairman of the Committee on Health and Police of the Board of Supervisors.

The members of the Board organized under the last act referred to, are as follows :

H. P. COON, Mayor, President.

Dr. S. F. ELLIOTT, Quarantine Officer.

Dr. S. R. HARRIS, Coroner.

R. G. SNEATH, Esq., President Chamber of Commerce.

CHAS. CLAYTON, Esq., Chairman of Committee on Health and Police of the Board of Supervisors.

CHAS. L. WIGGIN, Clerk.

At a meeting held May 15th, Mr. J. H. Clarke was appointed Health Inspector.

The Quarantine Officer, Dr. S. F. Elliott, was appointed by the Governor, June, 1866 ; term of office, two years.

By the different provisions thus referred to, the sanitary condition of the city proper is under charge of the Health Officer, Dr. McNulty, while the supervision of the bay and harbor is intrusted to the Quarantine Officer, Dr. Elliott.

The quarantine grounds of the bay and harbor are located at the anchorage of Saucelito, and embrace the space of one mile in the bay around the town of Saucelito.

The Quarantine Officer has power, and it is made his duty, to order all vessels to the quarantine grounds which are subject to quarantine, and generally to perform all acts which quarantine officers are usually authorized to perform. But as yet no case has occurred making it necessary to place a vessel in quarantine, and it may be said then in the Health Officer's Department the City has been equally fortunate.

REGISTRY LAW AND MUNICIPAL ELECTIONS.

Several acts having important bearings upon municipal affairs were passed by the Legislature of 1865-'66. Prominent among these were the "Registry Act," approved March 19th, 1866 ; an "Act to organize and regulate Justices' Courts," approved March 26th, and an "Act changing the time for holding Municipal elections," approved April 2d.

After passage of the Registry Act and the act changing time for holding Municipal elections, doubts were entertained as to sufficiency of time allowed for enrollment of citizens prior to the day fixed for the election to be held Sept. 5th. To accomplish this, energetic measures were adopted and extra expenses incurred, so that during the last three days provided for sessions of Boards of Registration comparatively few applications for enrollment were made. In five of the twelve wards, two election districts, for greater facility of enrollment and voting purposes, were established. The number of citizens enrolled and the number of votes polled were as follows :

Wards.	No. enrolled.	No. voting.
1st	1056	976
2d	1053	912
3d	667	551
4th	1000	914
5th	816	727
6th	991	853
7th	1528	1333
8th	1979	1756
9th	969	834
10th	2749	2492
11th	1343	1291
12th	822	752
Totals	<u>14,973</u>	<u>13,371</u>

The number of voters enrolled thirty days before election, as shown above, was fourteen thousand nine hundred and seventy-three, to which there is to be added the number enrolled during the thirty days and inclusive of special sessions of the enrolling officers in the three days immediately prior to the fifth of September, which is estimated at seven hundred, showing that some twenty-three hundred enrolled citizens did not vote.

The total number of votes polled at the three preceding Municipal elections were respectively in years 1863, 10,147 ; 1864, 10,847 ; 1865, 13,770.

The City and County officers chosen, whose terms commence on the first Monday in December, 1866, are :

Auditor, Henry M. Hale.

Chief of Police, Patrick Crowley.

City and County Attorney, Horace M. Hastings.

Tax Collector, Charles R. Story.

Superintendent of Public Streets and Highways, Geo. Cofran.

Public Administrator, William A. Quarles.

Fire Commissioners, Benjamin H. Freeman, John V. McElwee.

JUSTICES' COURT.

The Act creating a Justice's Court takes effect on the first day of January, 1868, and does away with the present system of one Justice of the Peace for each township composed of two wards, creating in lieu thereof, a Court to be composed of five Justices, to be elected by the City and County at large at election in October, 1867, the Justices to hold office for two years, one of the number each year, to be appointed by the Board of Supervisors, Presiding Justice.

Said Board is also authorized to appoint a clerk of the Court upon a recommendation of a majority of the Justices, and not more than three constables, severally to hold office for two years, unless sooner removed for cause.

The Court fees are made payable into the Special Fee Fund of the City Treasury, from which the salaries of the Justices, Clerk, and Constables are to be paid. The salaries fixed by the Act are

Presiding Justice, per annum.....	\$3000
Four Justices of the Peace, each per annum	2400
One Court Clerk, per annum	2400
Two Constables, (one additional, if required) each per annum	1200

NOTE.—Several resignations and new appointments have been made during the year, which accounts for the difference in receipts of many officers, as returned above.

STREETS AND SQUARES.

In the Report of the Superintendent of Public Streets and Highways, pages 233 to 362, a full statement is presented of the work done upon Public Streets during the year, the amount of which is large, but less, in the aggregate, than that of the year preceding. The work, in general, is of a superior character.

The following table shows yearly assessments for street work since 1856 :

YEARS	City.	Property Owners.	Total.
From November 14th, 1856, to Nov'r 15th, 1857	\$608	\$57,938	\$58,543
From November 14th, 1857, to Nov'r 15th, 1858	4,316	40,296	44,608
From November 15th, 1858, to Nov'r 15th, 1859	5,532	86,685	92,217
From November 15th, 1859, to June 30th, 1860.	25,269	141,033	166,302
From July 1st, 1860, to June 30th, 1861	12,205	189,627	201,832
From July 1st, 1861, to June 30th, 1862	11,687	380,577	392,264
From July 1st, 1862, to June 30th, 1863	12,106	475,759	487,865
From July 1st, 1863, to June 30th, 1864	12,834	649,589	662,423
From July 1st, 1864, to June 30th, 1865	14,540	1,144,717	1,159,257
From July 1st, 1865, to June 30th, 1866	45,932	1,043,632	1,089,564
Total	\$145,122	\$4,209,953	\$4,354,875

It is noticeable that during the last four years street assessments were payable in United States notes, the value of which, as compared with gold, varied largely in the time mentioned, and caused great difficulty in the carrying out of work ordered, the payment for labor in all instances being in coin. Making allowance for this, an average deduction of twenty-five to thirty per cent. would be made from the figures above, so as to bring street payments to the gold basis of all other city payments.

City possessions, as public grounds, at the present time are of limited proportions, as the following will show :

Names.	Between what Streets Located.	Acres.	100ths
Alta Square.....	Scott, Clay, Steiner, and Pacific	12	69

Gerrit W. Bell.

The Board of Supervisors, in the year closed, lost by death one of its foremost and most active members — Mr. Gerrit W. Bell, Representative of the now Eighth Ward.

Mr. Bell entered the Board on the seventh of October, 1861, and, twice reëlected to the same position, retained his seat until the sixteenth day of April, 1866. On that day he died, falling one of the victims to the memorable disaster caused by the explosion of a case of nitro-glycerine held for examination by the Express Department of Wells, Fargo & Co., before transit to the interior.

At a regular meeting, held pursuant to adjournment, on the evening of that day, the melancholy event was communicated to the Board by Supervisor McCoppin, and responded to by the President in brief remarks.

Upon introducing resolutions of respect to the memory and acknowledgment of services of the deceased, Mr. McCoppin said :

“ When the Clerk, after calling the roll, announced ‘ eleven members present,’ all must have been struck with the sad thought that the twelfth member would never more be with us. He felt incapable of expressing his feelings on the present occasion. Mr. Bell was, next to himself, the oldest member of the Board. In his death, the Board had lost its best member, society one of its brightest ornaments, and San Francisco one of its most valuable citizens. He had had frequent occasion to experience Mr. Bell’s kindness towards himself. In all his public duties he was most faithful to his constituents, and he honestly believed that Mr. Bell never conceived an improper or unjust thought. He certainly had never met a man of greater singleness of purpose and purity of character. The catastrophe by which he had been taken from us was so sudden and terrible as to overpower us all. Just before the explosion occurred he was about leaving the City Hall to go to Mr. Bell’s office to consult him on business connected with this Board. On hearing of the catastrophe he hastened to the spot, and was greatly relieved at being told he was unharmed ; but soon learned, with the keenest sorrow, that the first information was incorrect, and that he was dead. We had indeed sus-

tained an irreparable loss. There was nothing left us to-night but to adjourn, as a mark of respect to the memory of one who has gone from us to be with us no more."

His Honor, Mayor Coon, in response, said: "All sympathize with the remarks of the member from the Eleventh, and feel the great loss which has befallen us in the death of Mr. Bell. The accident has so appalled every one as to render us almost incapable of expressing our feelings."

The resolutions presented by Supervisor McCoppin were unanimously adopted, to wit:

"Whereas, A terrible catastrophe has this day saddened the hearts of the people of San Francisco, and carried sorrow and mourning into the families of many of our citizens;

And whereas, Among those who were, by an inscrutable dispensation of Almighty God, suddenly removed from life, there was a valued member of this Board, GERRIT W. BELL, Supervisor of the Eighth District, who, for nearly five years past, filled that station with honor to himself and credit to his constituents; who, by his unswerving integrity, fidelity to the public interest, and untiring attention to the business of the Board, commanded the approbation and praise of all who knew him or marked his conduct;

And whereas, In his personal associations, and daily intercourse with the members of this Board as individuals and as a body, all had learned to appreciate and value his sterling worth; therefore, in view of the most sad event which has thus deprived the community of valued citizens and his associates of a dear and attached friend,

Be it Resolved, That the Board of Supervisors hereby tenders sincere and heartfelt condolence to the widow and family of its departed member, and directs that its chamber be draped in mourning for thirty days.

Resolved, That a copy of these resolutions be forwarded to the family of the deceased, and be entered upon the minutes of the Board.

Resolved, That this Board now adjourn until Monday evening, the twenty-third inst., at 7½ o'clock, to which time all business be continued and set for hearing, at same hours as designated for this meeting; meantime, at the call of the President, will assemble in special session to attend, as a body, the obsequies of Mr. Bell."

The Board then adjourned.

SCHEDULE OF OFFICERS OF THE CITY AND COUNTY, SHOWING ANNUAL SALARIES PAYABLE
FROM THE TREASURY, FEES, OR PER DIEMS.

NEW BOARD.

Subsequent to 1862, the date fixed for the organization of the Board was the first Monday in July, of each year, six members being elected annually. By the Act of April 2d, 1866, changing time for holding municipal elections from May to September, the terms of office of present incumbents were extended until the first Monday of December, at which time the Supervisors chosen in September take their seats. The Board will then be composed as follows, viz :

MEMBERS AND MEMBERS ELECT OF THE BOARD OF SUPERVISORS.

1866-7.

Mayor and Ex Officio President H. P. COON.

MEMBERS.

1st Ward, P. H. DALY,	7th Ward, CHAS. CLAYTON,
2d Ward, R. P. CLEMENT,	8th Ward, F. G. E. TITTEL,
3d Ward, WILLIAM B. FAIRMAN,	9th Ward, A. J. SHRADER,
4th Ward, WM. S. PHELPS,	10th Ward, J. H. REYNOLDS,
5th Ward, MONROE ASHBURY,	11th Ward, FRANK MCCOPPIN,
6th Ward, E. N. TORREY,	12th Ward, CHAS. H. STANYAN.

RESOLUTION No. 5556.

RESOLVED, That the Heads of the following Departments be, and are hereby, requested to report to this Board, on or before the first day of August ensuing, the condition of their respective Departments during the fiscal year ending June 30th, 1866, embracing all their operations and expenditures :

Auditor,	Hospital,	Public Schools,	Industrial School,
Assessor,	Treasurer,	Funded Debt,	Police,
Tax Collector,	Sheriff,	Harbor Master,	Coroner,
County Clerk,	County Recorder,	Pound Keeper,	Public Administrator,
Streets,	City & Co. Surveyor,	City & Co. Attorney,	Health Officer.
Fire Department,	License Collector,		

And that all or portions of said reports be published in a volume, in accordance with the requirements of Section 73 of the Consolidation Act. The Clerk of the Board is hereby instructed to send a copy of this Resolution to the Head of each of the enumerated Departments.

In Board of Supervisors, San Francisco, June 4th, 1866.

Adopted by the following vote :

Ayes—Supervisors Clement, Rowell, Phelps, Ashbury, Clayton, Schreiber Shrader, McCoppin, Stanyan.

Absent—Supervisors Titcomb, Torrey, Reynolds.

JAS. W. BINGHAM, Clerk.
